

Contents

Preface v

Section I: Basic Biochemistry

1. Cell Biology 3
Anithasri Anbalagan
2. Enzymology 10
Anithasri Anbalagan
3. Biological Oxidation and Electron Transport Chain 21
Anithasri Anbalagan
4. Chemistry of Carbohydrates 29
Anithasri Anbalagan
5. Chemistry of Lipids 44
Dhivya Manickam
6. Chemistry of Amino Acids and Proteins 46
Suryapriya Rajendran

Section II: Metabolism of Biomolecules

7. Metabolism of Carbohydrates 53
Anithasri Anbalagan
8. Metabolism of Lipids 80
Dhivya Manickam
9. Metabolism of Amino Acids and Proteins 94
Suryapriya Rajendran
10. Hemoglobin Chemistry and Metabolism 107
Suryapriya Rajendran

Section III: Nutrition and Vitamins

11. Nutrition 123
Dhivya Manickam
12. Fat Soluble Vitamins, Water Soluble Vitamins I and II 127
Dhivya Manickam and Suryapriya Rajendran
 - Part A: Fat Soluble Vitamins 127
Dhivya Manickam
 - Part B: Water Soluble Vitamins 136
Suryapriya Rajendran
 - Part C: Water Soluble Vitamins 141
Suryapriya Rajendran

- 13. Minerals** 151
Dhivya Manickam

Section IV: Clinical Biochemistry

- 14. Plasma Proteins** 159
Anithasri Anbalagan
- 15. Organ Function Tests** 170
Dhivya Manickam
- 16. Acid–Base Balance and Disorders** 176
Suryapriya Rajendran
- 17. Electrolyte Balance and Disorders** 183
Dhivya Manickam
- 18. Xenobiotics** 186
Anithasri Anbalagan

Section V: Advanced Biochemistry

- 19. Nucleotide Chemistry and Metabolism** 201
Suryapriya Rajendran
- 20. Molecular Biology** 207
Dhivya Manickam
- 21. Cancer Biology** 222
Anithasri Anbalagan
- 22. Molecular Biology Techniques** 227
Anithasri Anbalagan
- 23. Electrophoresis, Chromatography, Immunoassays** 232
Anithasri Anbalagan
