| <i>Preface to the Second Edition</i> .....  | v   |
| <i>Preface to the First Edition</i> .....   | vi  |
| <i>Syllabus</i> .....                       | vii |
| 1. States of Matter .....                   | 1   |
| 2. Micromeretics and Powder Rheology .....  | 17  |
| 3. Surface and interfacial phenomenon ..... | 52  |
| 4. Rheology .....                           | 105 |
| 5. Colloidal Dispersions .....              | 142 |
| 6. Coarse Dispersions .....                 | 167 |
| 7. Complexation and Protein Binding .....   | 191 |
| 8. Kinetics and Drug Stability .....        | 221 |
| 9. Buffers and Buffering Agents .....       | 261 |
| 10. Solubility and Related Phenomenon ..... | 276 |
| 11. Diffusion and Dissolution .....         | 293 |
| 12. Thermodynamics .....                    | 310 |
| Index .....                                 | 327 |
