Foreword by Ashish Babhulkar

vii

Preface

viii

Section I: Short Cases and Viva Voce

1. Trauma and its Complications	3
Elbow deformity (cubitus varus/cubitus valgus)	3–7
Malunited Colles' fracture	8–12
Myositis ossificans	13–18
Nerve injury module: Basics of nerve injury	19–22
a. Wrist drop (radial and posterior interosseous nerve injury)	23–29
b. Clawhand (median nerve injury, ulnar nerve injury)	30–34
c. Footdrop (common peroneal, sciatic nerve injury)	35–38
Non-union	39–43
Reflex sympathetic dystrophy/Sudeck's dystrophy/complex regional pain syndrome	44–46
Stiff joint	47–49
Volkman ischemic contracture	50–52
2. Congenital Musculoskeletal Conditions	53
Congenital talipes equinus varus/clubfoot	53–61
Developmental dysplasia of hip	62–66
Spina bifida	67–70
3. Bone and Joint Infections	71
Chronic osteomyelitis	71–80
Tuberculosis of the knee	81–87
4. Arthritis	88
Osteoarthritis, Baker's cyst	88–95
Rheumatoid arthritis	96–106
5. Painful Hip	107
Hip pain: Tuberculosis of the hip/transient synovitis/Perthes' disease	107–116
6. Metabolic Diseases	117
Rickets and valgus knee deformity	117–124
Osteomalacia	124–125
7. Bone Tumors	126
Ewing's sarcoma	126–129
Osteosarcoma	130–134

Solitary exostosis/osteochondroma	135–138
Giant cell tumor/osteoclastoma	139–140
8. Low Back Pain	141
Intervertebral disc prolapse	141–146; Spondylolysis and spondylolisthesis 146–147; Lumbar canal stenosis 148–149; Spondylosis 149–150; Seronegative spondyloarthropathy and Ankylosing spondylitis 150–153
9. Pott's Spine	154
Tuberculosis of the spine	154–161
10. Painful Shoulder	162
Frozen shoulder, Rotator cuff tendinitis, Rotator cuff tear, Glenohumeral arthritis, Painful arc syndrome, Impingement syndrome	162–171
11. Spine Injury its Complications and Rehabilitation	172
12. Unstable Knee (Ligament Injury of the Knee)	181
General outline of ligament injury	181–182; Meniscal injury 182–184; Anterior cruciate ligament (ACL) tear 184–185; Posterior cruciate ligament (PCL) tear 185–187; Patella dislocation 187–188
13. Miscellaneous Conditions	189
Carpal tunnel syndrome	189–192; Tendo Achillis rupture 193–196; Lateral epicondylitis (tennis elbow) 197–199; Medial epicondylitis (Golfer's elbow) 200–201; De Quervain's tenosynovitis 202–203
14. Case Taking Format	204

Section II: Radiological Diagnosis

15. Trauma Radiographs	211
Cervical Spine and Upper Limb	
Cervical spine fracture and dislocation	211; Fracture clavicle 212; Anterior dislocation of the shoulder 213; Fracture shaft humerus 214; Fracture supracondylar humerus 215; Fracture olecranon process 216; Posterior dislocation of the elbow 217; Monteggia fracture dislocation 218; Fracture both bones forearm 219; Galeazzi fracture dislocation 220; Colles' fracture 221; Smith's fracture 222; Fracture scaphoid 223
Lumbar Spine Pelvis and Lower Limb	
Fracture of lumbar spine	224; Fracture pelvis 225; Posterior dislocation of the hip 226; Fracture neck femur 227; Fracture intertrochanteric femur 228; Fracture shaft femur 229; Fracture patella 230; Fracture tibia-fibula 231; Bimalleolar fracture 232; Fracture calcaneum 233; Fracture talus 234; Atrophic nonunion 235; Hypertrophic nonunion 236; Nonunion lateral condyle 237; Malunion femur shaft fracture 238
16. Non-traumatic Condition Radiographs	239
1. Pediatric: Developmental dysplasia of the hip joint	239; Perthes' Disease 240; Slipped capital femoral epiphysis 241

2. Infection: Osteomyelitis 242; Sequelae of septic arthritis of the hip (Tom-Smith arthritis) 243; Tuberculosis of spine 244
3. Bone tumors: Osteosarcoma 245; Ewing's sarcoma 246; Osteochondroma (exostosis) 247; Giant cell tumor/osteoclastoma 248; Simple bone cyst 249; Aneurysmal bone cyst 250; Multiple myeloma 251
4. Degenerative: Osteoarthritis of the knee 252
5. Inflammatory disease: Rheumatoid arthritis 253; Ankylosing spondylitis 254
6. Metabolic disease: Rickets 255; Scurvy 256; Osteomalacia 257; Osteoporosis 258
7. Others: Avascular necrosis of the hip 259

Section III: Orthopedic Implants

17. Implants 263

Hip hemi replacement prosthesis: Austin Moore's prosthesis 263; Thompson prosthesis 265; Bipolar prosthesis 266; Comparative pictures of hemi-replacement prosthesis 267; Dynamic hip screw 268; Austin Moore pin 269; Knowles pin 270; Dynamic condylar screw 271; Total knee replacement prosthesis 272; Küntscher's intramedullary nail 273–274; Femoral interlocking intramedullary nail 275; Tibial interlocking intramedullary nail 276; Rush intramedullary nail 277; Talwalkar's square intramedullary nail for radius and ulna 278; Dynamic compression plate 279; Locking compression plate 280; One-third tubular plate 281; Kirschner's wire 281; Steinmann pin 282; Screws 282; External fixator set: Schanz pin, tubular rod and clamps 284

Section IV: Orthopedic Instruments

18. Instruments 287

Bone levers (Hohman, Trethowan, Lane) 287; Periosteum elevator 288; Chisel 288; Osteotome 289; Mallet 289; Bone nibbler 290; Curette 290; Bone gouge 290

Section V: Prosthesis and Orthosis

19. Prosthesis 293

Patellar tendon bearing prosthesis 293; Above knee prosthesis 294; Solid ankle cushion heel (SACH) foot 295; Jaipur foot 296; Madras foot 297; Above elbow prosthesis 297

20. Orthosis 298

Clavicle brace 298; Arm sling 299; Soft cervical collar 299; Hard cervical collar 300; Philadelphia collar 300; Knee ankle foot orthosis (KAFO) 301; DDH splint 301; Axillary crutch 302; Drop splint dynamic 303; Knuckle bender splint 304; Footdrop splint/ankle foot orthosis 305; Denis Browne splint 306; CTEV shoe 306; Thomas knee splint 307; Bohler Braun frame 308

Section VI: Ward Round

21. Common Plasters, Traction (Skin, Skeletal) and External Fixator 311

Plaster of Paris 311–312; Synthetic cast 312; Above elbow cast 313; Below elbow cast 313; Above knee cast 314; Below knee cast 314; One and half hip spica 315; Above knee skin traction 316; Cervical (Glisson's) traction 317; Lumbar traction 317; Upper tibial skeletal traction 318; Calcaneal skeletal traction 319; Skull traction (Gardener-Wells Tongs) 320; External fixator 320

Index
