|------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>Foreword</b>                                                                                                                                            | <b>v</b>   |
| <b>Preface</b>                                                                                                                                             | <b>vii</b> |
| I. C. Narasimhan: The Mind, The Method, The Man<br><i>D. Nageshwar Reddy</i>                                                                               | 1          |
| II. Importance of Clinical Decision-Making in Contemporary Medicine<br><i>T.R. Muralitharan</i>                                                            | 3          |
| III. Narasimhan C: The Steady Rhythm Behind My Journey<br><i>Vickram Vignesh Rangaswamy</i>                                                                | 5          |
| <b>CASES</b>                                                                                                                                               |            |
| 1. Bipolar RF Ablation of Deep-Seated Outflow Tract Ventricular Tachycardia<br><i>Jayapandian Pandian</i>                                                  | 9          |
| 2. From Failure to Clarity: Clinical Judgment in Atrial Fibrillation Ablation<br><i>Abhijeet B. Shelke</i>                                                 | 14         |
| 3. Left Stellate Ganglion Ablation: A Dual Therapeutic Strategy for Torsades de Pointes and Raynaud's Phenomenon<br><i>Vijay Yadav and Jasvinder Singh</i> | 19         |
| 4. A Mentor's Eye: Ventricular Tachycardia Storm Management Based on Electrocardiographic Insights<br><i>Arun Gopi and Daljeet Kaur Saggu</i>              | 24         |
| 5. Management of Dual Tachycardia in Heart Failure: Navigating through the Eye of the Storm<br><i>Malav Darshan Jhala</i>                                  | 29         |
| 6. Think Outside the Endocardium: Lessons Learnt from Electroanatomic Mapping—Quiet Imprint of Narasimhan<br><i>Gaurav Lakhani</i>                         | 34         |
| 7. Asymptomatic "Pauses": Pause Before You Act<br><i>Malugari Anish Reddy</i>                                                                              | 42         |
| 8. From Impasse to Insight: The Epicardial Solution<br><i>Vijay Yadav, Daljeet Kaur Saggu, and Jasvinder Singh</i>                                         | 45         |
| 9. One Focus, Many Faces: A Lesson in Clinical Judgment from a False Tendon—Related Ventricular Tachycardia<br><i>Mandar Mahavir Shah</i>                  | 50         |
| 10. Primary Myocardial Tuberculosis Presenting as Ventricular Arrhythmia: A Case Series<br><i>Ajit Thachil</i>                                             | 54         |

|     |                                                                                                                                                                                                           |     |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 11. | Severe Left Ventricular Systolic Dysfunction after Permanent Pacemaker: Resynchronize or Reassess?<br><i>Debabrata Bera and Sanjeev S. Mukherjee</i>                                                      | 60  |
| 12. | From Advanced Heart Failure to Recovery: A Reflection on Clinical Judgment in<br>Tachycardia-Induced Cardiomyopathy<br><i>Abhilash Patnaik, Gaurav Lakhani, and Ngwe Zin thu</i>                          | 64  |
| 13. | An Unusual Site for Cardiac Resynchronization Therapy: A Masterstroke<br><i>Sheikh Mohamad Tahir</i>                                                                                                      | 70  |
| 14. | Atrial Fibrillation and Cardioembolic Stroke in a Young Patient<br><i>Soorampally Vijay</i>                                                                                                               | 74  |
| 15. | When the Map Ends, the Mind Takes Over—Lessons from an Epicardial VT Ablation<br><i>Vijay Shekar P</i>                                                                                                    | 79  |
| 16. | A Case of Atrial Flutter in Fontan Circuit – Teamwork Matters<br><i>Preetam Krishnamurthy</i>                                                                                                             | 85  |
| 17. | Curable Causes of Ventricular Dysfunction in Patients Referred for Heart Failure<br>Therapy and Device Implantation<br><i>Chandrakant B. Chavan</i>                                                       | 91  |
| 18. | Intermittent Pacing-Induced Ventricular Dysfunction and Dynamic Mitral Regurgitation in<br>Hypertrophic Cardiomyopathy<br><i>C. Sridevi, and Vijay Shekhar</i>                                            | 96  |
| 19. | Substrate-Based Catheter Ablation of Purkinje-Triggered Ventricular Fibrillation<br>Presenting as Electrical Storm After Anterior Myocardial Infarction: A Case Report<br><i>Rajesh Badani</i>            | 99  |
| 20. | Mapping the Circuit: Substrate-Based Ablation of Upper Loop Reentrant Atrial Flutter<br><i>Lawrence Jesuraj Masilamani</i>                                                                                | 103 |
| 21. | Refractory Heart Failure with LBBB — Pause Before CRT<br><i>Sachin Yalagudri, Muthiah Subramanian, and Chennapragada Sridevi</i>                                                                          | 106 |
| 22. | Restoring Atrial Synchrony: Bachmann Bundle Pacing for Heart Failure with<br>Preserved Ejection Fraction in Non-Obstructive Hypertrophic Cardiomyopathy<br><i>Muthiah Subramanian</i>                     | 109 |
| 23. | The Devil Is in the Details: Ablation of Short-Coupled Purkinje PVCs<br>Triggering Idiopathic Ventricular Fibrillation<br><i>Vihang Shah</i>                                                              | 114 |
| 24. | When the Anatomy Changes the Rules: Left-Sided AV Junction Ablation and Conduction<br>System Pacing in a Patient with Repaired AV Canal Defect and Mechanical Mitral Prosthesis<br><i>Basavaraj Sutar</i> | 118 |
| 25. | To Pace, or not to Pace? That is the question<br><i>Rakesh Sarkar</i>                                                                                                                                     | 123 |
| 26. | Catheter Ablation of Junctional Ectopic Tachycardia: A Difficult Treatment Decision<br><i>Daljeet Kaur Saggu and K. Nageshwar Koneti</i>                                                                  | 127 |
| 27. | Use of Vacuum-Assisted Aspiration for Removal of Vegetations during Transvenous Lead Extraction<br><i>Balaji Krishnan</i>                                                                                 | 132 |
