Preface

vii

Signs & Symptoms and Differential Diagnosis in Clinical Medicine

Gastrointestinal Diseases

| | |
|--|----|
| 1. <u>Abdominal bruit</u> | 1 |
| 2. <u>Abdominal pain</u> | 1 |
| 3. <u>Abdominal distension</u> | 3 |
| 4. <u>Abdominal guarding</u> | 3 |
| 5. <u>Abdominal masses</u> | 3 |
| 6. <u>Abdominal pain with rebound tenderness</u> | 4 |
| 7. <u>Abdominal pain mimics</u> | 4 |
| 8. <u>Abdominal hernias</u> | 4 |
| 9. <u>Loss of bowel sounds</u> | 4 |
| 10. <u>Diarrhoea</u> | 5 |
| 11. <u>Intestinal obstruction</u> | 5 |
| 12. <u>Halitosis (bad breath)</u> | 6 |
| 13. <u>Oropharyngeal dysphagia</u> | 6 |
| 14. <u>Esophageal dysphagia</u> | 7 |
| 15. <u>Odynophagia (painful deglutition)</u> | 7 |
| 16. <u>Oral ulcers</u> | 7 |
| 17. <u>Stomatitis</u> | 8 |
| 18. <u>Vomiting</u> | 8 |
| 19. <u>Hepatomegaly</u> | 9 |
| 20. <u>Hiccup</u> | 9 |
| 21. <u>Anorexia</u> | 10 |
| 22. <u>Nausea</u> | 10 |
| 23. <u>Constipation</u> | 11 |

| | | |
|-----|---|----|
| 24. | Increased bowel sounds | 11 |
| 25. | Chronic intestinal pseudo-obstruction and gastroparesis | 12 |
| 26. | Positive abdominojugular reflux | 12 |
| 27. | Jaundice | 12 |
| 28. | Ascites mimics | 13 |
| 29. | Suspect liver disease due to chronic alcohol abuse | 13 |
| 30. | Lower gastrointestinal bleed | 13 |
| 31. | Esophageal varices | 13 |
| 32. | Chronic active hepatitis vs chronic persistent hepatitis | 13 |
| 33. | Drugs causing pancreatitis | 14 |
| 34. | Indicators of acute haemorrhagic pancreatitis | 14 |
| 35. | Heart burn | 14 |
| 36. | Extraintestinal features of inflammatory bowel disease | 14 |
| 37. | Hormone producing tumours causing diarrhoea | 14 |
| 38. | Hyperamylasemia of non-pancreatic origin | 15 |
| 39. | Malabsorption syndrome | 15 |
| 40. | Prognostic indicator of therapeutic response in hepatitis C virus infection | 15 |
| 41. | Non-cirrhotic portal hypertension | 16 |
| 42. | Portal hypertension | 16 |
| 43. | Complications of acute hepatic failure | 16 |
| 44. | Hepatic vein thrombosis | 17 |
| 45. | Benign vs malignant gastric ulcer | 17 |
| 46. | Dyspepsia | 17 |
| 47. | Crohn's disease vs ulcerative colitis | 18 |
| 48. | Benign lesion of liver | 18 |
| 49. | Tenesmus | 18 |
| 50. | Succussion splash | 18 |
| 51. | Ascites | 19 |
| 52. | Rapidly developing ascites | 19 |
| 53. | Abdominal lump | 19 |
| 54. | Bloating blues | 19 |
| 55. | High pleural fluid amylase | 20 |

| | |
|---|----|
| 56. <u>Abnormal Schilling test</u> | 20 |
| 57. <u>Jejunal biopsy in celiac disease</u> | 20 |
| 58. <u>Small intestinal biopsy in Whipple's disease</u> | 20 |
| 59. <u><i>H. pylori</i> associated diseases</u> | 21 |
| 60. <u>Large gastric folds</u> | 21 |
| 61. <u>Gluten-free cereals for celiac disease</u> | 21 |
| 62. <u>Intestinal typhoid ulcers</u> | 21 |
| 63. <u>Malignant intestinal polyps</u> | 21 |
| 64. <u>Pancreatic cholera</u> | 21 |
| 65. <u>Anti-liver-kidney microsomal antibodies</u> | 22 |
| 66. <u>Stigmata of chronic liver disease</u> | 22 |
| 67. <u>Chylous ascites</u> | 22 |
| 68. <u>When to suspect haemochromatosis</u> | 22 |
| 69. <u>Serological markers for inflammatory bowel disease</u> | 22 |
| 70. <u>Factors decreasing iron absorption</u> | 23 |
| 71. <u>Pancreatic calcification</u> | 23 |
| 72. <u>Giant gastric rugae</u> | 23 |

Cardiovascular Diseases

| | |
|--|----|
| 73. <u>Carotid bruit</u> | 23 |
| 74. <u>Osler's nodes</u> | 24 |
| 75. <u>Pulse</u> | 24 |
| 76. <u>Kussmaul sign [inspiratory increase in jugular venous pressure (JVP)]</u> | 25 |
| 77. <u>Wide pulse pressure</u> | 25 |
| 78. <u>Double apical impulse</u> | 25 |
| 79. <u>Apex beats</u> | 25 |
| 80. <u>First heart sound</u> | 26 |
| 81. <u>Opening snap vs third heart sound</u> | 26 |
| 82. <u>Opening snap</u> | 27 |
| 83. <u>Jugular venous pressure</u> | 27 |
| 84. <u>Dyspnoea with distended neck veins, tachycardia and clear lungs</u> | 27 |
| 85. <u>Raised jugular venous pressure during inspiration</u> | 27 |

| | | |
|------|---|----|
| 86. | <u>Unequal pulses</u> | 28 |
| 87. | <u>Pericardial rub</u> | 28 |
| 88. | <u>Paroxysmal nocturnal dyspnoea</u> | 28 |
| 89. | <u>Ectopic beats</u> | 29 |
| 90. | <u>Innocent cardiac murmur</u> | 29 |
| 91. | <u>Cardinal signs of cardiac dysfunction</u> | 29 |
| 92. | <u>Bradycardia</u> | 29 |
| 93. | <u>Mid-diastolic murmur</u> | 29 |
| 94. | <u>Functional mitral regurgitation</u> | 29 |
| 95. | <u>Factors precipitating/exaggerating well-controlled heart failure</u> | 30 |
| 96. | <u>Immunological responses in infective endocarditis</u> | 30 |
| 97. | <u>Peripheral arterial signs of chronic aortic regurgitation</u> | 30 |
| 98. | <u>Aortic coarctation associated malformation</u> | 30 |
| 99. | <u>Factors favouring thromboembolism</u> | 31 |
| 100. | <u>Physical signs of hyperlipidemia</u> | 31 |
| 101. | <u>Measure to increase high density lipoprotein</u> | 31 |
| 102. | <u>Prolonged QT interval</u> | 31 |
| 103. | <u>Early diastolic sounds</u> | 32 |
| 104. | <u>Heart failure, signs and symptoms</u> | 32 |
| 105. | <u>Murmur of mitral valve prolapse vs innocent murmurs</u> | 32 |
| 106. | <u>Janeway lesions</u> | 33 |
| 107. | <u>Palpitations</u> | 33 |
| 108. | <u>Syncope</u> | 33 |
| 109. | <u>Hypertension</u> | 34 |
| 110. | <u>Hypotension</u> | 35 |
| 111. | <u>Wide QRS in ECG</u> | 35 |
| 112. | <u>Vascular thrombosis</u> | 35 |
| 113. | <u>Rib notching</u> | 36 |
| 114. | <u>Cardiac valve vegetations</u> | 36 |
| 115. | <u>Shape of left ventricle</u> | 36 |
| 116. | <u>Complications of mitral stenosis</u> | 36 |
| 117. | <u>Biomarkers of atherosclerosis</u> | 37 |

| | | |
|------|---|----|
| 118. | Cardiac arrest | 37 |
| 119. | ECG in acute pericarditis vs myocardial infarction | 37 |
| 120. | Claudication | 38 |
| 121. | Constrictive pericarditis vs restrictive cardiomyopathy | 38 |
| 122. | Clinical indicators of raised LV end diastolic pressure | 38 |
| 123. | Lifestyle modification in BP reduction | 39 |
| 124. | Secondary hypertension | 39 |
| 125. | ST depression on ECG | 39 |
| 126. | ST elevation on ECG | 39 |
| 127. | T wave inversion on ECG | 40 |
| 128. | Q wave in lead III on ECG | 40 |
| 129. | ST elevation in pericarditis vs myocardial infarction | 40 |
| 130. | Tall T wave in leads V ₁ and V ₂ on ECG | 41 |
| 131. | ECG findings in atrial infarction | 41 |
| 132. | Giant negative T waves on ECG | 41 |
| 133. | Significance of U wave on ECG | 41 |
| 134. | Tall R wave in lead V ₁ on ECG | 41 |
| 135. | ECG in pulmonary embolism | 42 |
| 136. | ECG in atrial infarction | 42 |
| 137. | Digitalis and ECG | 42 |
| 138. | Narrow QRS complex | 42 |
| 139. | Absent P wave | 43 |
| 140. | Short QT interval | 43 |
| 141. | Superior vena cava syndrome | 43 |
| 142. | Associated anomalies with patent ductus arteriosus | 43 |
| 143. | Associated anomalies with tetralogy of Fallot | 44 |
| 144. | Congenital heart diseases | 44 |
| 145. | Chest pain with dyspnoea | 44 |
| 146. | Retrosternal chest pain | 45 |
| 147. | Culture negative endocarditis | 45 |
| 148. | Aortic incompetence | 45 |
| 149. | Non-palpable apex beat | 45 |
| 150. | Loud first heart sound | 45 |

xiv Signs & Symptoms and Differential Diagnosis in Clinical Medicine

| | | |
|------|---|----|
| 151. | <u>Muffled first heart sound</u> | 46 |
| 152. | <u>Venous thrombosis</u> | 46 |
| 153. | <u>Beck's triad of cardiac tamponade</u> | 46 |
| 154. | <u>Cardiac lesions</u> | 46 |
| 155. | <u>Calculation of mean blood pressure</u> | 46 |
| 156. | <u>Pulsus paradoxus</u> | 46 |
| 157. | <u>Mitral valve prolapse</u> | 47 |

Respiratory Diseases

| | | |
|------|--|----|
| 158. | <u>Asphyxia</u> | 47 |
| 159. | <u>Clubbing</u> | 47 |
| 160. | <u>Cyanosis</u> | 48 |
| 161. | <u>Cough</u> | 49 |
| 162. | <u>Sputum</u> | 49 |
| 163. | <u>Stridor</u> | 49 |
| 164. | <u>Orthopnoea</u> | 50 |
| 165. | <u>Lung abscess</u> | 51 |
| 166. | <u>Diffuse bilateral interstitial lung disease</u> | 51 |
| 167. | <u>Necrotizing pneumonia</u> | 51 |
| 168. | <u>Restrictive ventilatory defects</u> | 51 |
| 169. | <u>Pleural fluid exudate</u> | 52 |
| 170. | <u>Haemoptysis</u> | 52 |
| 171. | <u>Haemorrhage from healed tuberculosis</u> | 52 |
| 172. | <u>Paraneoplastic syndromes associated with pulmonary malignancy</u> | 52 |
| 173. | <u>Pulmonary embolism index</u> | 52 |
| 174. | <u>Tachypnoea</u> | 53 |
| 175. | <u>Vocal fremitus</u> | 53 |
| 176. | <u>Pleural rub</u> | 53 |
| 177. | <u>Community-acquired pneumonia in elderly</u> | 54 |
| 178. | <u>Diagnostic criteria for acute respiratory distress syndrome</u> | 54 |
| 179. | <u>Diffuse pulmonary consolidation</u> | 54 |
| 180. | <u>Acute respiratory failure</u> | 55 |
| 181. | <u>Pleural effusion</u> | 55 |

| | | |
|------|--|----|
| 182. | <u>Diseases with pulmonary–renal syndromes</u> | 55 |
| 183. | <u>Eosinophilia with pulmonary infiltrates</u> | 56 |
| 184. | <u>Respiratory acidosis and alkalosis</u> | 56 |
| 185. | <u>Pulmonary coccidioidomycosis mimics</u> | 56 |
| 186. | <u>Profuse purulent sputum</u> | 57 |
| 187. | <u>Atelectasis</u> | 57 |
| 188. | <u>Pulmonary fibrosis</u> | 57 |
| 189. | <u>Pulmonary hemosiderosis</u> | 58 |
| 190. | <u>Miliary mottling in lungs</u> | 58 |

Renal Diseases

| | | |
|------|---|----|
| 191. | <u>Flank pain (costovertebral angle tenderness)</u> | 58 |
| 192. | <u>Eosinophils in urine</u> | 58 |
| 193. | <u>When to suspect genitourinary tuberculosis</u> | 59 |
| 194. | <u>Acute renal failure</u> | 59 |
| 195. | <u>Dialysis in acute renal failure, indication</u> | 59 |
| 196. | <u>Chronic renal failure, causes of</u> | 59 |
| 197. | <u>Metabolic conditions predisposing to urinary stone formation</u> | 60 |
| 198. | <u>Obstructive uropathy</u> | 60 |
| 199. | <u>Urinalysis in primary glomerular diseases</u> | 60 |
| 200. | <u>Renal finding in sickle cell disease</u> | 60 |
| 201. | <u>Syndrome of inappropriate antidiuretic hormone secretion</u> | 60 |
| 202. | <u>Metabolic acidosis</u> | 60 |
| 203. | <u>Hyperkalemia</u> | 61 |
| 204. | <u>Hypokalemia</u> | 62 |
| 205. | <u>Hyponatremia</u> | 62 |
| 206. | <u>Hypernatremia</u> | 63 |
| 207. | <u>Haematuria</u> | 63 |
| 208. | <u>Periorbital edema</u> | 64 |
| 209. | <u>Renal papillary necrosis</u> | 65 |
| 210. | <u>Serum urea and creatinine</u> | 65 |
| 211. | <u>Coloured urine</u> | 65 |

xvi Signs & Symptoms and Differential Diagnosis in Clinical Medicine

| | | |
|------|--|----|
| 212. | <u>Altered kidney size</u> | 66 |
| 213. | <u>Sterile pyuria</u> | 66 |
| 214. | <u>Renal metabolic hypokalemic alkalosis</u> | 66 |
| 215. | <u>Metabolic alkalosis</u> | 66 |
| 216. | <u>Pulmonary hypertension</u> | 67 |
| 217. | <u>Acute tubulointerstitial nephritis</u> | 67 |
| 218. | <u>Urethral discharge</u> | 68 |
| 219. | <u>Strangury</u> | 68 |
| 220. | <u>Pilimiction</u> | 68 |
| 221. | <u>Diffuse bilateral renal calcification</u> | 69 |
| 222. | <u>Renal lesions in diabetes mellitus</u> | 69 |
| 223. | <u>Prerenal vs intrinsic renal failure</u> | 69 |
| 224. | <u>Low complement level nephritic syndromes</u> | 69 |
| 225. | <u>Renal artery stenosis</u> | 70 |
| 226. | <u>Serum complement level and acute nephritic syndrome</u> | 70 |
| 227. | <u>Renal vein thrombosis</u> | 70 |
| 228. | <u>Hypertension in hereditary tubular disorders</u> | 70 |
| 229. | <u>Polycystic kidney disease</u> | 71 |
| 230. | <u>Diagnostic indices in acute renal failure</u> | 71 |
| 231. | <u>Prerenal azotemia vs acute tubular necrosis</u> | 71 |
| 232. | <u>Uremic sequelae resistant to dialysis</u> | 71 |
| 233. | <u>Normocalcemic hypercalciuria</u> | 71 |

Neurology

| | | |
|------|---|----|
| 234. | <u>Tremor</u> | 72 |
| 235. | <u>Eosinophilic meningitis</u> | 72 |
| 236. | <u>CNS toxoplasmosis vs CNS lymphoma</u> | 72 |
| 237. | <u>Drugs worsening neuromuscular junction disorders</u> | 73 |
| 238. | <u>Vertigo</u> | 73 |
| 239. | <u>Serious causes of headache</u> | 73 |
| 240. | <u>Reversible causes of dementia</u> | 73 |
| 241. | <u>When to suspect multiple sclerosis</u> | 74 |
| 242. | <u>Delirium vs dementia</u> | 74 |

| | | |
|------|---|----|
| 243. | Headache types and differentiation | 74 |
| 244. | Transient ischaemic attack | 74 |
| 245. | Connexin disorders | 75 |
| 246. | Neurocutaneous syndromes | 75 |
| 247. | Paresthesia | 75 |
| 248. | Mydriasis | 76 |
| 249. | Ptosis | 76 |
| 250. | Congenital ptosis | 76 |
| 251. | Photophobia | 77 |
| 252. | Restless legs | 77 |
| 253. | Vision loss | 77 |
| 254. | Paraplegia | 78 |
| 255. | Papilledema | 79 |
| 256. | Nystagmus | 79 |
| 257. | Blindness in elderly | 80 |
| 258. | Numbness | 80 |
| 259. | Insomnia | 80 |
| 260. | Lumbosacral plexopathy | 81 |
| 261. | Multiple sclerosis mimics | 81 |
| 262. | Encephalopathy vs encephalitis | 81 |
| 263. | Syncope vs epilepsy | 82 |
| 264. | Stroke mimics | 82 |
| 265. | Non-infectious causes of encephalopathy | 82 |
| 266. | Hearing loss | 82 |
| 267. | Aphasia | 83 |
| 268. | Hyporeflexia | 84 |
| 269. | Hyperreflexia | 84 |
| 270. | Coma | 85 |
| 271. | Seizure | 85 |
| 272. | GTCS vs syncope | 86 |
| 273. | Ataxias | 87 |
| 274. | Seizure vs syncope | 87 |
| 275. | Stroke differentiation | 88 |

| | | |
|------|---|----|
| 276. | Thalamic infarct/bleed | 88 |
| 277. | Differentiation of pseudodementia from dementia | 89 |
| 278. | Axonal degeneration vs demyelination | 89 |
| 279. | Spinal cord compression | 89 |
| 280. | Cauda equina vs conus medullaris lesions | 90 |
| 281. | Myasthenia | 90 |
| 282. | Paraneoplastic neurological syndromes | 91 |
| 283. | Drugs causing optic neuropathy | 91 |
| 284. | Vestibular disorders and differential diagnosis | 91 |
| 285. | Hemiplegia | 92 |
| 286. | Primitive reflexes | 92 |
| 287. | Obstetrical brachial plexus palsy | 93 |
| 288. | Cerebral herniations | 93 |
| 289. | Basal ganglia calcification | 93 |
| 290. | Vein of galen malformation | 94 |
| 291. | Meningioma | 94 |
| 292. | Myosis | 94 |
| 293. | Argyll robertson pupil | 94 |
| 294. | Isolated oculomotor nerve palsy | 94 |
| 295. | Unilateral LMN facial palsy | 94 |
| 296. | Ramsay hunt syndrome | 95 |
| 297. | Fasciculations | 95 |
| 298. | LMN palsy upper limb and UMN palsy lower limb | 95 |
| 299. | Muscle weakness | 95 |
| 300. | Wasting of small muscles of hand | 96 |
| 301. | Thickened peripheral nerves | 96 |
| 302. | Autonomic neuropathy | 96 |
| 303. | Mononeuritis multiplex | 96 |
| 304. | Painful peripheral neuropathy | 97 |
| 305. | Quadriplegia | 97 |
| 306. | Raised intracranial pressure | 97 |
| 307. | Neuropathies | 97 |
| 308. | Extramedullary vs intramedullary compression | 98 |

| | | |
|------|--|-----|
| 309. | <u>Compressive vs noncompressive myelopathy</u> | 98 |
| 310. | <u>Stroke in young</u> | 98 |
| 311. | <u>Acute onset neuropathies</u> | 99 |
| 312. | <u>Human prion diseases</u> | 99 |
| 313. | <u>Charcot's joint</u> | 99 |
| 314. | <u>Syringomyelia</u> | 99 |
| 315. | <u>Brown-Séquard syndrome</u> | 99 |
| 316. | <u>Cord lesions</u> | 100 |
| 317. | <u>Parietal lobe lesion</u> | 100 |
| 318. | <u>Normal pressure hydrocephalus</u> | 100 |
| 319. | <u>Von Hippel-Lindau disease</u> | 101 |
| 320. | <u>Sturge-Weber syndrome</u> | 101 |
| 321. | <u>Neuropathies in diabetes</u> | 101 |
| 322. | <u>Pure motor neuropathy</u> | 101 |
| 323. | <u>Lambert-Eaton myasthenia</u> | 101 |
| 324. | <u>Pseudotumour cerebri</u> | 102 |
| 325. | <u>Cerebellar disease presentation</u> | 102 |
| 326. | <u>Exaggerated jaw jerk</u> | 102 |
| 327. | <u>Location of cerebral berry aneurysm</u> | 102 |
| 328. | <u>Delayed recovery/worsening after cerebrovascular accident</u> | 102 |
| 329. | <u>Millard-Gubler syndrome</u> | 103 |
| 330. | <u>Wallenberg syndrome</u> | 103 |
| 331. | <u>Midbrain syndrome</u> | 103 |
| 332. | <u>Pontine syndrome</u> | 103 |
| 333. | <u>Pontine stroke</u> | 103 |
| 334. | <u>Deep brain stimulation in parkinson's disease</u> | 104 |
| 335. | <u>Wernicke-Korsakoff syndrome</u> | 104 |
| 336. | <u>Complications of meningitis</u> | 104 |
| 337. | <u>Characteristics of prion diseases</u> | 104 |
| 338. | <u>Neurofibromatosis</u> | 104 |
| 339. | <u>Diagnostic triad of tuberous sclerosis</u> | 105 |
| 340. | <u>Descending motor palsy</u> | 105 |

xx Signs & Symptoms and Differential Diagnosis in Clinical Medicine

| | | |
|------|---|-----|
| 341. | <u>Tolosa-Hunt syndrome</u> | 105 |
| 342. | <u>Horner's syndrome</u> | 105 |
| 343. | <u>Cerebellar dysfunction</u> | 106 |
| 344. | <u>Gradual onset of hypotonic muscle weakness</u> | 106 |
| 345. | <u>Aphasia differentiation</u> | 106 |
| 346. | <u>Joint involvement in neuropathic arthropathy</u> | 107 |
| 347. | <u>Aseptic meningitis</u> | 107 |
| 348. | <u>Spinal cord dysfunction by segmental level</u> | 107 |
| 349. | <u>Pinpoint pupils</u> | 108 |
| 350. | <u>Dilated pupils</u> | 108 |
| 351. | <u>Signs of raised intracranial tension in children</u> | 108 |
| 352. | <u>Signs of raised intracranial tension in adults</u> | 108 |
| 353. | <u>Delayed closures of cranial sutures</u> | 108 |
| 354. | <u>Separation of intracranial sutures</u> | 108 |
| 355. | <u>Congenital skull calcification</u> | 109 |
| 356. | <u>Absent ankle jerk with extensor plantar response</u> | 109 |
| 357. | <u>Impaired vertical gaze</u> | 109 |
| 358. | <u>Painful ophthalmoplegic syndromes</u> | 109 |
| 359. | <u>Amaurosis fugax</u> | 110 |
| 360. | <u>Multiple CNS deficits</u> | 110 |
| 361. | <u>Pigmentary degeneration of retina</u> | 110 |
| 362. | <u>Myoclonus</u> | 110 |
| 363. | <u>Muscle wasting without sensory changes</u> | 111 |
| 364. | <u>Common causes of posterior cord involvement</u> | 111 |
| 365. | <u>Multilevel spinal involvement</u> | 111 |
| 366. | <u>Cerebellopontine angle tumours</u> | 111 |
| 367. | <u>Stamping gait</u> | 112 |

Endocrinology

| | | |
|------|-----------------------------|-----|
| 368. | <u>Secondary diabetes</u> | 112 |
| 369. | <u>Thyroid disorders</u> | 112 |
| 370. | <u>Gynaecomastia</u> | 113 |
| 371. | <u>Magnesium deficiency</u> | 113 |

| | | |
|------|--|-----|
| 372. | <u>Hyperpigmentation</u> | 113 |
| 373. | <u>Hypopigmentation</u> | 114 |
| 374. | <u>Hirsutism</u> | 114 |
| 375. | <u>Precocious puberty</u> | 114 |
| 376. | <u>Delayed puberty</u> | 115 |
| 377. | <u>Amenorrhoea</u> | 115 |
| 378. | <u>Menorrhagia</u> | 116 |
| 379. | <u>Hypercalcemia</u> | 116 |
| 380. | <u>Hypocalcemia</u> | 117 |
| 381. | <u>Hypophosphatemia</u> | 117 |
| 382. | <u>Hyperphosphatemia</u> | 118 |
| 383. | <u>Osteomalacia</u> | 118 |
| 384. | <u>Hypoglycemia</u> | 118 |
| 385. | <u>Hyperprolactinemia</u> | 118 |
| 386. | <u>Exophthalmos</u> | 119 |
| 387. | <u>When to suspect diabetes</u> | 119 |
