<i>Preface</i>	<i>v</i>
1. Drug Regulation in Nutshell	1–55
Introduction	2
Structure of Drug Regulatory Organizations	3
Major Functions of Drug Regulatory Authorities	5
Drug Regulation Worldwide	6
Drug Regulation in India	22
International Harmonization Initiative by Regulatory Bodies	32
The International Council for Harmonisation (ICH)	39
Regulatory Affairs Personnel	50
2. International Organization for Standardization	56–67
Significance of ISO	57
ISO Standard Development Process	58
Key Principles in Standard Development	59
ISO Certification Process	62
Impact of ISO	65
Benefits of ISO Certification	66
3. International Council for Harmonisation	68–100
History of ICH	69
Mission of ICH	70
Organization of ICH	70
ICH Reform and Organizational Change	73
Harmonisation Process	74
ICH Topics and Harmonized Tripartite Guidelines	77
ICH: Advancing Harmonisation for Better Global Health	98
4. Basic Concept of Quality Control and Quality Assurance	101–179
Quality	102
Basic Concepts of Quality	103
Quality Control	105
Quality Assurance	109
Cost of Quality	114
Quality Manual	120
Quality Management Programme and Systems	133
Total Quality Management	135
Product Complaint Management	139
Pharmaceutical Quality System (ICH Q10)	141
Guidance for Industry: Quality Systems Approach to Pharmaceutical cGMP Regulations	154

Quality Risk Management (ICH Q9)	166
Annexures	172
5. Source and Control of Quality Variation in Pharmaceuticals	180–240
Quality Variations in Pharmaceutical Product	182
Source of Quality Variation	183
Quality Variation in Raw and Packaging Material	185
Quality Variation in Pharmaceutical Equipment	195
Quality Variation in the Pharmaceutical Manufacturing Process	199
Quality Variation in Pharmaceutical Personnel	212
Quality Variation in the Pharmaceutical Manufacturing Environment	216
Advanced Pharmaceutical Process Control	231
6. Documentation	241–302
Scope of Documentation	242
General Requirements	243
Common Guidelines for the Preparation of Documents	245
Types of Document	246
Document Preparation	247
Control of Documentation	248
Document Control System	251
Document Maintenance	254
Documentation Guideline for Different Sections	254
Document Hierarchy	273
Document Checklist	275
7. Sampling Control	303–364
Total Quality Control	304
Statistical Quality Control	305
Sampling Methods	309
Sample Size	312
Sampling Plan	316
Operating Characteristic (OC) Curve	324
Inspection Level	330
Sampling Procedure	333
Sampling Accessories	340
Sampling Precautions	342
WHO Guidelines for Sampling of Pharmaceutical Products and Related Materials	344
Appendixes	355
8. Supply Chain Management	365–382
Importance of Supply Chain Management	366
Evolution of Supply Chain Management	367
Significance of Logistics Management in Pharmaceuticals	367
Indian Pharmaceutical Supply Chain	368
Physical Distribution of Pharmaceutical Products	371
Cold Chain Supply (Drug Tracing System)	372
Importation Supply Chain Management	376
Advantages of Adopting Supply Chain Management Practices	378
European Medicines Verification System (EMVS)	380
Current Perspectives	380
