<i>Foreword by Ahanthem Santa Singh</i>	vii
<i>Preface</i>	ix

Section A

1. The Emerging Role of Point of Care Ultrasound in Pediatric Care	3
2. Basics of Ultrasound Physics	16
3. Basic Operation of Ultrasound Equipment, Transducers and Knobology	31
4. Basics of Ultrasound Use in Children	69

Section B

5. Airway Point of Care Ultrasound in Children	87
6. Lung Point of Care Ultrasound in Children	116
7. Diaphragmatic Point of Care Ultrasound in Children	147

Section C

8. Liver and Gallbladder Point of Care Ultrasound in Children	167
9. Renal and Bladder Point of Care Ultrasound in Children	207
10. Gastric Point of Care Ultrasound in Children	249
11. Gastrointestinal Point of Care Ultrasound in Children	271
12. Assessment of Inferior Vena Cava and Ascites in Children	297
13. POCUS of Abdominal Aorta in Children	330
14. Point of Care Ultrasound of the Pancreas in Children	346

Section D

15. Point of Care Ultrasound of the Skin and Subcutaneous Soft Tissues in Children	365
--	-----

16. Point of Care Ultrasound of Joints in Children	390
17. Central Venous Access: Femoral, Internal Jugular, and Subclavian Vein Cannulation	406
18. Peripheral Venous Cannulation	428
19. Testicular Ultrasound	443
20. Vascular Ultrasound	459
21. Thyroid Ultrasound	477
22. Lymph Node Ultrasound	491
23. The Extended Focused Assessment with Sonography for Trauma	503
24. Optic Nerve Sheath Diameter	522
25. The Venous Excess Ultrasound Score	533
<i>Index</i>	555
