

Table of Contents

<i>Foreword by Dr. T.R. Saraswathi</i>	<i>vii</i>	<i>Additional Reading</i>	<i>54</i>
<i>Preface to the Third (Revised) Edition</i>	<i>ix</i>	<i>Key Points</i>	<i>54</i>
<i>Preface to the First Edition</i>	<i>x</i>	<i>Mind Map</i>	<i>55</i>
<i>Acknowledgements</i>	<i>xi</i>	<i>Self-Assessment</i>	<i>56</i>
<i>Contributors</i>	<i>xiii</i>		
<i>Online Resource: Tooth Carving Demonstration</i>	<i>xxiv</i>	4. Nerves of the Head and Neck	58
<i>Syllabus Mapping to the Contents of this Book</i>	<i>xxv</i>	<i>Introduction</i>	<i>58</i>
		<i>Components of the Nervous System</i>	<i>58</i>
		<i>Autonomic Nervous System</i>	<i>65</i>
		<i>Spinal Nerves</i>	<i>71</i>
		<i>Cranial Nerves</i>	<i>74</i>
		<i>Regional Nerve Supply</i>	<i>100</i>
		<i>Sensory Innervation of the Face</i>	<i>102</i>
		<i>Additional Reading</i>	<i>102</i>
		<i>Key Points</i>	<i>103</i>
		<i>Mind Map</i>	<i>105</i>
		<i>Self-Assessment</i>	<i>106</i>
		5. Vasculature of the Head and Neck	107
		<i>Introduction</i>	<i>107</i>
		<i>Components of the Vascular System:</i>	
		<i>the Vascular Tree</i>	<i>107</i>
		<i>Arterial Supply of the Face</i>	<i>110</i>
		<i>Venous Drainage of the Face</i>	<i>119</i>
		<i>Additional Reading</i>	<i>123</i>
		<i>Key Points</i>	<i>123</i>
		<i>Mind Map</i>	<i>124</i>
		<i>Self-Assessment</i>	<i>125</i>
		6. Lymphatics of the Head and Neck	126
		<i>Introduction</i>	<i>126</i>
		<i>Structural Components of the</i>	
		<i>Lymphatic System</i>	<i>127</i>
		<i>Significance of the Lymphatic System</i>	<i>128</i>
		<i>Anatomy of Lymph Nodes</i>	<i>128</i>
		<i>Classification of Lymph Nodes</i>	<i>129</i>
		<i>Lymphatic Drainage of the Head and</i>	
		<i>Neck</i>	<i>131</i>
		<i>Waldeyer's Ring</i>	<i>133</i>
		<i>Clinical Considerations</i>	<i>135</i>
Section I Oral Anatomy	1		
1. Introduction to Oral Anatomy	2		
<i>Definition of Oral Anatomy</i>	<i>2</i>		
<i>Introduction to Oral Anatomy</i>	<i>2</i>		
<i>Organization of the Oral Cavity</i>	<i>3</i>		
<i>Boundaries of the Oral Cavity</i>	<i>5</i>		
<i>Basic Terminology</i>	<i>5</i>		
<i>Components of the Oral Cavity</i>	<i>7</i>		
<i>Subdivisions of Anatomy</i>	<i>11</i>		
<i>Approaches to Studying Anatomy</i>	<i>12</i>		
<i>Implications of Oral Anatomy in Dentistry</i>	<i>13</i>		
<i>Key Points</i>	<i>13</i>		
<i>Mind Map</i>	<i>14</i>		
<i>Self-Assessment</i>	<i>18</i>		
2. Osteology of Skull	20		
<i>Introduction</i>	<i>20</i>		
<i>Classification of Bones</i>	<i>20</i>		
<i>Components of the Skeletal System</i>	<i>24</i>		
<i>Articulation</i>	<i>36</i>		
<i>Blood Supply and Innervation of Bone</i>	<i>36</i>		
<i>Additional Reading</i>	<i>37</i>		
<i>Key Points</i>	<i>37</i>		
<i>Mind Map</i>	<i>38</i>		
<i>Self-Assessment</i>	<i>39</i>		
3. Musculature of the Head and Neck	40		
<i>Introduction</i>	<i>40</i>		
<i>Classification of Muscles</i>	<i>40</i>		
<i>Blood and Nerve Supply to Skeletal Muscle</i>	<i>41</i>		
<i>Muscles of the Head Region</i>	<i>41</i>		

14. Permanent Maxillary and Mandibular Incisors	295	Maxillary Second Molar	367
Introduction	295	Maxillary Third Molar	371
Maxillary Central Incisors	295	Variations in Maxillary Molars	372
Maxillary Lateral Incisors	299	Mandibular First Molar	372
Mandibular Central Incisors	302	Mandibular Second Molar	378
Mandibular Lateral Incisors	304	Mandibular Third Molar	383
Additional Reading	307	Variations in Mandibular Molars	386
Steps for Carving a Maxillary Central Incisor	308	Clinical Considerations: Mandibular Molars	386
Steps for Carving a Maxillary Lateral Incisor	309	Additional Reading	387
<i>Key Points</i>	310	Steps for Carving a Maxillary First Molar	388
<i>Mind Maps</i>	311	Steps for Carving a Mandibular First Molar	389
<i>Self-Assessment</i>	315	<i>Key Points</i>	390
		<i>Mind Maps</i>	391
		<i>Self-Assessment</i>	397
15. Permanent Maxillary and Mandibular Canines	317	18. Morphology of Pulp Chambers and Canals	399
Introduction	317	Introduction	399
Maxillary Canine	317	Morphology of Pulp Chambers and Canals in Deciduous Teeth	399
Mandibular Canine	321	Morphology of Pulp Chambers and Canals in Permanent Teeth	400
Additional Reading	324	Anatomical Variations	407
Steps for Carving a Maxillary Canine	325	Additional Reading	408
<i>Key Points</i>	326	<i>Key Points</i>	409
<i>Mind Maps</i>	327	<i>Mind Map</i>	409
<i>Self-Assessment</i>	329	<i>Self-Assessment</i>	410
16. Permanent Maxillary and Mandibular Premolars	331	19. Alignment and Occlusion	411
Introduction	331	Introduction	411
Maxillary First Premolar	332	Development of Occlusion	411
Maxillary Second Premolar	336	Relationship of the Maxillary and Mandibular Teeth	418
Mandibular First Premolar	339	Occlusal Contacts During Centric and Eccentric Positions of the Mandible	424
Mandibular Second Premolar	342	Determinants of Occlusal Morphology	427
Steps for Carving a Maxillary First Premolar	347	Additional Reading	429
Steps for Carving a Mandibular First Premolar	348	<i>Key Points</i>	429
Steps for Carving a Mandibular Second Premolar	349	<i>Mind Map</i>	430
Additional Reading	350	<i>Self-Assessment</i>	431
<i>Key Points</i>	350	20. Functional Occlusion and Malocclusion	433
<i>Mind Maps</i>	352	Introduction	433
<i>Self-Assessment</i>	360	Occlusion	433
17. Permanent Maxillary and Mandibular Molars	362	Malocclusion	439
Introduction	362	Conclusion	445
Maxillary First Molar	362	Additional Reading	445

<i>Key Points</i>	445	24. Taste	474
<i>Mind Map</i>	446	Introduction	474
<i>Self-Assessment</i>	447	Taste Receptors	474
21. Guidelines for Drawing Tooth Morphology Diagrams	448	Structure of the Taste Bud	475
Sketching a Maxillary Right Central Incisor	449	Mechanism of Taste Sensation	475
Sketching a Maxillary Right Canine	449	Taste Pathway	476
Sketching a Maxillary Right First Premolar	450	Additional Reading	476
Sketching a Maxillary Right First Molar	450	<i>Key Points</i>	478
Sketching a Mandibular Left Central Incisor	451	<i>Mind Map</i>	478
Sketching a Mandibular Left Canine	451	<i>Self-Assessment</i>	479
Sketching a Mandibular Left First Premolar	452	25. Smell	480
Sketching a Mandibular Left First Molar	452	Introduction	480
		Structure of the Olfactory Mucosa	480
		Properties of Olfactory Neurons	481
		Perception of Smell	481
		Receptor Mechanism	482
		Olfactory Pathway	482
		Classification of Odour	483
		Additional Reading	484
		<i>Key Points</i>	484
		<i>Mind Map</i>	485
		<i>Self-Assessment</i>	485
Section III Oral Physiology	453	26. Mastication	487
22. Somatosensory System	454	Introduction	487
Introduction	454	Structures Involved in Mastication	487
Sensory Function—Face and Oral Cavity	454	Masticatory Muscles—Reflex Patterns	490
Somatosensory System	455	Biting Force	490
Types of Stimuli	456	Additional Reading	491
Somatosensory Receptors and End Organs	456	<i>Key Points</i>	492
Neural Pathways	459	<i>Mind Map</i>	492
Somatosensory Pathways	460	<i>Self-Assessment</i>	492
Somatosensory Reflexes—Oral Cavity	461	27. Deglutition	494
Taste Pathways	462	Introduction	494
Clinical Significance	462	Phases of Swallowing	494
Additional Reading	463	Drinking	495
<i>Key Points</i>	463	Muscle Activity	497
<i>Mind Map</i>	464	Control of Swallowing	497
<i>Self-Assessment</i>	464	Other Neuromuscular Activity Related to Swallowing	498
23. Pain	466	Additional Reading	498
Introduction	466	<i>Key Points</i>	499
Receptors	466	<i>Mind Map</i>	500
Initiation of Pain	466	<i>Self-Assessment</i>	500
Mechanism of Pain	466	28. Speech	501
Pathway of Pain	467	Introduction	501
Additional Reading	470	Components of Speech	502
<i>Key Points</i>	470		
<i>Mind Map</i>	472		
<i>Self-Assessment</i>	472		

36. Development of Teeth	600	Additional Reading	670
Introduction	600	<i>Key Points</i>	672
Development of the Enamel Organ of the Permanent Teeth and the Fate of Dental Lamina	602	<i>Mind Map</i>	673
Developmental Stages	602	<i>Self-Assessment</i>	674
Hertwig's Epithelial Root Sheath and Root Formation	610	40. Periodontal Ligament	675
Development of a Tooth: Histophysiological Process	612	Introduction	675
Additional Reading	614	Development of the Periodontal Ligament	676
<i>Key Points</i>	616	Components of the Periodontal Ligament	678
<i>Mind Map</i>	617	Functions of the Periodontal Ligament	682
<i>Self-Assessment</i>	618	Ageing of the Ligament	684
37. Enamel	620	Additional Reading	684
Introduction	620	<i>Key Points</i>	686
Structure of Enamel	622	<i>Mind Map</i>	687
Development of the Enamel	630	<i>Self-Assessment</i>	687
Amelogenesis (Development of Enamel)	634	41. Cementum	689
Age Changes in Enamel	637	Introduction	689
Additional Reading	637	Physical Properties of Cementum	689
<i>Key Points</i>	640	Chemical Composition of Cementum	690
<i>Mind Map</i>	641	Formation of Cementum (Cementogenesis)	690
<i>Self-Assessment</i>	642	Classification of Cementum	691
38. Dentin	643	Cemento-enamel Junction	693
Introduction	643	Cementodentinal Junction	693
Physical Properties	643	Resorption and Repair of Cementum	694
Chemical Properties	644	Functions of Cementum	695
Histology of Dentin	644	Additional Reading	695
Age and Functional Changes	650	<i>Key Points</i>	697
Innervation of Dentin	652	<i>Mind Map</i>	697
Dentin Sensitivity	653	<i>Self-Assessment</i>	698
Dentinogenesis	653	42. Bone	699
Clinical Considerations	656	Introduction	699
Additional Reading	656	Classification of Bone	699
<i>Key Points</i>	658	Gross Structure of Bone	700
<i>Mind Map</i>	659	Turnover or Remodelling of Bone	702
<i>Self-Assessment</i>	659	Alveolar Bone	702
39. Pulp	661	Additional Reading	707
Introduction	661	<i>Key Points</i>	708
Morphology of the Pulp	661	<i>Mind Map</i>	708
Histology of the Pulp	663	<i>Self-Assessment</i>	708
Development of the Pulp	668	43. Oral Mucous Membrane	710
Functions of the Pulp	668	Introduction	710
Pulp Stones	669	Functions of the Oral Mucosa	710
Age Changes	669	Classification of the Oral Mucosa	711
		Components of the Oral Mucosa	711
		Types of the Oral Mucosa	717

Age Changes in the Oral Mucosa	728	Movements of the Joint	766
Additional Reading	730	Innervation and Blood Supply	767
<i>Key Points</i>	730	Additional Reading	767
<i>Mind Map</i>	731	<i>Key Points</i>	768
<i>Self-Assessment</i>	732	<i>Mind Map</i>	769
44. Histology of Salivary Glands	733	<i>Self-Assessment</i>	769
Introduction	733	48. Maxillary Sinus	771
Structure of the Salivary Gland	734	Introduction	771
Ductal System	735	Development of the Maxillary Sinus	772
Histology	738	Structure of the Maxillary Sinus	772
Composition and Functions of Saliva	740	Histology of the Maxillary Sinus	773
Saliva as a Diagnostic Fluid	744	Functions of the Maxillary Sinus	775
Age Changes	744	Additional Reading	775
Additional Reading	744	<i>Key Points</i>	776
<i>Key Points</i>	745	<i>Mind Map</i>	776
<i>Mind Map</i>	746	<i>Self-Assessment</i>	776
<i>Self-Assessment</i>	746	49. Tissue Processing for Microscopic Study	778
45. Eruption	748	Introduction	778
Introduction	748	Preparation of Oral Tissues	778
Pre-Eruptive Tooth Movements	749	Additional Reading	783
Eruptive Movements	749	<i>Key Points</i>	784
Posteruptive Movements	752	<i>Mind Map</i>	784
Additional Reading	752	<i>Self-Assessment</i>	785
<i>Key Points</i>	753	50. Histochemistry of Oral Tissues	786
<i>Mind Map</i>	754	Introduction	786
<i>Self-Assessment</i>	754	Objectives	786
46. Shedding	755	Structure and Composition of Oral Tissues	787
Introduction	755	Histochemical Techniques	788
Shedding Pattern	755	Additional Reading	792
Odontoclasts	756	<i>Key Points</i>	793
Mechanism of Resorption	756	<i>Mind Map</i>	794
Additional Reading	758	<i>Self-Assessment</i>	795
<i>Key Points</i>	759	Appendix: Microscopic Slides for Practical Examination	797
<i>Mind Map</i>	759	Glossary	809
<i>Self-Assessment</i>	759	Bibliography	813
47. Temporomandibular Joint	761	Index	835
Introduction	761		
Components of the Temporomandibular Joint	762
