Section 1 Cerebrovascular Disorders 1–46

Case 1	Ruptured Anterior Communicating Artery (ACom) Aneurysm with Sulcal SAH and Intraventricular Extension — Fisher CT Grade 4	1
Case 2	Hyperdense Middle Cerebral Artery (MCA) Sign in Acute Ischemic Stroke	5
Case 3	Acute Ischemic Optic Neuritis	7
Case 4	Hyperacute and Acute Infarct Patterns on MRI	9
Case 5	Top of the Basilar Syndrome	11
Case 6	Deep Cerebral Vein Thrombosis (DCVT)	13
Case 7	Cerebral Venous Sinus Thrombosis with Hemorrhagic Infarction, Anterior 1/3rd SSS Thrombus	15
Case 8	Medial Medullary Infarct (“Heart-Shaped” Sign)	17
Case 9	Lateral Medullary Infarct	19
Case 10	Anterior Spinal Artery Infarct (“Owl’s Eye” Appearance)	21
Case 11	Artery of Percheron Infarct	23
Case 12	Severe Hypoxic-Ischemic Encephalopathy	26
Case 13	Hypertensive Microangiopathy	28
Case 14	Cerebral Amyloid Angiopathy-related Hemorrhage	30
Case 15	Moyamoya Disease — Suzuki Stage IIIB	32
Case 16	Primary CNS Vasculitis	35
Case 17	Cerebral Arteriovenous Malformation (AVM)	37
Case 18	Cavernous Malformation — Zabramski Type 1	40
Case 19	Oculomotor Nucleus Infarct	43
Case 20	Medial Longitudinal Fasciculus Infarct	45

Section 2 Inflammatory and Demyelinating Disorders 47–72

Case 21	Multiple Sclerosis (Typical and Atypical Plaques)	47
Case 22	Tumefactive Demyelination	51
Case 23	Acute Disseminated Encephalomyelitis (ADEM)	53
Case 24	Acute Hemorrhagic Leukoencephalitis (AHL)	56
Case 25	Rasmussen Encephalitis	59
Case 26	Guillain-Barré Syndrome (GBS)	61
Case 27	Marchiafava-Bignami Disease	63
Case 28	Idiopathic Hypertrophic Pachymeningitis (IHP)	66
Case 29	Radiation Necrosis	68
Case 30	Orbital Apex Syndrome and Tolosa-Hunt Syndrome	70

Section 3	INFECTIOUS DISORDERS	73–88
Case 31	Herpes Simplex Virus Type 1 (HSV-1) Encephalitis	73
Case 32	Cerebral Abscess	75
Case 33	Rhino-orbital-Cerebral Mucormycosis.	78
Case 34	Congenital CMV Infection	80
Case 35	Neurocysticercosis	82
Case 36	Tuberculous Spondylodiscitis (Pott's Spine)	85
Case 37	Dengue Encephalitis	87
Section 4	NEOPLASTIC AND TUMOR-LIKE LESIONS	89–104
Case 38	Pituitary Macroadenoma	89
Case 39	Meningioma	92
Case 40	Brain Metastases	94
Case 41	Colloid Cyst of the Third Ventricle	96
Case 42	Epidermoid Cyst	99
Case 43	Arachnoid Cyst	101
Case 44	Spinal Metastases	103
Section 5	CONGENITAL AND GENETIC DISORDERS	105–144
Case 45	Chiari 1.5 Malformation	105
Case 46	Dandy-Walker Spectrum (Vermis Hypoplasia, Posterior Fossa Cyst)	108
Case 47	Joubert Syndrome (Molar Tooth Sign)	110
Case 48	Septo-optic Dysplasia (De Morsier's Syndrome)	113
Case 49	Ectopic Posterior Pituitary Bright Spot (Pituitary Stalk Interruption)	115
Case 50	Aqueductal Stenosis	117
Case 51	Lacunar Skull (Lückenschädel)	120
Case 52	Periventricular Leukomalacia (PVL)	122
Case 53	Kernicterus—Acute Stage	124
Case 54	Dyke-Davidoff-Masson Syndrome (Hemispheric Atrophy, Calvarial Changes)	126
Case 55	Porencephalic Cyst	128
Case 56	Focal Cortical Dysplasia (FCD) (Transmantle Sign)	130
Case 57	Neurofibromatosis (NF1 and NF2)	132
Case 58	Hereditary Spastic Paraplegia with Thin Corpus Callosum and "Ear of Lynx" Sign	135
Case 59	Hemimegalencephaly	138
Case 60	Tuberous Sclerosis Complex (Cortical Tubers, Subependymal Nodules)	141
Case 61	Neurocutaneous Melanosis	143
Section 6	TRAUMATIC AND SHEARING INJURIES	145–154
Case 62	Diffuse Axonal Injury (DAI)	145
Case 63	Acute Subdural Hematoma (SDH)	149
Case 64	Tension Pneumocephalus — Mount Fuji Sign	152
Section 7	METABOLIC AND TOXIC ENCEPHALOPATHIES	155–174
Case 65	Central Pontine Myelinolysis (CPM)	155
Case 66	Hepatic Encephalopathy	158

Case 67	Uremic Encephalopathy (Including Lentiform Fork Sign)	160
Case 68	Non-Ketotic Hyperglycemic Hemichorea (NHH) (Striatal T1 Hyperintensity)	162
Case 69	Hypoglycemic Encephalopathy	164
Case 70	Subacute Combined Degeneration (B12 Deficiency, SACD)	167
Case 71	Cerebrotendinous Xanthomatosis (CTX)	169
Case 72	Posterior Reversible Encephalopathy Syndrome (PRES)	171

Section 8 CSF DYNAMICS AND INTRACRANIAL PRESSURE DISORDERS 175–186

Case 73	Intracranial Hypotension (Pachymeningeal Enhancement, Sagging Brain)	175
Case 74	Normal Pressure Hydrocephalus (NPH)	178
Case 75	Idiopathic Intracranial Hypertension (IIH)	180
Case 76	Shunt Overfunction (Slit Ventricle Syndrome)	182
Case 77	CSF Rhinorrhea (Cribriform Plate Defect, Meningocele)	184

Section 9 NEURODEGENERATIVE AND HEREDITARY DISORDERS 187–220

Case 78	Alzheimer's Disease	187
Case 79	Frontotemporal Dementia (Frontal and Anterior Temporal Atrophy)	190
Case 80	Creutzfeldt–Jakob Disease (Cortical Ribboning, Basal Ganglia Hyperintensity)	193
Case 81	Huntington's Disease (Caudate Atrophy)	196
Case 82	Wilson Disease (Face of Giant Panda Sign)	198
Case 83	Fahr's Disease	200
Case 84	Amyotrophic Lateral Sclerosis (ALS)	202
Case 85	Multiple System Atrophy (MSA) (Hot Cross Bun Sign)	204
Case 86	Progressive Supranuclear Palsy (Hummingbird Sign)	206
Case 87	Pantothenate Kinase-associated Neurodegeneration (PKAN; Eye-of-the-Tiger Sign)	208
Case 88	Cerebral Autosomal Dominant Arteriopathy with Subcortical Infarcts and Leukoencephalopathy (CADASIL)	210
Case 89	Leigh Syndrome (Brainstem and Basal Ganglia)	212
Case 90	Leukodystrophies	214
Case 91	Spinocerebellar Ataxias (SCAs)	217

Section 10 MISCELLANEOUS 221–242

Case 92	Trigeminal Neuralgia	221
Case 93	OS Odontoideum	224
Case 94	Transient Global Amnesia (Hippocampal DWI Punctate Hyperintensity)	226
Case 95	Ossification of Posterior Longitudinal Ligament (OPLL)	228
Case 96	Neurodegeneration with Brain Iron Accumulation (NBIA) Disorders	231
Case 97	Hirayama Disease	234
Case 98	Mesial Temporal Sclerosis	236
Case 99	Wilson Disease	238

Section 11 SIGNS AND IMAGES NEURORADIOLOGY 243–250
