<i>Foreword by Dr B Suresh</i>	<i>vii</i>
<i>Foreword by Dr DK Jain</i>	<i>ix</i>
<i>Preface</i>	<i>xi</i>

Section 1: BIOPHARMACEUTICS AND PHARMACOKINETICS

1. Biopharmaceutics	2	3. Biopharmaceutical Statistics	40
2. Bioavailability and Bioequivalence	19		

Section 2: PHARMACEUTICAL JURISPRUDENCE

1. Historical Background of Drug Legislation in India and Code of Ethics for Pharmacists	52	10. The Shop and Establishment Act in India: Key Features	73
2. The Pharmacy Act, 1948 (Inclusive of Recent Amendments)	54	11. The Factories Act, 1948	74
3. The Drugs and Cosmetics Act, 1940 and Rules, 1945 (Including New Drug Applications)	60	12. The Consumer Protection Act	75
4. The Narcotic Drugs and Psychotropic Substances Act and Rules Thereunder	65	13. Indian Pharmaceutical Industry: An Overview	76
5. The Drugs and Magic Remedies (Objectionable Advertisements) Act, 1954	67	14. The Industries (Development and Regulation) Act, 1951	77
6. The Medicinal and Toilet Preparations (Excise Duties) Act, 1955	68	15. Introduction to Intellectual Property Rights and Indian Patent Act, 1970	81
7. The Medical Termination of Pregnancy Act, 1970 and Rules, 1975	70	16. Introduction to Standard Institutions and Regulatory Authorities Such as BIS, ASTM, ISO, TGA, USFDA, MHRA, ICH, WHO	86
8. The Prevention of Cruelty to Animals Act, 1960	71	17. The Minimum Wages Act, 1948	88
9. Drug (Price Control) Order	72	18. Schedule M	95

Section 3: PHARMACEUTICAL ENGINEERING

1. Fluid Flow	112	9. Crystallization	147
2. Heat Transfer	115	10. Filtration	154
3. Evaporation	119	11. Dehumidification and Humidity Control	159
4. Distillation	125	12. Refrigeration and Air Conditioning	160
5. Drying	132	13. Materials of Construction in Pharmaceutical Plants	162
6. Size Reduction and Size Separation	140	14. Automated Process Control Systems	164
7. Extraction	142	15. Industrial Hazards and Safety Precautions	166
8. Mixing	145		

Section 4: DISPENSING AND HOSPITAL PHARMACY

1. Introduction to Laboratory Equipment, Weighing Methodology, Handling of Prescriptions, Labelling Instructions for Dispensed Products	170	4. Study of Current Patent and Proprietary Products (Generic Products and Selected Brand Products, Indications, Contraindications, Adverse Drug Reactions, Available Dosage Forms and Packaging)	176
2. Posological Calculations Involved in the Calculation of Dosage for Infants, Enlarging and Reducing Formula, Displacement Value	172	5. Compounding and Dispensing of Prescriptions	186
3. Preparation of Formulations Involving Alligation, Alcohol Dilution and Isotonic Solution	175	6. Incompatibility: Prescription based on Physical, Chemical and Therapeutic Incompatibility	192
		7. Reading and Counseling of Prescriptions from the clinical Practice	192

Section 5: PHYSICAL PHARMACY

1. Matter and Its Properties	196	5. Dispersion Systems	214
2. Micromeritics and Powder Rheology	200	6. Complexation	220
3. Surface and Interfacial Phenomenon	205	7. Buffers	222
4. Viscosity and Rheology	211	8. Solubility	225

Section 6: PHARMACEUTICS

1. Pharmacy Profession and Introduction to Pharmaceuticals	230	19. Semisolid Dosage Forms	336
2. Introduction to Dosage Form	236	20. Liquid Dosage Forms	341
3. Sources of Drug Information	245	21. Aerosols	348
4. Allopathic Dosage Form	259	22. Preformulations	354
5. Crude Extract	265	23. Radio Pharmaceuticals	362
6. Allergenic Extract	273	24. Stability of Formulated Product	368
7. Biological Products	275	25. Kinetic Principles and Stability Testing	373
8. Pharmaceutical Plant, Location and Layout	281	26. Absorption, Distribution, Metabolism and Excretion	380
9. Dosage Form Necessities and Additives	285	27. Prolonged-action Pharmaceuticals	389
10. Powders	289	28. Novel Drug Delivery System	392
11. Capsules	292	29. Good Manufacturing Practices	400
12. Suspensions	299	30. Pharmaceutical Packaging	412
13. Emulsions	300	31. Cosmetics	429
14. Ophthalmic Preparations	301	32. Pilot Plant Scale-up Techniques	440
15. Solutions	302	33. Good Manufacturing Practice and Validation	446
16. Tablets	302	34. Good Warehousing Practices	451
17. Parenterals	320	35. Pharmaceutical Documentation	453
18. Analytical Methods for Characterization of Solid Forms	327	36. Quality Control and Good Laboratory Practices	456

Section 7: PHARMACEUTICAL MANAGEMENT

1. Introduction to Management	464	8. Leadership and Motivation	479
2. Planning and Forecasting	466	9. Human Resource Development	482
3. Organization in Management	469	10. General Agreement on Tariffs and Trade	484
4. Research Management	472	11. World Trade Organization and Trade-related Intellectual Property Rights	484
5. Inventory Management	474	12. Standard Institutions and Regulatory Authorities in Pharmaceutical and Drug Industry	486
6. Communication	476		
7. Marketing Research	477		
<i>Bibliography</i>			488
