Preface

v

1. Equinus Deformity: Clinical Features, Assessment and Management	1	21. Hip Arthroscopy	33
2. Periprosthetic Fractures of the Hip: Classification, Prevention and Management	3	22. Medical Management of Osteoporosis	34
3. Dupuytren's Contracture: Pathophysiology, Clinical Features and Management	5	23. Spondyloepiphyseal Dysplasia (SED)	35
4. Vacuum-assisted Closure (VAC) Therapy: Principles, Application and Complications	7	24. Boutonnière Deformity	37
5. Bone Transport: Principles, Indications and Surgical Techniques	8	25. Retrocalcaneal Bursitis	38
6. High Tibial Osteotomy (HTO): Definition, Indications, and Techniques	10	26. Transverse Acetabular Fractures	39
7. Hip Resurfacing Arthroplasty: Principles, Indications, and Outcomes	11	27. Spinal Scoliosis	42
8. Bone Scan: Principles, Indications and Clinical Use	13	28. Mega Custom Prosthesis of the Lower Limb	46
9. Lumbar Disc Prosthesis: Overview, Indications, and Surgical Considerations	14	29. Tumor Necrosis	47
10. Cemented Hip Replacement and Prosthesis: Principles, Procedure, and Indications	15	30. Flexor Tendon Injury: Zone II	49
11. Rupture of Achilles Tendon	16	31. Total Elbow Prosthesis	51
12. Ankle-Foot Orthosis (AFO): A Clinical Overview	20	32. Cervico-occipital Fusion	52
13. Patellar Tendon Bearing (PTB) Weight-relieving Orthosis	21	33. Thenar Muscles	53
14. Swan-Neck Deformity	22	34. Coronoid Fracture Management	56
15. Periarthritis Shoulder (Frozen Shoulder)	23	35. Ankle Arthroplasty	58
16. Complications of Knee Arthroscopy	25	36. Aneurysmal Bone Cyst (ABC)	59
17. Phantom Limb Phenomenon	26	37. Sprengel Deformity	61
18. Osteogenesis Imperfecta	27	38. Spinal Shock and Emergency Management of Spinal Cord Injury	62
19. Shoulder Impingement Syndrome	29	39. Caffey Disease (Infantile Cortical Hyperostosis)	64
20. Knee-Ankle-Foot Orthosis (KAFO)	31	40. Exostosis (Osteochondroma)	66
		41. Management of Bone Deficiency in Total Knee Replacement (TKR)	68
		42. Rehabilitation of Paraplegic Patients	71
		43. Short Note on Below-Knee Prosthesis	72
		44. Short Notes on Chondroblastoma	73
		45. Short Note on Biopsy in Malignant Bone Tumors	75
		46. Short Notes on Myelomeningocele (MMC)	76
		47. Short Notes on Heterotopic Ossification (HO)	77

48. Short Note on Ultrasound Therapy	79	80. Shoulder Arthroscopy	150
49. Short Note on Walking Stick	80	81. Discoid Meniscus	153
50. Tuberculous Dactylitis/Spina Ventosa	81	82. Tom Smith Arthritis	155
51. Triple Arthrodesis	83	83. SCIWORA	158
52. Arthrogyposis Multiplex Congenita	86	84. Management of Cartilage Defects	161
53. Surgical Options in Osteoporotic Spine	87	85. Plantar Fasciitis	164
54. Management of Tibial Tuberosity Fractures in Total Knee Replacement	90	86. Unicameral Bone Cyst (Simple Bone Cyst)	166
55. Total Hip Arthroplasty in Developmental Dysplasia of the Hip (DDH)	92	87. Evaluation and Management of Rotational Malalignment in the Lower Limbs	168
56. Arthroscopic Procedures in the Management of Knee Osteoarthritis	94	88. Cryosurgery in Orthopaedic Oncology	172
57. Elbow Injuries in Athletes	95	89. Arthroscopic-assisted Internal Fixation of Bone	173
58. Eosinophilic Granuloma	97	90. Lumbar Canal Stenosis (LCS)	175
59. Osteoid Osteoma	99	91. Unicondylar Knee Arthroplasty	178
60. Immuno-oncology	102	92. Day Care Surgery in Orthopaedics	180
61. Scaphoid Non-union	103	93. Rotator Cuff Tear	183
62. Vertebroplasty	109	94. Posterior Cruciate Ligament-retaining vs. Substituting Designs in Total Knee Arthroplasty	187
63. Preoperative Evaluation for Total Hip Replacement in Unilateral Chronic Arthritis	110	95. Positron Emission Tomography (PET)	189
64. Total Knee Replacement in Rheumatoid Arthritis	114	96. Microdiscectomy	191
65. Painful Non-union	116	97. Patellofemoral Pain Syndrome (Patellofemoral Overload Syndrome)	192
66. Hip Spica Cast Application and Postoperative Management	119	98. Management of Acetabular Bone Defects in Total Hip Replacement (THR)	197
67. Acute Dislocation of Patella	121	99. Elbow Contractures	201
68. Trigger Finger and Thumb	123	100. Kinematically Aligned Total Knee Replacement: Manual Technique Approach	205
69. Ceramics in Arthroplasty	124	101. Neurological Assessment in Spinal Surgery	208
70. Pigmented Villonodular Synovitis (PVNS)	127	102. Pes Cavus	211
71. Bankart Repair	129	103. Meniscal Tears: Classification, Excision Types, and Management of Bucket-Handle Tear	214
72. Stem Cells: Classification, Biology, and Orthopaedic Applications	132	104. Thrombocytopenia-Absent Radius (TAR) Syndrome	217
73. Neglected Acromioclavicular Joint Dislocation	134	105. Mallet Finger	219
74. Developmental Dysplasia of the Hip (DDH)	135	106. Slipped Capital Femoral Epiphysis	222
75. Balloon Kyphoplasty	139	107. Staging of Malignant Bone Tumours	227
76. Kaplan's Lesion	141	108. Madelung Deformity	229
77. Total Hip Arthroplasty in Ankylosing Spondylitis	142	109. Ochronosis	232
78. Management of Non-union of the Tibia	147	110. Fixation Devices in Cruciate Ligament Reconstruction	235
79. Medial Collateral Ligament Injury in Total Knee Arthroplasty (TKA)	148	111. Langerhans Cell Histiocytosis (LCH)	237

112. Role of Arthroplasty in Proximal Humerus Fracture	240	142. Osteochondritis Dissecans of the Talus	319
113. Myoelectric Prosthesis	242	143. Lisfranc Injuries	324
114. Interferential Therapy	244	144. Burst Fractures of the Spine	328
115. SOMI (Sterno-Occipito-Mandibular Immobilizer) Brace	246	145. Bone Regeneration: Principles, Methods and Challenges	333
116. Role of Pamidronate Disodium in the Treatment of Metastatic Bone Disease	247	146. Cables in Orthopedics	341
117. SACH Foot and Jaipur Foot: A Comparative Overview	248	147. Subtalar Subluxation	342
118. Brown Tumour of Hyperparathyroidism	250	148. Osteotomy for Unstable Fracture Neck of Femur	346
119. Laser Therapy in Rehabilitation and Pain Management	253	149. Nonunion of Long Bones and New Methods to Promote Healing	347
120. Bone Cement in Orthopaedic Surgery	255	150. Quadriceps Contracture of Infancy and Childhood	352
121. Suture Anchors	259	151. The Ulnar Paradox: Clinical and Surgical Considerations	357
122. Bone Morphogenetic Proteins (BMPs)	262	152. Neurological Monitoring in Spinal Surgery	360
123. Limb Salvage in Orthopaedic Oncology	264	153. Hartshill Rectangle Device: Design Surgical Application, and Clinical Evaluation	363
124. Safe Dislocation of the Hip (Ganz)	268	154. Rotationplasty in Orthopaedic Oncology	365
125. Far Lateral Disc Herniation	271	155. Management of Claw Hand in Leprosy	369
126. Scheuermann's Kyphosis	274	156. Targeted Muscle Reinnervation	371
127. Bone-Patellar Tendon-Bone Graft for ACL Reconstruction	279	157. Internal Bone Transport	372
128. Functional Cast Bracing	283	158. The Madras Foot	375
129. Vitamin-D Resistant Rickets	285	159. Osteochondral Autograft Transfer System (OATS)	376
130. Sir John Charnley: Pioneer of Modern Total Hip Arthroplasty	286	160. Intraoperative Navigation in Orthopaedic Surgery	378
131. Recent Advances in Rheumatoid Arthritis	288	161. Notchplasty in Anterior Cruciate Ligament (ACL) Reconstruction	380
132. Recent Advances in Zirconium Alloys in Orthopedic Implants	291	162. Magnetic Cell Delivery in Musculoskeletal Regeneration	381
133. Spondylolisthesis: Classification, Clinical Evaluation, Radiological Features and Management	293	163. Over-the-Top (OTT) ACL Reconstruction: Surgical Technique	382
134. Robotics in Total Knee Replacement (TKR)	297	164. Sandblasting: Surface Treatment in Orthopedics	384
135. Non-union Fracture Neck of Femur in Young Adults	299	165. Medial Patellofemoral Ligament (MPFL) Injuries	385
136. Corrective Osteotomies for Lower Limb Deformities	301	166. Classify Knee Instability and Describe Anterior Cruciate Ligament Rupture Management	388
137. Therapeutic Embolization in Orthopaedics	307	167. Congenital Pseudoarthrosis Tibia	397
138. Modified Jones Tendon Transfer	309	168. Compartment Syndrome of Forearm	400
139. Extended Trochanteric Osteotomy (ETO)	311		
140. Evaluation and Management of Proximal Femoral Deformities	313		
141. Peroneal Tendon Subluxation and Dislocation	316		

169. Describe Anatomy of Lumbar Intervertebral Disc. How Will You Evaluate and Manage Lumbar Disc Lesion in Thirty-Year Old?	403	181. Epiphyseal Injuries and its Complications	440
170. Recurrent Shoulder Dislocation	408	182. Principles of Tendon Transfer and Ulnar Claw Hand	442
171. Spondylolysis	415	183. Posterior Cruciate Ligament (PCL) Injury	445
172. Deformities Around Knee Joint in Children	416	184. Patterns of Lytic Bone Lesions and Management of Stage IIA Osteosarcoma of the Distal Femur in a 22-Year-Old Male	447
173. Infected Total Knee Replacement (TKR)	419	185. Biomechanical Principles of Total Knee Replacement (TKR)	449
174. Classification and Staging of Bone Tumors/Management of Osteoclastoma of Proximal Tibia in a 30-Year-Old Patient	422	186. Allografts in Clinical Practice	452
175. Etiopathology of Congenital Talipes Equinovarus and Management	424	187. Minimally Invasive Techniques in Orthopaedics	454
176. Classify Physeal Fractures, Discuss Biomechanics Diagnosis and Management of Monteggia Fracture Dislocation in a 10-Year-Old Boy	429	188. Total Hip Replacement	457
177. Giant Cell Tumor	431	189. Perthes Disease (Legg-Calvé-Perthes Disease)	462
178. Congenital Vertical Talus	435	190. Brachial Plexus and Radial Nerve	465
179. Ewing Sarcoma	436	191. Total Knee Replacement: Preoperative Planning and Management of Valgus Knee	474
180. Cervical Spine Injuries	438	192. Acute Ligament Injuries of Ankle	477
		193. Gait Cycle and Abnormal Gait Patterns in Orthopedics	479
