

Contents

<i>About the Author</i>	v
<i>About the Editor</i>	vii
<i>Preface</i>	ix
<i>Acknowledgments</i>	xi
<i>Special Features of the Book</i>	xv
<i>Important Abbreviations</i>	xix
<i>Annexures</i>	xxiii
1. Terminology Used in Preventive and Social Medicine	xxiii
2. Standardized Measurement Units in Diagnostic Laboratory	xxiv
3. Basic Medical Tools	xxvi
4. WHO Five Moments of Hand Hygiene	xxvii
5. Donning and Doffing of Personal Protective Equipment (PPE)	xxviii
6. Biomedical Waste Management	xxxi
7. International Patient Safety Goals	xxxv
8. Antimicrobial Resistance	xxxvi
9. Biochemical Parameters	xl
10. Environmental Surveillance	xlviii
11. Immunoglobulins	l
12. Purpose of Various Immunoassay Methods with Examples	li
13. Allen Test (Assessment of Blood Flow to the Hand)	lii
14. One-hand Scoop Technique	lii
Chapter 1 Introduction to Medical Laboratory and its Techniques	1–16
Chapter 2 Specimen Collection, Transport and Storage	17–63
Chapter 3 Diagnostic Tests in Hematology and Pathology	65–94
Chapter 4 Blood Banking.....	95–121
Chapter 5 Cancer Markers and Cardiac Markers.....	123–139

Chapter 6	Body Fluid Analysis	141–182
Chapter 7	Diagnostic Tests Based on Biochemistry	183–253
Chapter 8	Diagnostic Microbiology	255–298
Chapter 9	Radiological Examinations	299–315
Chapter 10	Advanced Molecular Biological Techniques.....	317–324
<i>Index</i>		325–336
