<i>Foreword</i> by Chandrakant S Pandav	v
<i>Book Review</i> by BS Garg	vii
<i>Preface to the Ninth Edition</i>	ix
<i>Preface to the First Edition</i>	xi
<i>Index of Competencies</i>	xxv
<i>Abbreviations</i>	xxxix

Part I Basic Sciences Related to Community Medicine

1. Concept of Health and Disease, Ethics in Medicine and Doctor–Patient Relationship	1–35
Competency-based Learning in Community Medicine	1
Pedagogy and Problem-based Learning	2
A Case Study on Clinico-social Case Review	4
Concept of Public Health	5
Concept of Health and Holistic Health	6
Dimensions of Health	7
Physical Well-being	7
Mental Well-being	7
Social Well-being	7
Spiritual Well-being	8
Relativeness of Health	8
Determinants of Health	9
Social Determinants of Health	11
Village Health Sanitation and Nutrition Committees (VHSNC)	12
Convergent Actions of Social Determinants of Health	12
Characteristics of Agent, Host and Environmental Factors in Health and Disease and Multifactorial Etiology of Disease	13
Natural History of Disease	13
Application of Interventions at Various Levels of Prevention	13
Levels of Prevention	13
Concept of Health Promotion and Education, IEC and BCC	15
Health Indicators	18
Human Development Index	19
Demographic Profile of India and its Impact on Health	22
Role of Effective Communication Skills in Health and Disease	23
Doctor–Patient Relationship	25
Ethics in Medicine (Moral Principles)	26
Consumer Protection Act (CPA)	26
Clinical Establishment Act, 2010	26
Hippocratic Oath	26
World Medical Association Declaration of Geneva—“The Physician’s Pledge”	27
Nuremberg Code of Ethics in Medical Research	27
Declaration of Helsinki	28
Euthanasia	29
Duties of Physicians to their Patients	29
Major Health Problems in India	33
Principles and Practice of Medicine in Hospital and Community	34
2. Relationship of Social and Behavioural Sciences (Medical Humanities) to Health and Disease and Principles of Health Economics	36–65
Historical Development of Medicine and Social Sciences, from Symptoms to Universal Health Coverage	36
Concept of Rural, Urban and Tribal Communities	36–38

Community Participation in Health Management and Development	38
Steps in Assessment of Socio-cultural and Demographic Profile of Individual, Family and Community	41
Types of Family and its Role in Health and Disease	43
Family-retained Household Records (Mother and Child Protection Card)	46
Family Medicine	47
Family Adoption Programme and Yoga Meditation	48
Correct Methods of Assessment of Socio-economic Status (SES) of Individual and Family	51
Socio-economic and Caste Census (SECC)	52
Social and Cultural Factors in Health, Disease and Disability	54
Socio-cultural Factors with Social Problems and their Behavioural Components	55
Barriers to Good Health and Health-seeking Behaviour	56
Social Psychology and Community Behaviour	57
Community Relationship and its Impact on Health and Disease	57
Poverty and Social Security Measures and its Relationship to Health and Disease	59
Principles of Health Economics	61

3. Environmental Health Problems: National Programme of Climate Change and Human Health (NPCCHH) 66–117

Concept of Safe and Wholesome Water	66
Water Requirement Norms for Rural Areas	67
Norms of Water Supply for Urban Areas	67
Sanitary Sources of Water	67
Health Hazards of Water Pollution	69
Aetiology and Basis of Waterborne Diseases (Jaundice, Hepatitis and Diarrhoeal Diseases)	69
Water Purification Processes	69
Case Studies on Drinking Water, Chlorination, Storage Practices	74
Water Quality Standards	75
Arsenic Contamination	77
Endemic Fluorosis	77
National Programme for Prevention and Control of Fluorosis	79
Concept of Water Conservation and Rainwater Harvesting	80
National Rural Drinking Water Supply and Sanitation Programme	81
Urban Water Supply System	82
Standards of Housing and Effect of Housing on Health	83
Solid Waste, Human Excreta and Sewage Disposal (Borehole, Pit and VIP Latrines)	84
Social Factors Related to Excreta Disposal—"Easing for Diseases": A Case Study	85
Safe Disposal of Human Excreta in Rural Areas	85
Case Study of a Dug Well Latrine	87
Total Sanitation Campaign/Swachh Bharat Abhiyan	88
Urban Sanitation	89
Health Hazards of Soil Pollution	91
Health Hazards of Air Pollution	93
Health Hazards of Noise Pollution	99
Role of Vectors in Transmission of Diseases and Integrated Vector Management	100
Identification of Features and Life Cycle of Vectors of Public Health Importance and their Control Measures	101
Commonly Used Rodenticides, their Mode of Action and Applications	115
National Vector-borne Disease Control Programme (NVBDCP)	117

4. Principles of Health Promotion and Education 118–136

Health Education—Definition and Aim	118
Behaviour Change Communication	119
Health Information to People—Information for All	120
Information Revolution	120
Various Methods of Health Promotion/Education with their Merits and Demerits	121
Effects of Communication	123
Methods of Organizing Health Promotion, Education at Individual, Family and Community Settings	124
Communication in Health	125
Case Study in Communication	127
Steps in Planning, Organizing, Implementation and Evaluation of Health Communication/Education Programme	128
Steps in Evaluation	129
National Communication Strategy in RCH	130
Counselling in Health and Disease	131
GATHER Approach to Counselling about IUDs	132

5. Nutrition 137–209

- Global Targets on Nutrition 138
- Sustainable Development Goals for Nutrition 138
- Common Sources of Various Nutrients and Recommended Dietary Allowances According to Age, Sex, Activity and Physiological Conditions 138–142
- Visible and Invisible Fats 144
- Trans Fat (Hidden Fat) 146
- Major Nutrition-related Public Health Problems 146
- Common Nutrition-related Health Disorders 146
- Macronutrient Deficiency Disorders or Protein Energy Malnutrition (PEM) 146
- Correct Methods of Performing a Nutritional Assessment of Individuals, Families and Community 149
- Dietary (Food Consumption) Surveys 150
- Prevention, Control and Management of PEM 153
- Nutrition Rehabilitation Centres and *Sneha Shivirs* 154
- Principles of Nutrition Education 155
- Methods of Nutritional Surveillance 157
- Characteristic of an Average Indian Diet 158
- Planning and Recommending Suitable Diet for Individual and Family Based on Local Availability of Foods and Economic Conditions 158
- Balanced Diet for Moderately Active Man 159
- Common Dietary Beliefs and Practices in Infants, Young Children, Pregnant and Lactating Mothers—A Case Study 160
- Undernutrition during Infancy and its Prevention 162
- Exclusive Breastfeeding 163
- Ten Steps to Successful Breastfeeding (WHO, UNICEF and Baby Friendly Hospital Initiative) 164
- Infant Milk Substitutes Act, 2000 and 2016 164
- National Guidelines on Promotion of Infant and Young Child Feeding 166
- Growth Monitoring (A Preventive Strategy) and Nutrition Surveillance 169
- Micronutrient Deficiency Disorders 177
- Nutritional Anaemia 178
- National Nutritional Anaemia Control Programme 180
- National Iron Plus Initiative 181
- Anaemia *Mukt Bharat* 182
- Vitamin A Deficiency (VAD) 182
- National Programme for VAD 184
- Iodine Deficiency Disorders 186
- National IDD Control Programme 188
- Zinc Nutrition 191
- National Nutritional Programmes 192
- National Nutrition Policy 195
- ICDS (Integrated Child Development Services) Mission 196
- National Nutrition Mission 2018 201
- Prevention of Food Adulteration Act 203
- The Food Safety and Standards Act, 2006 203
- National Survey on Milk Adulteration 204
- Food Fortification 206
- Neuroleptism 207
- Epidemic Dropsy 207
- Food Hygiene and Food Poisoning 208
- Genetically Modified Crops 209

6. Basic Statistics and its Applications Including Research Methodology 210–252

- Variables and Scales of Measurement 210
- Classification or Types of Statistical Data 211
- Sources of Health Data and Methods of Data Collection 212
- Data Analysis and interpretation 213
- Presentation of Statistical Data—Visibility of Data 214
- Applications of Simple/Elementary Statistical Methods 218
- Summarization of Numerical Data, or Data Reduction (Describe Measures of Central Tendency) 218
- Frequency Distributions or Counts 221
- Normal Distribution and Normal Curve 224
- Measures of Variability (Dispersion) 224
- Confidence Intervals 228
- Common Probability Sampling Techniques 229
- Probability 234

Tests of Significance in Various Studies	236
Life Table Method of Analysis	243
Research Methodology	245
Research: Fundamental and Basic, Applied, Action-oriented and Operational Research	245
Focus Group Discussions	250
Framing a Research Question for a Study	250

7. Epidemiology

253–318

Principles, Concepts and Uses of Epidemiology	253
Definition of Epidemiology	253
Sources of Epidemiological Data	254
Epidemiology of Communicable Diseases (CCDs)	255
Changing Pattern of Infectious/Communicable Diseases in India	255
Emerging Infectious Diseases	256
Re-emerging Infectious Diseases	256
Neglected Tropical Diseases—Prioritized Tropical Diseases	256
Modes of Transmission	257
Levels of Disease Occurrence	263
Measures for Prevention and Control of Communicable Diseases	265
Notification of Diseases	266
Epidemiology of Non-communicable Diseases (NCDs)	267
Prevention and Control of NCDs	268
Surveillance of Risk Factors of Non-communicable Diseases	268
WHO Stepwise Approach for Surveillance of Risk Factors in NCDs	268
Measuring Disease and Death Frequency	269
Measurement of Disease or Morbidity Burden	269
Defining, Measuring and Interpreting Morbidity Indicators	269
Defining, Calculating and Interpreting Mortality Indicators	273
Medically Certified Causes of Death Statistics: Million Death Study	276
Disability: Measurement	276
Common Impairments	276
Risk Measurement in Epidemiology	278
Need and Evaluation of Screening Tests	281
Principles of Public Health Surveillance	284
Integrated Disease Surveillance Programme	287
Descriptive Analysis and Interpretation of Data by TPP	290
Steps in the Investigation of an Epidemic of CCD—Jaundice and Principles of Control Measures	293
Epidemiological Study Designs	297
Observational Studies	297
Descriptive Studies	297
Analytical Studies	301
Ecological Studies	301
Cross-sectional Studies	302
Case Control Studies	302
Cohort Studies	304
Experimental Studies	307
Randomized Controlled Trials (RCTs)	307
Field Trials	310
Community Trials	311
Principles of Causation and Association in Epidemiological Studies	312
Biases in Epidemiological Studies	314
Applications of Computer in Epidemiology/Health Sciences	315
Epidemiological Basis of Health Systems, Services and National Health Programmes in India and Learning of Epidemiology	316
List of 20 Notifiable CCDs	317
List of National Health Programmes	317

8. Epidemiology of Communicable and Non-communicable Diseases and Related Disease-specific National Health Programmes*

319–521

Principles of Planning, Implementation and Evaluating Control Measures of Diseases at Community Level	319
Natural History of HIV/AIDS—Window Period	322
Epidemiology of HIV/AIDS Pandemic	322
Prevalence and Burden of HIV Epidemic in India—Current Status of Epidemic—an Overview	322
National Surveillance Systems in HIV, Viral Hepatitis B and C 2026	326
Biennial HIV Sentinel Surveillance (HSS) Plus in India	326

*Part of Applied Sciences—Part II

National Integrated Bio-behavioural Surveillance (IBBS) Model	326
National AIDS Control Programme (NACP)	327
National Strategic Plan and Mission Sampark 2017–24 for HIV/AIDS (NACP)	327
Female Sex Work Patterns and Implications: A Case Study	332
Reproductive Tract Infections and Sexually Transmitted Infections	332
Syndromic Case Management of STI/RTI	333
National Guidelines on Prevention, Management and Control of RTIs/STIs 2014	334
National Strategic Plan for STI/RTI 2017–24 Vision	336
Epidemic of Tuberculosis in India	337
Epidemiology and Natural History of Tuberculosis	337
Burden of TB Disease in India (2025)	337
National TB Prevalence Survey in India (2019–21)	337
National TB Control Programme (NTCP) 1962	340
Revised National TB Control Programme (RNTCP) Renamed as National TB Elimination Programme	340
National Strategic Plan (NSP) 2017–25	340
National Policy for Diagnosis of TB	342
Programmatic Management of Drug Resistant TB (PMDT)—Erstwhile Dots Plus	342
Magnitude of DR-TB in India	342
Integrated Diagnostic and Treatment Algorithm for Drug Susceptible and Resistant Tuberculosis	344
Treatment Regimens for Susceptible and Drug Resistant TB-2024	345
New Treatment for Drug-resistant Tuberculosis 6 Months BPalm Regimen	346
Guidelines for Tuberculosis Preventive Treatment (TPT)—July 2021	347
BCG Re-vaccination Study in High Risk Adults	347
Leprosy	348
Epidemiology	348
Revised Classification of Leprosy in India: WEF April 2025	350
Revised Treatment Regimen of Leprosy in India: WEF April 2025	3
National Leprosy Eradication Programme (NLEP)	352
Primary Prevention of Leprosy among Contacts	353
National Strategic Plan (NSP) and Roadmap for Leprosy (2023–27)	354
Vector-borne Diseases	354
National Center for Vector-borne Diseases Control (NCVBDC)	354
Malaria	355
Epidemiology of Malaria	355
National Malaria Control Programme in India	357
National Framework for Malaria Elimination in India 2016–2030	358
Strategic Approaches	358
Early Diagnosis by Epidemiological Surveillance and Case Management in Malaria	358
Case-based Surveillance	359
National Drug Policy on Malaria (2013)	360
Drug Schedule for Treatment of <i>P. vivax</i> Malaria	361
Drug Schedule for Treatment of Uncomplicated <i>P. falciparum</i> Cases	361
Integrated Vector Management (IVM)	363
Monitoring and Evaluation in Malaria	365
Urban Vector-borne Disease Scheme	367
Programme Planning and Management	368
Lymphatic Filariasis	368
Epidemiology	368
National Lymphatic Filaria Elimination Programme	369
The Components of Enhanced Five-pronged Strategy	371
Kala-azar (VL)	372
Epidemiology	372
National Kala-azar Elimination Programme	373
Dengue Fever/Dengue Haemorrhagic Fever	375
Epidemiology	375
National Mid-term Plan for Prevention and Control of Dengue and Chikungunya (2011–13) and Beyond	376
Dengue Case Classification and Management Clinical Criteria for DF/DHF/DSS	376
Entomological Surveillance and Larval Indices	377
Chikungunya Fever	378
Japanese Encephalitis (JE)—Acute Encephalitis Syndrome	380
Epidemiology	380
National Programme for Prevention and Control of JE/AES	380
Kyasanur Forest Disease	383
Epidemiology	383
Yellow Fever	383
Waterborne Diseases (WBD)	384
Epidemiology of Diarrhoeal Diseases	384

Classification of Diarrhoea	385
Oral Rehydration Salt (ORS): Reduced Osmolarity ORS	386
Classification of Dehydration	386
Management of Dehydration	387
Prevention of Acute Diarrhoeal Diseases	388
National Diarrhoeal Diseases Control Programme	389
Intensified Diarrhoea Control Fortnight (IDCF) from 2014–23	389
Cholera	390
Epidemiology of Cholera	390
Methods of Prevention and Control of Cholera	391
Epidemic Disease Act, 1897	391
Management of Outbreaks of Cholera	392
Ending Cholera—a Global Roadmap to 2030	392
Use of Oral Vaccine in Cholera Outbreaks	392
Viral Hepatitis	393
Hepatitis A	393
Epidemiology	393
Hepatitis E	394
Epidemiology	394
Hepatitis B—a Silent Killer	395
Epidemiology	395
Hepatitis C—The Silent Killer	397
Epidemiology	397
National Viral Hepatitis Control Programme	398
Guinea Worm Disease (Eradicated from India)	399
Enteric Fevers—Neglected Tropical Disease	400
Epidemiology	400
Policy Guidelines in India (Recommendations)	403
WHO Recommended Typhoid Vaccines	403
Newer Vaccines against Typhoid	403
Zoonotic Diseases	404
Rabies (a Neglected Tropical Disease)	404
Epidemiology of Rabies	404
Revised National Guidelines on Rabies Prophylaxis (2019)	405
National Rabies Control Programme (NRCP)	411
National Programme for Rabies Elimination	411
Plague	412
Epidemiology	412
Brucellosis—Neglected Tropical Disease	416
Epidemiology, Prevention and Control	416
Hydatid Disease—A Neglected Tropical Disease	416
Taeniasis and Cysticercosis—Neglected Tropical Diseases	417
Epidemiology	417
Prevention and Control	418
Toxoplasmosis	418
Epidemiology and Transmission	418
Prevention and Control	418
Leptospirosis	419
Programme for Prevention and Control of Leptospirosis—National Guidelines 2015 by NCDC	419
Anthrax	421
Epidemiology	421
Prevention and Control	421
Q-Fever	422
Mad Cow Disease and Creutzfeldt-Jakob Disease (CJD)	422
Epidemiology of Vaccine Preventable Diseases	423
Measles	423
Epidemiology	423
Measles Mortality Reduction—India's Multi-year Strategic Plan 2010–2017	426
Measles Rubella Campaign Started in 2017	427
Roadmap to Measles and Rubella Elimination in India by 2023	427
Rubella	428
Congenital Rubella Syndrome	428
Mumps	428
Chickenpox (Varicella)	429
Pertussis (Whooping Cough)	429
Epidemiology and Prevention	429
Tetanus	430

Epidemiology and Prevention	430
Maternal and Neonatal Tetanus Eliminated (MNTE)—What is Elimination?	431
Diphtheria (a Re-emerging Threat)	431
Tuberculosis	432
Epidemiology and Prevention	432
Epidemiology of Poliomyelitis	433
National Polio Eradication Programme	434
Key Strategies of National Polio Eradication Programme	434
The Polio Eradication Endgame Strategy 2013–18: Three Steps	437
Introduction of Inactivated Polio Vaccine (IPV)	437
Withdrawal of Type 2 Component of OPV: Switch from Trivalent OPV to Bivalent OPV	437
Endgame Strategy	437
Acute Respiratory Infections (ARIs)	438
Epidemiology of ARI	438
National Policy on ARI Control	439
Meningococcal Disease	444
Epidemiology	444
How to Manage Patients with Meningococcal Diseases	447
Control of Epidemics	447
Yaws and its Eradication Programme (YEP)	447
Severe Acute Respiratory Syndrome (SARS)	449
Influenza	451
Avian Influenza and Human Health (New Threat)	452
Pandemic Influenza A (H1N1) 2009 (Swine flu)	454
Middle-East Respiratory Syndrome—Coronavirus (MERS-CoV) Global Alert and Response (GAR)	457
Ebolavirus Disease (EVD)	458
NIPAH	458
Epidemiology and Prevention	458
Zika Virus Disease	459
Prevention	459
Monkeypox: A Global Threat	459
Epidemiology of Non-communicable Diseases and Related National Health Programmes	460
Disease Burden	461
A Case Study on Unhealthy Lifestyles	461
Epidemiology of Cardiovascular Diseases (CVDs) (Unhealthy Lifestyle Diseases)	461
Obesity-Bulge Epidemic (an Epidemic in India)	463
Epidemiology	463
Measuring Obesity	463
Consequences of Obesity	465
Prevention and Control of Obesity	465
Diabetes	467
Epidemiology	467
Criteria for the Diagnosis of Diabetes Mellitus	467
Types of Diabetes	467
Prevention of Diabetes	469
Screening Programmes for Type II Diabetes	471
Hypertension (a Silent Killer)	471
Epidemiology of Hypertension	471
Rules of Halves in Hypertension	471
What Constitutes Hypertension (HTN)	472
Prevention of Hypertension	474
Rheumatic Heart Disease (RHD)	475
Epidemiology of RHD	475
Prevention of Rheumatic Fever and RHD	476
National Programme for Prevention and Control of Non-communicable Diseases	479
Disease Burden due to NCDs in India	479
Levels of Prevention in NCDs	481
Primordial Prevention in NCDs	481
Population-based Screening for NCDs	484

Cancer—Screening of Common Cancers and Referral	487
Package of Services for NCDs	488
New Initiatives for Control and Prevention of NCDs	489
WHO Global Action Plan and Monitoring Framework for Prevention and Control of Non-communicable Diseases (NCDs) by 2025	489
National NCD Monitoring Survey 2017–18 in Adults and Adolescents	490
Cancers	491
Epidemiology of Cancers	491
Common Cancers in India (Globcan 2012)	491
An Atlas of Cancer in India	491
National Cancer Control Programme in India	493
Cost Effective Strategies—Best Buys as per WHO	493
Cervical cancer and HPV Vaccination Problem and National Response (2026)	493
India's HPV Vaccine Rollout (2026)—What is New and What It Means	494
National Cancer Registry Programme (NCRP)	495
Accidents and Injuries: Hidden Epidemic	496
Pandemic of Road Traffic Accidents (RTA)	496
Epidemiology of RTA	496
Prevention of Accidents	499
Motor Vehicle Act, 2019	499
National Programme for Prevention and Management of Trauma	500
National Programme for Prevention and Management of Burn Injuries (NPPMBI)	501
Blindness	501
Epidemiology of Blindness	501
National Blindness Survey in Population 2018–19	502
National Programme for Control of Blindness and Visual Impairment (NPCBVI)	503
District Blindness and Visual Impairment Control Programme (DBVICP)	504
Trachoma Eliminated on 8th Oct 2024—WHO Certified	506
National Oral Health Programme (NOHP)	507
Oral Disease Burden	507
Objectives of National Oral Health Programme (NOHP)	507
Strategies for Implementation	508
National Programme for Prevention and Control of Deafness	509
Educating and Training of Health Workers in Disease Surveillance, Control, Treatment and Health Education for CCDs and NCDs	510
Health Management Information System (HMIS)	512
Development of HMIS in India (Health Recording System)—A Case Study	513
Integrated Reproductive and Child Health Register (IRCHR) Version-2.0	514
Records, Reports and Registers at Sub-centre	515
Civil Registration System (CRS)	518
Sample Registration System (SRS)	520
The Model Registration Survey of Cause of Death	520

9. Demography and Vital Statistics, Population Sciences and Medical Genetics

522–552

Principles of Demography	522
Demographic Transition/Cycle/Gap	522
Population Explosion in India	524
Population Dynamics of India	525
Demographic Indicators	526
Population Statistics	526
Causes of Declining Sex Ratio and their Social and Health Implications	529
Vital Statistics—Birth and Death Rate	531
Fertility Rates/Indicators	532
Methods of Population Control	536
National Population Policy (NPP), 2000	536
Sources of Vital Statistics (Census, NFHS, NSSO and SRS)	540
Medical Genetics	543
Chromosomal Abnormalities	544
Epidemiology of Genetic Disorders and Services	545
Birth Defects Surveillance System (BDSS)	545
The Human Genome Project	549
Human Genome Diversity Project	549
The Preconception and Prenatal Diagnostic Techniques (PC-PNDT) (Prohibition of Sex Selection) Act, 1994 and Amended Rules, 2003	550
The Medical Termination of Pregnancy Act, 1971	552

Part II

Applied Sciences Related to Community Medicine

10. Reproductive, Maternal, Newborn, Child and Adolescent Health and Nutrition (RMNCAH + N) 553–619

- Current Status of RMNCAH + N in 2025 553
- Major Health Problems of Women 553
- Major Health Problems of Children 553
- Local Customs and Practices during Pregnancy Childbirth, Lactation and Child Feeding Practices—A Case Study 554
- Child Survival and Safe Motherhood (CSSM) Interventions 1992–1997 555
- Reproductive and Child Health Phase 1 (1997–2005) 557
- RMNCH + A Approach 558
- Reproductive, Maternal, Newborn, Child and Adolescent Health and Nutrition (RMNCAHN) Interventions 559
- Tracking Every Pregnant Woman by Name by Mother and Child Tracking Systems (MCTS) for Quality Services and Screening of High-risk Pregnancies 561
- India's Maternal Mortality on Decline 566
- National Strategies/Interventions for Reduction of MMR 571
- Neonatal, Infant and Child Mortality 572
- National Strategies Interventions to Reduce Neonatal IMR and U5MR 578
- India Newborn Action Plan (INAP Sept 2014) 580
- Universal Immunization Programme 582
- Integrated Management of Neonatal and Childhood Illness (IMNCI) 592
- School Health Programme (SHP) 597
- Rashtriya Bal Swasthya Karyakram* (RBSK) 601
- Physiology, Clinical Management and Principles of Adolescent Health 602
- National Programmes and Policy for Adolescent Health and Development 604
- A New Adolescent Health Programme—*Rashtriya Kishor Swasthya Karyakram* (RKSK) 604
- Kishori Shakti Yojna* 607
- Various Family Planning Methods—their Advantages and Shortcomings 608
- Basis and Principles of National Family Planning/Welfare Programme (NFPP) Organization of Services and their Technical and Operational Aspects 609
- Gender Issues and Women Empowerment 614
- Beti Bachao Beti Padhao* (BBBP) Scheme 618

11. Occupational Health 620–638

- Occupational/Workplace Safety and Health 620
- Specific Occupational Health Hazards, their Risk Factors and Preventive Measures 621
- Pneumoconioses 621
- Silicosis 621
- Asbestosis 622
- Anthracosillcosis 623
- Byssinosis 624
- Extrinsic Allergic Alveolitis 624
- Prevention of pneumoconioses 625
- Diseases Caused by Lead and its Toxic Compounds 625
- Effects of Heat 626
- Radiation 627
- Diseases Caused by Compressed Air 628
- Diseases Caused by Vibration 629
- Occupational Dermatoses 629
- Carbon Monoxide (CO) Poisoning 630
- Coal Mines and other Mines—Health Problems 630
- Industrial Accidents 631
- Prevention and Control of Occupational Hazards 631
- Principles of Ergonomics in Health Preservation 632
- Role, Benefits and Functioning of Employees State Insurance Scheme (ESIS) of India 635
- Employees State Insurance (ESI) Act, 1948 635
- Occupational Disorders of Health Professionals, their Prevention and Management 637

12. Geriatrics—“Add Life to the Years”: Healthy Ageing—Healthcare of Elderly 639–648

- Concept of Geriatric Services 639
- Gerontology 639

Health Problems of Elderly/Geriatric Population 640
 Prevention of Health Problems of Aged 641
 Action towards Active Ageing 642
 Katz index of Independence in Daily Living Activities 644
 A Young Man of Hundred Years (1997)—A Case Study 645
 National Policy on Older Persons (1999) 646
 National Programme for Healthcare of Elderly (NPHCE) 647

13. Disaster Preparedness and Management 649–656

Concept of Disaster Management 649
 Global Phenomenon 649
 Disaster Management Cycle 650
 National Disaster Management Plan (NDMP 2016) 650
 Disaster Management Act, 2005 650
 Disaster Preparedness 650
 Response to Disaster 651
 Natural Disasters in India 651
 Types of Disasters in India 652
 Man-made Disasters in India and World 652
 National Disaster Management Authority 653
 Bioterrorism (Biological Warfare) 656

14. Hospital Waste Management 657–664

Definition of Waste 657
 Biomedical Waste Generation and Classification 657
 Hazards of Biomedical/Healthcare Waste 658
 National Guidelines for Hospital Waste Management 659
 Laws Related to Hospital Waste Management 659
 Biomedical Waste Categories and their Segregation, Collection, Treatment, Processing and Disposal Options 660
 Biodegradable Plastic and Medical Waste 663
 Hazards of Plastic 664

15. Mental Health 665–680

Concept of Mental Health 665
 National Mental Health Survey in India, 2015–16 665
 Beliefs—Attitudes and Practices in Relation to Mental Disorders—A Case Study 666
 Warning Signals of Mental Health Disorders—Features of Mental Illness 667
 National Mental Health Programme 667
 District Mental Health Programme (DMHP) 667
 Mental Healthcare Act (MHA), 2017 669
 New Pathways New Hope: National Mental Health Policy of India (October 2014) 670
 Substance Use Disorders (Drug Abuse) Drugs can Kill, Say no to Drugs 670
 Social Problems of Drug Abuse—A Case Study 672
 Tobacco Pandemic 674
 Problem in India: Global Adult Tobacco Survey (GATS) October 2010 and 2016–2017 674
 GATS 2010 and 2017 and Global Youth Tobacco Survey 2019 674
 Cigarettes and Other Tobacco Products Act (COTPA), 2003 675
