xi

1. Introduction to Pediatrics	1	5. Nursing Care of Sick Children	31
Differences between the health care of children and adults	1	The levels of newborn care	31
Age-groups in children	2	Triage of a sick child	32
Basic needs of children	3	Role of a nurse in the OPD	32
Health care of children	4	Reactions of children to hospitalization	33
Child health problems	5	Nosocomial infections	33
Hospital care of sick children	6	Effects of hospitalization on the family	34
The child in the hospital	6	Informed consent	34
Role of nurses and parents in handling hospitalized children	7	Principles governing nursing care of hospitalized children	35
2. The Art of Pediatric Nursing	9	Role of a nurse in the care of terminally sick children	35
Attributes of a pediatric nurse	9	The dying child	36
Communication is the key for successful nursing	9	Diagnosis of death	36
Nursing duties and skills	9	Handling of death	36
The nursing process	11	6. Organization of a Neonatal Intensive Care Unit	38
Nursing manpower	14	Physical facilities	38
3. Nomenclature and Health Statistics	16	Personnel	42
Definitions	16	Equipment	43
Salient vital statistics	18	Cot-side laboratory facilities	44
Maternal health and child survival	19	Asepsis routines and rituals	44
Strategies for child survival	19	Housekeeping routines	46
Millennium development goals and targets	20	Universal precautions	48
4. Preventive Pediatrics	22	Transport of sick neonates	49
Maternal health and child survival	22	7. Care of Normal Birth Weight Newborns	53
The girl child	22	Essential newborn care	53
Health preventive strategies	23	Care at birth	53
Health promotive services	26	Breastfeeding	55
Early intervention program	26	Body massage	55
Well child clinics	27	Bathing of babies	56
Prevention of adult-onset diseases	29	Early identification of disease	59
Child welfare services	29	Home care	59
Role and responsibilities of nurses	29		

- 8. Resuscitation of an Asphyxiated Newborn 61**
 Fetal hypoxia 61
 Assessment of the infant at birth 62
 Basic care of a normal baby at birth 62
 Care of a meconium stained baby 63
 Resuscitation protocol 64
 Whole body or selective brain cooling 67
 Post-resuscitation management 68
 Systemic manifestations of severe birth asphyxia 68
 Prognosis 68
- 9. Common Neonatal Problems 70**
 Regurgitation of feeds and vomiting 70
 Bowel disorders 70
 Superficial infections 71
 Dehydration fever 72
 Excessive crying 72
 Cephalhematoma 73
 Obstructed nasolacrimal duct 73
 Napkin rash 74
 Disorders due to transplacental passage of hormones 74
 Minor developmental peculiarities 75
- 10. Birth Injuries 77**
 Superficial injuries 77
 Peripheral nerve injuries 78
 Birth trauma to central nervous system 79
 Visceral injuries 80
 Prevention 80
- 11. Temperature Regulation in Neonates 81**
 Mechanisms of heat loss 81
 Hypothermia 81
 Role of a nurse in keeping the babies warm 82
 Prevention of hypothermia 83
 Cold injury 84
 Hyperthermia 84
- 12. Humanized Nursing Care of Babies in the NICU 86**
 Warmth and humidity 87
 Developmentally supportive care 87
 Tactile-kinesthetic stimulation 87
 Medications 88
- 13. Disorders of Weight and Gestation 90**
 Low birth weight babies 90
 Preterm babies 90
 Kangaroo-mother care 93
 Small-for-dates babies 96
 Large-for-dates babies 98
 Infants of diabetic mothers 100
 Postmature and post-term babies 101
- 14. Common Diseases of Newborn Babies 102**
 Respiratory distress syndrome 102
 Pneumonia in a neonate 102
 Meconium aspiration syndrome 103
 Hyaline membrane disease 104
 Septicemia in a neonate 105
 Candidemia 106
 Tetanus neonatorum 107
 Neonatal jaundice 108
 Metabolic disorders 112
 Newborn screening 114
- 15. Feeding and Nutrition 116**
 Breastfeeding 116
 Baby friendly hospital initiative 124
 Common problems during breastfeeding 124
 Human milk banking 125
 Common myths regarding breastfeeding 127
 Bottle feeding 129
 The complementary or weaning foods 131
 The fussy or finicky eater 135
 The balanced diet 138
 The hazards of junk food 139
 Vegetarian versus non-vegetarian diet 140
 Minerals and vitamins 140
 Traditional beliefs about foods 143
 Parenteral nutrition 143
- 16. Nutritional Disorders 148**
 Etiopathogenesis 148
 Failure to thrive 149
 Protein-energy malnutrition 149
 Marasmus 150
 Kwashiorkor 150
 Severe acute malnutrition 151
 Obesity 152

- 17. Immunity and Allergy**
 Immune defense mechanisms 155
 Natural or innate host defenses mechanism 155
 Acquired immunity 156
 Nutrition and immunity 157
 Correlates of immune deficiency disorders 158
 Allergy 158
 Anaphylaxis 159
- 18. Vaccine-Preventable Diseases**
 Modes of spread of infections 161
 Tuberculosis 162
 Poliomyelitis 165
 Hepatitis B 166
 Diphtheria 167
 Pertussis 168
 Tetanus 168
H. influenzae type B infection 168
 Measles 169
 Mumps 170
 Rubella 170
 Chickenpox or varicella 170
 Hepatitis A 171
 Typhoid fever 171
 Rabies 172
- 19. Mosquito-borne Diseases**
 Malaria 174
 Dengue fever 179
 Chikungunya 182
 Japanese encephalitis 184
 Yellow fever 185
 Control of mosquito-borne diseases 186
- 20. Helminthic and Protozoal Diseases**
 Pinworms 187
 Roundworms 188
 Tapeworms 188
 Giardiasis 188
 Amebiasis 188
 Kala-azar 188
 Lymphatic filariasis 189
 Hydatid disease 190
- 21. Immunizations**
 Acute and passive immunity 191
 Types of vaccines 192
 The vaccination schedule 192
 Composition of available vaccines 194
 Vaccines for high-risk children 200
 The cold chain 201
 Contraindications to vaccines 202
 Common side effects of vaccines 202
 Future developments 202
 Some frequently asked questions about vaccinations 203
- 22. Growth and Development**
 Growth of various body systems and organs 208
 Physical growth 209
 The correlates of a taller child 211
 Brain growth 212
 The process of development 212
 The sequence of development 213
 Milestones of development 216
 Developmental delay 220
 Intelligence quotient 220
 How to have a smarter child? 221
 The gifted child 222
 The left handed child 223
- 23. Health Problems during Adolescence**
 Physical growth 224
 Sexual maturation 225
 Emotional and psychological changes 226
 Common health problems 227
 School health program 228
 Role of a school nurse 228
- 24. Development of Behavior and Personality**
 The role of parents 230
 Television and behavior 234
- 25. Behavior and Habit Disorders**
 Finger and thumb sucking 236
 Pica 237
 Trichotillomania 237
 Obsessive-compulsive disorder 238

- School phobia 238
Tics 238
Anorexia nervosa 239
Bulimia 239
Juvenile delinquency 239
- 26. Common Developmental Disorders 241**
Temper tantrums 241
Breath holding spells 241
Tribulations with toilet training 242
Speech problems 243
Sleep problems 243
Nightmares and night terrors 245
Sleep walking 245
Teeth grinding 245
Rocking and head-banging 245
Bedwetting 245
Fiddling with genitals 246
- 27. Fluids and Electrolyte Disturbances 248**
Electrolyte composition of body fluids 248
Maintenance fluid requirements 249
Dehydration 249
Oral rehydration therapy 250
Intravenous rehydration therapy 251
Electrolyte disturbances 252
Metabolic acidosis 253
Acute renal failure 253
Burns 254
- 28. Traditional Health Care Practices for Children 255**
- 29. Birth Defects 258**
Common birth defects 258
Birth marks 258
Musculoskeletal defects 259
Cleft lip 261
Cleft palate 262
Spina bifida 263
Hydrocephalus 263
Microcephaly 264
Esophageal atresia 264
Imperforate anus 264
Down syndrome 265
Prevention of birth defects 266
- 30. The Child with a Handicap 267**
Types of handicaps 267
Prevention of handicaps 267
Indian Disability Act 268
Treatment and rehabilitation 268
Cerebral palsy 269
Mental retardation 270
Child with a learning disability 270
Dyslexia 271
Attention deficit hyperactivity disorder 271
Autism spectrum disorders 272
Nursing management 273
- 31. Common Symptoms in Children 275**
Fever 275
Recording body temperature 275
Physiologic basis of fever 276
Types of fever 277
Nursing and supportive care of a child with fever 278
Low grade fever 279
Viral fever 280
Heat exhaustion 281
Heat stroke 281
Aches and pains 281
Headache 282
Growing pains 283
Toothache 283
Dysmenorrhea 283
Pain management 283
Pain of procedures 285
Pain abdomen 285
Appendicitis 287
Intussusception 287
Peptic ulcer 288
Excessive crying 288
- 32. Common Disorders of Skin 290**
Types of skin lesions 290
Dandruff 290
Nappy rash 291
Eczema 291
Boils 292
Skin rash 292
Urticaria 293
Acne vulgaris 294
Dermatophytoses 294
Acrodermatitis enteropathica 295

- 33. Teething and Oral Health**
 Common symptoms due to teething 296
 Dentition 297
 Brownish staining of teeth 297
 Care of teeth and gums 298
 Caries and cavities 299
 Malocclusion of teeth 299
 Avulsion of tooth 299
 Fluorosis 299
- 34. Diseases of Ear, Nose and Throat**
 Developmental aspects 300
 Common cold 300
 Allergic rhinitis 302
 Acute tonsillitis 302
 Peritonsillar abscess 303
 Adenoids 303
 Earache 303
 Acute otitis media 304
 Sinusitis 304
 Epistaxis 305
 Tongue-tie 305
 Thrush 305
 Aphthous ulcers 306
- 35. Common Eye Problems**
 Developmental aspects 307
 Retinopathy of prematurity 307
 Epiphora 308
 Conjunctivitis 308
 Sty 308
 Chalazion 309
 Xerophthalmia 309
 Ptosis 309
 Squint 309
 Cataract 310
 Color blindness 310
 Role of a nurse for management of common eye problems 310
- 36. Musculoskeletal Disorders**
 Congenital dislocation of hips 312
 Disorders of muscles 313
 Floppy child 313
 Limping child 314
 Muscular dystrophies 314
 Duchenne muscular dystrophy 314
- 296**
 Skeletal disorders 316
 Rickets 316
 Osteomyelitis 320
 Fractures 321
 Osteogenesis imperfecta 321
 Diseases of joints 321
 Transient synovitis 321
 Septic arthritis 321
 Acute rheumatic fever 322
 Juvenile rheumatoid arthritis 322
 Systemic lupus erythematosus 325
 Juvenile dermatomyositis 326
 Spinal abnormalities 326
- 300**
- 37. Gastrointestinal and Liver Disorders 328**
 Acute diarrhea 328
 Bacillary dysentery 332
 Cholera 334
 Food poisoning 334
 Vomiting 334
 Hypertrophic pyloric stenosis 335
 Gastroesophageal reflux disease 335
 Celiac disease 336
 Constipation 336
 Rectal prolapse 337
 Hirschsprung's disease 337
 Viral hepatitis 338
 Acute liver failure 338
- 307**
- 38. Respiratory Diseases 340**
 Common cold 340
 Swine flu 340
 Stridor 340
 Laryngomalacia 340
 Viral croup 341
 Acute spasmodic laryngitis 341
 Acute epiglottitis 341
 Pneumonia 342
 Empyema thoracis 343
 Acute bronchiolitis 345
 Bronchial asthma 345
- 312**
- 39. Cardiovascular Disorders 351**
 Fetal and neonatal circulation 351
 Congenital heart defects 352
 Rheumatic fever 353
 Congestive heart failure 354

- Hypertension 355
 Infective endocarditis 355
 Chronic constrictive pericarditis 356
 Myocarditis 356
- 40. Genitourinary Disorders 358**
 Developmental aspects 358
 Urinary tract infection 358
 Acute glomerulonephritis 359
 Nephrotic syndrome 359
 Hematuria 360
 Non-retractable foreskin 361
 Congenital abnormalities 361
 Undescended testis 363
 Ectopia vesicae 363
 Acute renal failure 363
 Peritoneal dialysis 364
 Wilms' tumor 366
- 41. Hematologic Disorders 368**
 Nutritional anemia 368
 Megaloblastic anemia 369
 Thalassemias 369
 Sickle cell anemia 370
 Aplastic anemia 371
 Bleeding disorders 371
 Disseminated intravascular coagulation 372
 Idiopathic thrombocytopenic purpura 372
 Hemophilia 373
 Leukemias 374
 Solid tumors 374
- 42. Central Nervous System Disorders 376**
 Convulsions 376
 Epilepsy 376
 Status epilepticus 378
 Febrile convulsions 379
 Pyogenic meningitis 381
 Tubercular meningitis 382
 Encephalitis and encephalopathies 383
 The child with coma 384
 Nursing care of a comatosed child 386
 Acute flaccid paralysis 387
- Guillain-Barré syndrome 387
 Acute paralytic poliomyelitis 387
 Intracranial space occupying lesions 389
- 43. Endocrinal Disorders 391**
 Hypothyroidism 391
 Hyperthyroidism 392
 Goiter 393
 Diabetes mellitus 393
 Diabetic ketoacidosis 395
 Diabetes insipidus 395
 Disorders of sexual maturation 396
 Congenital adrenal hyperplasia 397
- 44. Sexually Transmitted Diseases 398**
 Acquired immunodeficiency syndrome 398
 Congenital syphilis 400
 Prevention of STDs 400
- 45. Accidents, Poisonings and Animal Bites 402**
 Burns and scalds 402
 Electric shock 403
 Falls, bumps and bruises 405
 Fractures 405
 Head injury 406
 Drowning 406
 Foreign bodies, choking and suffocation 407
 Accidental poisoning 408
 Kerosene poisoning 410
 Organophosphate poisoning 410
 Animal and insect bites 410
 Anaphylaxis 413
 Cardiopulmonary resuscitation 413
- 46. Community and Social Pediatrics 417**
 Rights of children 417
 The national policy for children 417
 The girl child 418
 The national plan of action for the girl child 420
 Child abuse and neglect 420
 Battered child syndrome 423
 Street children 423

Child labor	424	Oxygen therapy	458
Adoption	425	Phototherapy	459
National maternal and child health programs	426	Blood transfusion	459
Applied nutrition programs	426	Platelet transfusion	460
Baby friendly hospital initiative	427	Emergency trolley	460
Integrated child development services program	427	Dosages of commonly used drugs	460
Expanded program of immunizations	428	49. Nursing Procedures	464
The child survival and safe motherhood program	428	Role of a nurse	464
Reproductive and child health program	428	Vital signs	464
National rural health mission	430	Intake-output charting	465
<i>Janani suraksha yojana</i>	432	Anthropometry	466
<i>Janani-shishu suraksha karyakram</i>	432	Body holds and restraints	468
<i>Rashtriya kishor swasthya karyakram</i>	432	Nursing positions	470
National urban health mission	432	Collection of laboratory samples	470
India newborn action plan	433	Intravenous access	473
Innovative training programs	434	Umbilical vein catheterization	475
47. Integrated Management of Neonatal and Childhood Illnesses (IMNCIs)	436	Umbilical arterial line	476
48. Medications and Supportive Nursing Care	454	Radial artery cannulation	477
Calculation of drug dosages	454	Exchange blood transfusion	478
Oral medications	454	Injections	479
Rectal medications	455	Enteral feeding and procedures	481
Parenteral medications	455	Enemas	482
Topical medications	456	Suctioning	482
Medications directly administered into the lungs	456	Steam inhalation	483
Humidification	457	Chest physiotherapy	484
		Oxygen saturation monitoring	484
		Radiant warmer	484
		Incubator care	485
		Lumbar puncture	486
		<i>Glossary of Common Medical Conditions</i>	488
		<i>Appendices</i>	502
		<i>Index</i>	523
