| <i>Preface to the First Edition</i> . . . . .                                                                           | xiv        |
| <b>1. Introduction</b> . . . . .                                                                                        | <b>1</b>   |
| <b>2. Good Laboratory Practices</b> . . . . .                                                                           | <b>23</b>  |
| <b>3. General Requirements, Quality Assurance and Accreditation of Calibration /<br/>Testing Laboratories</b> . . . . . | <b>37</b>  |
| <b>4. Analytical Procedures and Analyst Validation</b> . . . . .                                                        | <b>51</b>  |
| <b>5. Profile of a Quality Control Laboratory for Pharmaceutical Units</b> . . . . .                                    | <b>65</b>  |
| <b>6. Analgesics &amp; Antipyretics</b> . . . . .                                                                       | <b>105</b> |
| 1. Aspirin, Caffeine citrate, Phenylephrine hydrochloride, Terpine hydrate,<br>Ascorbic acid . . . . .                  | 105        |
| 2. Salicylamide, Paracetamol . . . . .                                                                                  | 110        |
| 3. Paracetamol, Salicylamide, Caffeine citrate, Chlorpheniramine maleate . . . . .                                      | 112        |
| 4. Paracetamol, Caffeine citrate, Chlorpheniramine maleate, Phenylephrine<br>hydrochloride, Ascorbic acid . . . . .     | 114        |
| 5. Aspirin, Salicylamide, Caffeine citrate, Codeine phosphate, Paracetamol . . . . .                                    | 117        |
| 6. Paracetamol, Codeine phosphate, Caffeine citrate, Doxylamine succinate . . . . .                                     | 120        |
| 7. Paracetamol, Caffeine citrate, Codeine phosphate, Diphenhydramine<br>hydrochloride . . . . .                         | 121        |
| 8. Paracetamol, Dicyclomine hydrochloride, Clidinium bromide . . . . .                                                  | 122        |
| 9. Ibuprofen, Colchicine . . . . .                                                                                      | 123        |
| 10. Paracetamol, Promethazine hydrochloride . . . . .                                                                   | 124        |
| 11. Paracetamol, Pseudoephedrine hydrochloride, Chlorpheniramine maleate,<br>Caffeine citrate . . . . .                 | 127        |
| 12. Aspirin, Dipyridamole . . . . .                                                                                     | 128        |
| 13. Ibuprofen, Dextropropoxyphene hydrochloride, Paracetamol . . . . .                                                  | 129        |
| 14. Phenylephrine hydrochloride, Caffeine citrate, Diphenhydramine hydrochloride . . . . .                              | 130        |
| 15. Paracetamol, Diclofenac sodium, Chlormezanone . . . . .                                                             | 131        |
| 16. Ibuprofen, Paracetamol, Chlorzoxazone . . . . .                                                                     | 133        |
| 17. Ibuprofen, Paracetamol, Magnesium trisilicate . . . . .                                                             | 134        |
| 18. Paracetamol, Orphenadrine citrate . . . . .                                                                         | 135        |
| 19. Ibuprofen, Pseudoephedrine hydrochloride or Codeine phosphate . . . . .                                             | 136        |
| 20. Paracetamol, Dicyclomine hydrochloride, Activated Dimethicone . . . . .                                             | 137        |

|                                                                                                                       |     |
|-----------------------------------------------------------------------------------------------------------------------|-----|
| 21. Mefenamic acid, Dicyclomine hydrochloride . . . . .                                                               | 138 |
| 22. Aspirin, Chlorpheniramine maleate, Salicylamide . . . . .                                                         | 139 |
| 23. Paracetamol, Salicylamide, Chlorpheniramine maleate, Phenylephrine<br>hydrochloride . . . . .                     | 140 |
| 24. Analgin, Paracetamol, Caffeine citrate, Codeine phosphate . . . . .                                               | 143 |
| 25. Dextropropoxyphene napsylate, Paracetamol, Diazepam . . . . .                                                     | 146 |
| 26. Paracetamol, Diazepam, Dextropropoxyphene hydrochloride, Dicyclomine<br>hydrochloride . . . . .                   | 148 |
| 27. Paracetamol, Pseudoephedrine hydrochloride, Azatadine maleate . . . . .                                           | 151 |
| 28. Dicyclomine hydrochloride, Paracetamol, Isopropylantipyrin, Chlordiazepoxide . . . . .                            | 152 |
| 29. Paracetamol, Dicyclomine hydrochloride, Phenylisopropyl pyrazolone,<br>Ethylmorphine hydrochloride . . . . .      | 153 |
| 30. Paracetamol, Salicylamide, Codeine phosphate . . . . .                                                            | 154 |
| 31. Ascorbic acid, Methapyriline hydrochloride, Phenylephrine hydrochloride . . . . .                                 | 155 |
| 32. Ascorbic acid, Analgin . . . . .                                                                                  | 156 |
| 33. Ergotamine tartrate, Caffeine citrate, Paracetamol, Prochlorperazine maleate . . . . .                            | 157 |
| 34. Ergotamine tartrate, Cyclizine hydrochloride, Caffeine citrate . . . . .                                          | 160 |
| 35. Paracetamol, Pentazocine hydrochloride . . . . .                                                                  | 161 |
| 36. Aspirin, Caffeine citrate . . . . .                                                                               | 163 |
| 37. Aspirin, Caffeine citrate, Dextropropoxyphene hydrochloride . . . . .                                             | 164 |
| 38. Aspirin, Caffeine citrate, Diphenhydramine hydrochloride . . . . .                                                | 165 |
| 39. Aspirin, Caffeine citrate, Noscapine, Chlorpheniramine maleate . . . . .                                          | 166 |
| 40. Aspirin, Paracetamol, Caffeine citrate . . . . .                                                                  | 167 |
| 41. Aspirin, Caffeine citrate, Phenylephrine hydrochloride, Pseudoephedrine<br>hydrochloride . . . . .                | 169 |
| 42. Aspirin, Noscapine, Caffeine, Pseudoephedrine hydrochloride,<br>Chlorpheniramine maleate . . . . .                | 171 |
| 43. Analgin, Salicylamide . . . . .                                                                                   | 173 |
| 44. Analgin, Paracetamol, Diazepam, Chlorpheniramine maleate . . . . .                                                | 174 |
| 45. Analgin, Paracetamol, Caffeine citrate . . . . .                                                                  | 175 |
| 46. Paracetamol, Chlormezanone . . . . .                                                                              | 177 |
| 47. Ibuprofen, Paracetamol, Chlormezanone . . . . .                                                                   | 178 |
| 48. Paracetamol, Oxyphencyclimine hydrochloride . . . . .                                                             | 179 |
| 49. Paracetamol, Triprolidine hydrochloride . . . . .                                                                 | 180 |
