

SUMMARY

AN OVERVIEW OF THE HUMAN BODY	3	SKIN	29
External anatomical elements (I). Female sex (anterior general view).....	4	Skin structure	30
External anatomical elements (II). Male sex (posterior general view)	5	• Skin	30
Superficial anatomy (I). Male sex (anterior view).....	6	Hand. Folds and fingerprints. Fingerprint types	31
• The human body.....	6	• Fingerprints.....	31
Superficial anatomy (II). Male sex (posterior view)	7	Cutaneous folds (anterior view, posterior view).....	32
• The shapes of the human body	7	• Cutaneous folds.....	32
Regions of the human body (I). Female sex (anterior general view).....	8	Tension lines of skin (anterior view, posterior view)	33
• The regions of the human body	8	• Tension lines of skin	33
Regions of the human body (II). Female sex (posterior general view)	9	Calculation of bodily surface.....	34
• The regions of the human body	9	• Calculation of bodily surface	34
Regions of the human body (III). Head (I). Male sex (anterior view).....	10	Accessory organs of the skin (I). Fingernail. Distal extremity of finger (section). Nail (longitudinal section). Nail (sections at various levels)	35
• The head.....	10	• Fingers.....	35
Regions of the human body (IV). Head (II). Male sex (lateral view)	11	• Nails.....	35
• The head.....	11	Accessory organs of the skin (II). Hair follicle	36
Regions of the human body (V). Hand (anterior view, dorsal view)	12	• Hair follicle.....	36
Regions of the human body (VI). Foot. Right foot (plantar view). Right foot (medial view). Footprints, regions of support	13		
External anatomical elements (I). Main differences between sexes. Female sex (anterior view)	14	MUSCULAR SYSTEM	37
• The body according to gender.....	14	Muscular tissue. Muscular types. Histologic characteristics. Skeletal muscle. Smooth muscle. Cardiac muscle	38
External anatomical elements (II). Main parts of the human body. Female sex (posterior view)	15	Skeletal muscle. Structure and organization (I). General structure. Fasciculus. Motor plate	39
• General distribution of the human body.....	16	• The structure of skeletal muscle	39
External projection of internal organs (I). Male sex (anterior view).....	16	Skeletal muscle. Structure and organization (II). Composition of skeletal muscle fibres.....	40
• Internal organs.....	17	• Muscular contraction	40
External projection of internal organs (II). Male sex (posterior view).....	17	Skeletal muscle. Structure and organization (III)	41
• External projection of the internal organs.....	18	Muscular structure. Skeletal muscle, structure of the fibre. Skeletal muscle, contractile appearance and structure of cell membrane. Cardiac muscle, contractile appearance and structures of cell membrane.....	42
External projection of internal organs (III). Male sex (right lateral view; left lateral view)	19	Smooth muscle. Structure. Prostate and urinary bladder. Artery. Tracheal wall. Uterine wall. Smooth muscle. Ciliary musculature of eye. Cardiac muscle. Small intestine wall.....	43
External projection of internal organs (IV)	20	Muscular system (I) (general anterior superficial view)	44
Transverse sections (I)	21	• Muscles.....	44
Transverse sections (II).....	21	Muscular system (II) (general posterior superficial view).....	45
Descriptive terminology. Orientation. Planes. Orientation, relation and comparison terminology. Body planes	22	• Muscles.....	45
Glands. Functional classification.....	23	Muscular system (III) (general lateral superficial view)	46
• Glandular secretion	24	Muscular types	47
The body systems (I). Skin. Muscles. Joints. Skeleton.....	24	Muscular groups (I). Head and trunk (I) (anterior view)	48
• Organization of the human body	25	Muscular groups (II). Head and trunk (II) (posterior lateral view)	49
The body systems (II). Cardiovascular system. Digestive system. Respiratory system. Nephro-urinary system.....	25	Muscular groups (III). Limbs (posterior lateral view)	50
• Systems.....	26	Muscular groups (IV). Hip (transverse sections).....	51
The body systems (III). Genital system. Blood. Immune system.....	26	Head (I) (anterior superficial view)	52
• Apparatus	27	• Head.....	52
The body systems (IV). Endocrine system. Nervous system. Sense organs	28		
• System	28		
Mucous and serous membranes	28		
• Mucous membrane	28		
• Serous membrane	28		

Head (II) (left lateral superficial view).....	53	Upper limb (IX). Shoulder (III). Right upper limb (posterior view).....	100
• Muscles of head.....	53	• Deltoid.....	100
Head (III). Facial expression (I). Surprise. Wink. Anger. Revulsion.....	54	Upper limb (X). Shoulder (IV). Right upper limb (right lateral view).....	101
• Facial expression.....	54	• Muscular sheath of rotators.....	101
Head (IV). Facial expression (II). Kiss. Blowing. Smile. Suction.....	55	Upper limb (XI). Shoulder (V). Right upper limb (anterior views).....	102
• Facial expression muscles.....	55	Upper limb (XII). Shoulder (VI). Right upper limb (posterior views).....	103
Head (V) (lateral superficial view).....	56	Upper limb (XIII). Arm (I). Right upper limb (anterior view).....	104
Head (VI). Masticatory muscles (left anterior lateral views).....	57	• Muscles of arm.....	104
• Masticatory muscles.....	57	Upper limb (XIV). Arm (II). Right upper limb (anterior view).....	105
Head (VII). Tongue and floor of mouth (lateral view).....	58	• Anterior muscles of arm.....	105
• Tongue and floor of mouth.....	58	Upper limb (XV). Arm (III). Right upper limb (posterior view).....	106
Head (VIII). Floor of mouth (inferior view, superior view).....	59	• Back muscles of arm.....	106
Neck (I) (posterior prevertebral view).....	60	Upper limb (XVI). Arm (IV). Right upper limb (cross-section, cranial view).....	107
Neck (II) (lateral superficial view).....	61	• Transverse section of arm.....	107
Neck (III) (anterior superficial view, anterior deep view).....	62	Upper limb (XVII). Forearm (I). Right upper limb (anterior superficial view).....	108
Neck (IV). Masticatory muscles (right lateral view). Cervical muscles (right lateral view). Hyoid muscles (right lateral view).....	63	• Muscles of forearm.....	108
• Cervical muscles.....	63	Upper limb (XVIII). Forearm (II). Right upper limb (anterior view).....	109
Nape (I) (posterior superficial and intermediate view).....	64	• Anterior muscles of forearm.....	109
• Muscles of nape.....	64	Upper limb (XIX). Forearm (III). Right upper limb (lateral superficial view).....	110
Nape (II) (posterior deep view).....	65	• Superficial muscles of forearm.....	110
Buccopharyngeal region (I) (lateral view).....	66	Upper limb (XX). Forearm (IV). Right upper limb (posterior view).....	111
Buccopharyngeal region (II) (sagittal section).....	67	• Back muscles of forearm.....	111
Thorax (I) (anterior superficial view).....	68	Upper limb (XXI). Forearm (V). Right upper limb (posterior deep view).....	112
• Thorax.....	68	• Deep muscles of forearm.....	112
Thorax (II) (anterior superficial view).....	69	Upper limb (XXII). Forearm (VI). Right upper limb (cross-section, caudal view).....	113
Thorax (III) (anterior deep view).....	70	Upper limb (XXIII). Forearm and hand. Right upper limb (lateral superficial limb).....	114
• Muscles of trunk.....	70	• Hand.....	114
Thorax (IV) (anterior deep view).....	71	Upper limb (XXIV). Hand (I). Right upper limb (palmar superficial view).....	115
• Muscles of thoracic wall.....	71	• Thenar and hipotenar muscles.....	115
Thorax (V) (right lateral view).....	72	Upper limb (XXV). Hand (II). Right upper limb (palmar deep view).....	116
• Muscles of thorax.....	72	Upper limb (XXVI). Hand (III). Right upper limb (palmar most deep view).....	117
Thorax (VI) (left anterior lateral view).....	73	Upper limb (XXVII). Hand (IV). Right upper limb (dorsal superficial view).....	118
Thorax (VII). Anterior thoracic wall (posterior view). Intercostal space.....	74	• Location of muscles of hand.....	118
Thorax (VIII). Posterior thoracic wall (anterior view).....	75	Upper limb (XXVIII). Hand (V). Left upper limb (dorsal superficial view).....	119
• Intercostal muscles.....	75	• Muscles of hand.....	119
Trunk and abdomen (I). Male sex (anterior superficial view).....	76	Upper limb (XXIX). Hand (VI). Left upper limb. Interosseous muscles (dorsal view). Interosseous muscles (palmar view).....	120
• Abdomen.....	76	Upper limb (XXX). Hand (VII). Right upper limb (transverse section).....	121
Trunk and abdomen (II). Male sex (anterior view).....	77	Lower limb (I). Right lower limb (anterior superficial view).....	122
• Muscles of abdomen.....	77	• Lower limbs.....	122
Trunk and abdomen (III) (anterior view, frontal section).....	78	Lower limb (II). Right lower limb (anterior deep view).....	123
Trunk and abdomen (IV). Anterior wall (internal view).....	79	Lower limb (III). Right lower limb (posterior superficial view).....	124
Trunk (I). Back (I) (superficial view).....	80	• Muscles of lower limbs.....	124
• Muscles of back.....	80	Lower limb (IV). Right lower limb (posterior deep view).....	125
Trunk (II). Back (II) (intermediate view).....	81	Lower limb (V). Right lower limb (lateral superficial view).....	126
Trunk (III) (cross-section at the height of the TV vertebra).....	82	Lower limb (VI). Right lower limb (medial superficial view).....	127
Trunk (IV) (cross-section at the height of the LII vertebra).....	83	Lower limb (VII). Gluteal region (I). Right lower limb (superficial view).....	128
Trunk (V). Diaphragm (I) (superior view).....	84	Lower limb (VIII). Gluteal region (II). Right lower limb (lateral deep view).....	129
• Diaphragm.....	84	• Muscles of pelvis.....	129
Trunk (VI). Diaphragm (II) (inferior view).....	85	Lower limb (IX). Thigh (I). Right lower limb (anterior superficial view).....	130
• Diaphragm.....	85	• Thigh.....	130
Pelvis (I). Male pelvic floor (transverse section, cranial view).....	86	• Muscles of thigh.....	130
Pelvis (II). Female pelvic floor (transverse section, cranial view).....	87	Lower limb (X). Thigh (II). Right lower limb (anterior intermediate view).....	131
Perineum (I). Male sex. Superficial fascia (urogenital region). Diaphragmatic fascia (anal region).....	88	• Movements of thigh.....	131
• Perineum.....	88	Lower limb (XI). Thigh (III). Right lower limb (anterior deep view).....	132
Perineum (II). Female sex. Superficial fascia (urogenital region). Diaphragmatic fascia (anal region).....	89	• Anterior femoral area.....	132
• Muscles of pelvic floor.....	89	Lower limb (XII). Thigh (IV). Right lower limb (posterior superficial view).....	133
Perineum (III). Male sex (perineal view).....	90	• Extension of thigh.....	133
Perineum (IV). Female sex (perineal view).....	91	Lower limb (XIII). Thigh (V). Right lower limb (posterior superficial view).....	134
Upper limb (I). Right upper limb (lateral general superficial view).....	92	• Back muscles of thigh.....	134
Upper limb (II). Right upper limb (lateral general medial superficial view).....	93	Lower limb (XIV). Thigh (VI). Right lower limb (posterior deep view).....	135
Upper limb (III). Right upper limb (anterior superficial view).....	94	• Deep gluteal area.....	135
• Upper limb.....	94	Lower limb (XV). Thigh (VII). Right lower limb (lateral superficial view).....	136
Upper limb (IV). Right upper limb (posterior superficial view).....	95	Lower limb (XVI). Thigh (VIII). Right lower limb (lateral intermediate view).....	137
Upper limb (V). Right upper limb (anterior deep view).....	96	• Movements of knee joint.....	137
Upper limb (VI). Right upper limb (posterior deep view).....	97	Lower limb (XVII). Leg and foot (I). Right lower limb (anterior superficial view).....	138
Upper limb (VII). Shoulder (I). Right upper limb (anterior view, posterior superficial view, superior deep view).....	98		
Upper limb (VIII). Shoulder (II). Right upper limb (anterior view).....	99		
• Muscles of the shoulder joint.....	99		

• Muscles of leg.....	138	• Parietal bone.....	174
Lower limb (XVIII). Leg and foot (II). Right lower limb (anterior superficial view).....	138	Cranium (X). Occipital bone (external view, internal view).....	175
• Physiology of the muscles of leg.....	139	• Occipital bone.....	175
Lower limb (XIX). Leg and foot (III). Right lower limb (posterior superficial view).....	140	Cranium (XI). Temporal bone (I). Right temporal bone (inferior view).....	176
• Leg.....	140	• Temporal bone.....	176
Lower limb (XX). Leg and foot (IV). Right lower limb (posterior superficial view).....	140	Cranium (XII). Temporal bone (II). Right temporal bone (lateral view, medial view).....	177
Lower limb (XXI). Leg and foot (V). Right lower limb (posterior deep view).....	141	Cranium (XIII). Temporal bone (III) (superior view).....	178
• Muscles of deep plane of leg.....	142	Cranium (XIV). Ethmoidal bone (anterior view, posterior view, superior view).....	179
Lower limb (XXII). Leg and foot (VI). Right lower limb (posterior deep view).....	142	• Ethmoidal bone.....	179
Lower limb (XXIII). Leg and foot (VII). Left lower limb (lateral superficial view).....	143	Cranium (XV). Sphenoidal bone (I) (anterior view, posterior view).....	180
• Fascia of leg.....	144	• Sphenoidal bone.....	180
• Lateral muscular group of the leg.....	144	Cranium (XVI). Sphenoidal bone (II) (superior view, inferior view).....	181
Lower limb (XXIV). Leg and foot (VIII) Right lower limb (lateral view, medial view).....	144	Cranium (XVII). Maxilla. Right maxilla (lateral view, medial view).....	182
Lower limb (XXV). Thigh (IX). Left lower limb (cross-section, caudal view).....	145	• Maxilla.....	182
• Transverse section of thigh.....	146	Cranium (XVIII). Hard palate (inferior view, superior view).....	183
Lower limb (XXVI). Leg. Right lower limb (cross-section, cranial view).....	147	• Hard palate.....	183
• Transverse section of leg.....	147	Cranium (XIX). Zygomatic bone (lateral view, medial view).....	184
Lower limb (XXVII). Foot (I). Right lower limb. Tendinous sheaths (dorsal view).....	148	• Zygomatic bone.....	184
Lower limb (XXVIII). Foot (II). Left lower limb (dorsal superficial view).....	149	Cranium (XX). Palatine bone. Right palatine bone (posterior view, lateral view, medial view).....	185
• Foot.....	149	• Palatine bone.....	185
Lower limb (XXIX). Foot (III). Right lower limb (dorsal superficial view).....	150	Cranium (XXI). Cavities. Orbital cavity, right part. Nasal cavity, lateral wall.....	186
Lower limb (XXX). Foot (IV). Left lower limb (dorsal deep view).....	151	• Orbital cavity.....	186
• Muscles of foot.....	151	• Nasal cavity.....	186
Lower limb (XXXI). Foot (V). Right lower limb (plantar superficial view).....	152	Cranium (XXII). Vomer, lacrimal and nasal bones. Vomer (dorsal view, lateral view). Lacrimal bone (medial surface, lateral surface). Nasal bone (posterior view, anterior border).....	187
• Plantar flexion.....	152	• Vomer.....	187
Lower limb (XXXII). Foot (VI). Right lower limb (plantar superficial view).....	153	• Lacrimal bone.....	187
• Interosseous muscles of foot.....	153	• Nasal bone.....	187
Lower limb (XXXIII). Foot (VII). Right lower limb (plantar intermediate view).....	154	Cranium (XXIII). Mandible (I) (anterior view, left oblique lateral view).....	188
• Physiology of plantar muscles.....	154	• Mandible.....	188
Lower limb (XXXIV). Foot (VIII). Right lower limb (plantar deep view).....	155	Cranium (XXIV). Mandible (II) (posterior view, medial view).....	189
• Plantar muscle groups.....	155	Cranium (XXV). Sections. Orbital cavity and adjacent structures (coronal section, anterior view). Hard palate (posterior oblique view).....	190
Lower limb (XXXV). Foot (IX). Right lower limb (cross-section, inferior view).....	156	Head and neck (I) (general lateral view).....	191
Head and neck (II). Mandible of aged. Hyoid bone (left lateral view, anterior view, posterior view).....	192	• Hyoid bone.....	192
Vertebral column (I) (general views) (anterior view, lateral view, posterior view).....	193	Vertebral column (I) (general views) (anterior view, lateral view, posterior view).....	193
• Vertebral column.....	193	Vertebral column (II). Cervical part (I) (right lateral view). Atlas (or C1 vertebra) (right lateral view, anterior view, superior view).....	194
Vertebral column (II). Cervical part (I) (right lateral view). Atlas (or C1 vertebra) (right lateral view, anterior view, superior view).....	194	• Cervical part.....	194
• Cervical part.....	194	Vertebral column (III). Cervical part (II). Axis (or C2 vertebra) (right lateral view, anterior view, superior view). C4 vertebra (right lateral view, anterior view, superior view).....	195
Vertebral column (III). Cervical part (II). Axis (or C2 vertebra) (right lateral view, anterior view, superior view). C4 vertebra (right lateral view, anterior view, superior view).....	195	• Thoracic part.....	196
• Thoracic part.....	196	Vertebral column (IV). Thoracic part (right lateral view). Thoracic vertebra (right lateral view, anterior view, superior view).....	196
Vertebral column (IV). Thoracic part (right lateral view). Thoracic vertebra (right lateral view, anterior view, superior view).....	196	• Lumbar part.....	197
• Lumbar part.....	197	Vertebral column (V). Lumbar part (right lateral view). Lumbar vertebra (right lateral view, anterior view, superior view).....	197
Vertebral column (V). Lumbar part (right lateral view). Lumbar vertebra (right lateral view, anterior view, superior view).....	197	• Sacrum (I) (anterior view, left lateral view). Coccyx (anterior view, posterior view, left lateral view).....	198
• Sacrum (I) (anterior view, left lateral view). Coccyx (anterior view, posterior view, left lateral view).....	198	• Coccyx.....	198
Vertebral column (VI). Sacrum (I) (anterior view, left lateral view). Coccyx (anterior view, posterior view, left lateral view).....	198	Vertebral column (VII). Sacrum (II) (posterior view, superior view I, superior view II).....	199
• Sacrum (II) (posterior view, superior view I, superior view II).....	199	Trunk (I) (anterior view).....	200
Trunk (I) (anterior view).....	200	• Thoracic cavity.....	200
• Thoracic cavity.....	200	Trunk (II) (posterior view).....	201
Trunk (II) (posterior view).....	201	Trunk (III) (lateral view).....	202
Trunk (III) (lateral view).....	202	• Rib.....	202
• Rib.....	202	Trunk (IV). Arch of thoracic cavity. Costovertebral joint (superior view). Vertebral joint of true rib. Arch of thoracic cavity (superior view).....	203
Trunk (IV). Arch of thoracic cavity. Costovertebral joint (superior view). Vertebral joint of true rib. Arch of thoracic cavity (superior view).....	203	Upper limb (I). Shoulder and arm (left upper limb).....	204
Upper limb (I). Shoulder and arm (left upper limb).....	204	• Shoulder bones.....	204
• Shoulder bones.....	204	Upper limb (II). Scapula. Right upper limb (anterior view, posterior view, right lateral view).....	205
Upper limb (II). Scapula. Right upper limb (anterior view, posterior view, right lateral view).....	205		

■ SKELETAL SYSTEM 157

Long bone (I). Structure (I). Compact bone tissue. Long bone, diaphysis part. Development of Havers system (secondary osteone).....	158
Long bone (II). Structure (II).....	159
• Long bone structure.....	159
Long bone (III). Parts and constituents.....	160
• Bone tissue of long bone.....	160
Bone types.....	161
• Bone types.....	161
Bones of head (external view, anterior view).....	162
Bones of trunk and limbs (external view, anterior view, interior view).....	163
Skeletal system (I) (anterior general view).....	164
• Skeleton.....	164
Skeletal system (II) (posterior general view).....	165
• Skeleton.....	165
Cranium (I) (anterior view).....	166
• Cranium.....	166
Cranium (II) (lateral view).....	167
• Bones of cranium.....	167
Cranium (III). Base (I) (superior view).....	168
Cranium (IV). Base (II) (inferior view).....	169
Cranium (V). Base (III). Foramina (endocranial view).....	170
• Foramina of base of cranium.....	170
Cranium (VI) (paramedian section, posterior view).....	171
Cranium (VII) (superior view, inferior view).....	172
Cranium (VIII). Frontal bone (anterior view, inferior view).....	173
• Frontal bone.....	173
Cranium (IX). Parietal bone. Left parietal bone (lateral view). Right parietal bone (medial view).....	174

• Scapula	205
Upper limb (III). Humerus (anterior view, lateral view, posterior view)	206
• Humerus	206
Upper limb (IV). Forearm. Right upper limb (anterior view)	207
• Forearm	207
Upper limb (V). Ulna. Left upper limb (anterior view, posterior view, radial view)	208
• Ulna	208
Upper limb (VI). Radius. Left upper limb (anterior view, posterior view, ulnar view)	209
• Radius	209
Upper limb (VII). Wrist and metacarpus (I). Left upper limb (dorsal view)	210
• Wrist	210
• Metacarpus	210
Upper limb (VIII). Wrist and metacarpus (II). Left hand (lateral view). Right hand (anterior view, or palmar view). Right hand (posterior view, or dorsal view)	211
Upper limb (IX). Hand (I). Right upper limb (palmar view)	212
• Hand	212
Upper limb (X). Hand (II). Right upper limb (dorsal view)	213
Pelvis (I) (anterior view)	214
• Pelvis	214
Pelvis (II) (posterior view)	215
Pelvis (III). Differences between sexes. Male pelvis (superior view). Female pelvis (superior view)	216
• Male pelvis	216
• Female pelvis	216
Lower limb (I). Thigh and knee. Right lower limb	217
• Lower limb	217
Lower limb (II). Hip bone (I). Right lower limb (lateral view)	218
• Hip bone	218
Lower limb (III). Hip bone (II). Right lower limb (medial view)	219
• Hip bone	219
Lower limb (IV). Femur (I). Right lower limb (anterior view, lateral view, posterior view)	220
• Femur	220
Lower limb (V). Femur (II). Right lower limb. Proximal extremity (posterior view). Distal extremity (lateral view). Distal extremity (distal view). Frontal section (anterior view)	221
Lower limb (VI). Knee. Right lower limb (lateral view). Patella (anterior view, posterior view, distal view)	222
• Knee	222
• Patella	222
Lower limb (VII). Leg. Right lower limb (anterior view)	223
• Leg	223
Lower limb (VIII). Tibia. Right lower limb (anterior view, lateral view, posterior view)	224
• Tibia	224
Lower limb (IX). Tibia and fibula. Right lower limb. Fibula (medial view, lateral view). Tibia and fibula (proximal view, distal view, distal view)	225
• Fibula	225
Lower limb (X). Foot (I). Right lower limb (dorsal view)	226
• Foot	226
Lower limb (XI). Foot (II). Right lower limb (plantar view)	227
Lower limb (XII). Foot (III). Right lower limb (lateral views)	228
• The toes	228
Lower limb (XIII). Foot (IV). Talus (medial view, lateral view, posterior view)	229
Lower limb (XIV). Foot (V). Tarsus and metatarsus. Right lower limb (dorsal view)	230
• Tarsus	230
• Metatarsus	230

■ JOINTS 231

Joints (I) (anterior general view)	232
Joints (II) (posterior general view)	233
Head and neck (I). Nuchal joint (anterior view, lateral view)	234
Head and neck (II). Superior and inferior joints (posterior view)	235
• Cervical joints	235
Head and neck (III). Temporomandibular joint	236
• Temporomandibular joint	236
Trunk. Vertebral joints (anterior view, posterior view). Intervertebral	

joints (lateral view)	237
• Intervertebral joints	237
Upper limb (I). Shoulder (I). Right side (anterior view, posterior view)	238
Upper limb (II). Shoulder (II). Frontal section (anterior view). Right side (lateral view)	239
• Glenohumeral joint	239
Upper limb (III). Elbow (I) (anterior view). Proximal radio-ulnar articular surface (posterior view). Articular surface of humerus	240
Upper limb (IV). Elbow (II) (medial view, lateral view)	241
• Elbow joint	241
Upper limb (V). Elbow (III). Right elbow (frontal section)	242
Upper limb (VI). Elbow (IV). Left elbow (lateral section)	243
Upper limb (VII). Hand (I). Right hand (palmar view). Joints of three-phalangeal finger (lateral view)	244
• Hand joints	244
Upper limb (VIII). Hand (II). Right hand (dorsal view). Right middle finger (palmar superficial view). Three-phalangeal finger (sagittal section, lateral view). Medial flexion of finger	245
Upper limb (IX). Wrist. Right hand (dorsal view, anterior view)	246
• Wrist joint	246
Lumbosacral region. Male sex (posterior view)	247
• Lumbosacral joint	247
Lower limb (I). Hip (I). Right side (anterior view, posterior view)	248
• Hip joint	248
Lower limb (II). Hip (II) (anterior view). Open joint (lateral view)	249
Lower limb (III). Knee (I) (anterior view, posterior view)	250
• Knee joint	250
Lower limb (IV). Knee (II). Right knee (anterior view). Left knee (lateral view). Right knee (medial view). Tibial articular surface	251
Lower limb (V). Knee (III). Right knee (lateral view)	252
Lower limb (VI). Knee (IV). Right knee (anterior view)	253
Lower limb (VII). Ankle. Right leg (frontal section, posterior view)	254
• Ankle joint	254
Lower limb (VIII). Foot (I). Right lower limb (superior view, coronal section; lateral section)	255
Lower limb (IX). Foot (II). Right foot (lateral view)	256
Lower limb (X). Foot (III). Right foot (medial view)	257
• Joints of foot	257
Lower limb (XI). Foot (IV). Right foot (dorsal view)	258
Lower limb (XII). Foot (V). Right foot (plantar view)	259
Lower limb (XIII). Foot (VI). Right foot (plantar view)	260

■ CARDIOVASCULAR SYSTEM 261

Heart (I) (anterior view)	262
Heart (II) (anterior view)	263
Heart (III) (posterior inferior view)	264
Heart (IV) (posterior inferior view)	265
Heart (V). Right ventricle (anterior view)	266
Heart (VI). Rights atrium and ventricle (anterior view)	267
Heart (VII). Pericardium (anterior view). Right atrium of newborn (anterior view)	268
Heart (VIII) Right atrium and ventricle (anterior view). Left ventricle (anterior view)	269
Heart (IX). Left coronary artery (anterior view, sternocostal layer)	270
Heart (X). Right coronary artery (posterior view, diaphragmatic layer)	271
• Right coronary artery	271
Heart (XI) (internal view)	272
• Heart cavities	272
Heart (XII) (internal view)	273
Heart (XIII). Right and left ventricles (transverse section). Cardiac valves (superior view)	274
Heart (XIV). Valves in systole and diastole	275
• Systole	275
• Diastole	275
Heart (XV). Semilunar valves. Aortic valve. Pulmonary trunk	276
Heart (XVI). Atrioventricular valves. Left atrioventricular valve. Right atrioventricular valve	277
Blood vessels. Muscular artery. Great vein. Differences between	

arteries and veins. Blood capillary rete. Blood vessels.....	278	Arterial system (XLVI). Lower limb (I). Right lower limb (anterior view).....	327
Vascular anastomosis (I).....	279	Arterial system (XLVII). Lower limb (II). Right lower limb (anterior view, posterior view).....	328
• Vascular anastomosis.....	279	Arterial system (XLVIII). Lower limb (III). Gluteal region and thigh. Right lower limb (posterior view).....	329
Vascular anastomosis (II). Artery, vein and blood vessels, structure. Artery. Vein. Blood vessel.....	280	Arterial system (XLIX). Lower limb (IV). Thigh (I): Right lower limb (anterior superficial view).....	330
• Artery.....	280	Arterial system (L). Lower limb (V). Thigh (II). Right lower limb (anterior deep view).....	331
• Vein.....	280	Arterial system (LI). Lower limb (VI). Hip. Right lower limb (anterior view; superficial view, deep view).....	332
• Blood vessel.....	280	Arterial system (LII). Lower limb (VII). Right lower limb (anterior view). Femoral artery. Popliteal artery.....	333
Vascular anastomosis (III). Pulmonary circulation. Systemic circulation.....	281	Arterial system (LIII). Lower limb (VII). Leg (I). Right lower limb (anterior view).....	334
Arterial system (I). Systemic circulation. Main vessels.....	282	Arterial system (LIV). Lower limb (IX). Leg (II). Right lower limb (posterior view).....	335
Arterial system (II) (anterior general view).....	283	Arterial system (LV). Lower limb (X). Foot (I). Left lower limb (dorsal superficial view).....	336
• Arterial system.....	283	Arterial system (LVI). Lower limb (XI). Foot (II). Left lower limb (dorsal deep view).....	337
Arterial system (III). Neck and head (I) (frontal view).....	284	Arterial system (LVII). Lower limb (XII). Foot (III). Left lower limb (dorsal view).....	338
Arterial system (IV). Neck and head (II) (frontal view).....	285	Arterial system (LVIII). Lower limb (XIII). Foot (IV). Right lower limb (plantar view).....	339
Arterial system (V). Neck and head (III) (anterior view; right anterior superficial view).....	286	Vascular anastomosis (I). Pelvic cavity (I). Male sex (left lateral view).....	340
• Neck and head irrigation.....	286	Vascular anastomosis (II). Pelvic cavity (II). Female sex (left lateral view).....	341
Arterial system (VI). Neck and head (IV) (left superficial lateral view).....	287	Venous system (I) (anterior general view).....	342
Arterial system (VII). Neck and head (V) (left lateral deep view).....	288	• Venous system.....	342
Arterial system (VIII). Neck and head (VI) (left deep lateral view).....	289	Venous system (II). Head and neck (I) (lateral anterior view).....	343
• Irrigation of the pharyngeal view.....	289	Venous system (III). Head and neck (II) (anterior view).....	344
Arterial system (IX). Brain (I) (inferior view).....	290	Venous system (IV). Head and neck (III) (left lateral view).....	345
Arterial system (X). Brain (II) (superior view, left lateral view).....	291	Venous system (V). Head and neck (IV) (left lateral view).....	346
Arterial system (XI). Brain (III) (medial view). Right middle cerebral artery.....	292	Venous system (VI). Head and neck (V) (left lateral view).....	347
Arterial system (XII). Brain (IV) (sagittal and medial sections).....	293	• Drainage of the pharyngeal region.....	347
Arterial system (XIII). Brain (V). Cranial fossa (I) (posterior view).....	294	Venous system (VII). Head and neck (VI) (right lateral superficial view).....	348
Arterial system (XIV). Brain (VI). Cranial fossa (II) (posterior view).....	295	• Drainage of head and neck.....	348
Arterial system (XV). Brain (VII). Base.....	296	Venous system (VIII). Head and neck (VII) (left lateral deep view).....	349
Arterial system (XVI). Vertebral artery.....	297	Venous system (IX). Head and neck (VIII) (left lateral superficial view).....	350
Arterial system (XVII). Tongue (inferior anterior view).....	298	Venous system (X). Head and neck (IX) (left lateral view).....	351
Arterial system (XVIII). Neck. External carotid and subclavian arteries (posterior view).....	299	Venous system (XI). Brain (superior view). Cranial base, dural venous sinuses (superior view).....	352
Arterial system (XIX). Thoracic wall (anterior view).....	300	Venous system (XII). Veins, meninges and venous sinuses of dura mater. Orbit (right lateral view).....	353
Arterial system (XX). Trunk (anterior view).....	301	Venous system (XIII). Upper limb and thorax. Right upper limb (anterior view).....	354
Arterial system (XXI). Pulmonary arteries. Right pulmonary artery. Left pulmonary artery.....	302	Venous system (XIV). Lower limb. Right lower limb (anterior view, posterior view).....	355
Arterial system (XXII). Coeliac trunk (anterior view). Aorta (anterior view).....	303	Venous system (XV). Upper limb (I). Right upper limb (dorsal view).....	356
Arterial system (XXIII). Oesophagus (anterior view).....	304	Venous system (XVI). Upper limb (II). Right upper limb (palmar view).....	357
Arterial system (XXIV). Aorta (anterior view).....	305	Venous system (XVII). Upper limb (III). Hand (I). Right upper limb (palmar view).....	358
Arterial system (XXV). Thoraco-abdominal wall (anterior view).....	306	Venous system (XVIII). Upper limb (IV). Hand (II). Right upper limb (dorsal view).....	359
Arterial system (XXVI). Abdominal wall (posterior view).....	307	Venous system (XIX). Upper limb (V). Right upper limb (anterior view).....	360
Arterial system (XXVII). Abdomen (anterior view).....	308	Venous system (XX). Lower limb (I). Right lower limb (anterior deep view).....	361
Arterial system (XXVIII). Stomach (anterior view).....	309	Venous system (XXI). Lower limb (II). Right lower limb (anterior superficial view).....	362
Arterial system (XXIX). Large and small intestines (I) (anterior view).....	310	Venous system (XXII). Lower limb (III). Right lower limb (posterior superficial view).....	363
Arterial system (XXX). Large and small intestines (II) (anterior view).....	311	Venous system (XXIII). Male pelvis (anterior view).....	364
Arterial system (XXXI). Gastro-intestinal tract (anterior view).....	312	Venous system (XXIV). Pelvis (posterior view).....	365
Arterial system (XXXII). Trunk and abdomen (anterior view).....	313	Venous system (XXV). Vertebral venous plexus (posterior view).....	366
Arterial system (XXXIII). Abdomen (anterior view). Pelvic cavity.....	314	Venous system (XXVI). Trunk (anterior view).....	367
Arterial system (XXXIV). Pelvic cavity (posterior view).....	315	Venous system (XXVII). Vena cava and flowings. Female sex (anterior view).....	368
Arterial system (XXXV). Thorax and upper limb. Right upper limb (anterior view).....	316	• Vena cava.....	368
Arterial system (XXXVI). Upper limb (I). Right upper limb (anterior view).....	317	Venous system (XXVIII). Thorax and abdomen (I). Anterior wall. Male sex (anterior view).....	369
Arterial system (XXXVII). Upper limb (II). Scapular region (right posterior view).....	318	Venous system (XXIX). Thorax and abdomen (II). Costal network (I) (anterior view).....	370
Arterial system (XXXVIII). Upper limb (III). Shoulder. Right superior limb (anterior view).....	319		
Arterial system (XXXIX). Upper limb (IV). Arm (I). Right upper limb (anterior view).....	320		
Arterial system (XL). Upper limb (V). Arm (II). Right upper limb (anterior view).....	321		
Arterial system (XLI). Upper limb (VI). Forearm. Right upper limb (anterior view).....	322		
Arterial system (XLII). Upper limb (VII). Hand (I). Right upper limb (superficial palmar view).....	323		
Arterial system (XLIII). Upper limb (VIII). Hand (II). Right upper limb (deep palmar view).....	324		
Arterial system (XLIV). Upper limb (IX). Hand (III). Right upper limb (dorsal view).....	325		
Arterial system (XLV). Pelvic region and lower limb. Right lower limb (anterior view).....	326		

Venous system (XXXI). Thorax and abdomen (III). Costal network (II) (anterior view).....	371	eruption. Maxilla and palatine bone (caudocranial view). Child of 5 years old approximate. Dental formulae of DIF. Deciduous teeth. Child of 5 years old approximate.....	412
Venous system (XXXII). Thorax (anterior view). Tracheobronchial tree. Right pulmonary vein. Left pulmonary vein.....	372	Teeth (II). Adult. Approximate time of eruption. Correlative order of eruption. Dental formulae of IDF. Man of 20 years old. Left permanent teeth. Man of 20 years old.....	413
Venous system (XXXIII). Oesophagus (anterior view).....	373	Teeth (III). Structure of an incisor. Incisor and attached structures. Incisor components and attached structures. Sagittal and median section of incisor.....	414
Venous system (XXXIV). Tracheobronchial tree (anterior view).....	375	• Teeth.....	414
Venous system (XXXV). Intercostal veins and vertebral venous plexus (anterior superior view).....	376	Teeth (IV). Structure of a molar. Molar and attached structures. Teeth functions. Coronal section across anterior roots.....	415
Venous system (XXXVI). Abdomen (anterior view).....	377	Tongue, larynx and thyroid (anterior view of larynx, inferior of oral and lingual floor).....	416
• Drainage of the digestive system.....	377	Oesophagus (I). Oesophagus and main relations (anterior view, lateral view).....	417
Venous system (XXXVII). Portal vein network (I). Distribution (anterior view).....	378	Oesophagus (II) (anterior view). Histological structure of oesophagus, cervical (transverse section).....	418
Venous system (XXXVIII). Portal vein network (II). Collateral vessels (anterior view).....	379	• Oesophagus.....	418
Venous system (XXXIX). Abdomen (anterior view).....	380	Oesophagus (III). Mediastinal track (posterior view).....	419
Venous system (XL). Portal vein and flowings (anterior view).....	381	Abdomen and pelvis (I). Male sex (left sagittal section, lateral view).....	420
• Hepatic portal vein.....	381	Abdomen and pelvis (II). Female sex (right sagittal section, lateral view).....	421
Venous system (XLI). Hepatic vessels and ducts.....	382	Abdominal and pelvic entrails of digestive track and their attaches (anterior view).....	422
• Hepatic portal circulation.....	382	Greater omentum (anterior view and relations).....	423
Lymphoid system (I) (anterior general view).....	383	Stomach (I). Morphology and musculature (general view).....	424
• Lymphoid system.....	383	• Stomach.....	424
Lymphoid system (II). Lymph node and capillary. Lymph node. Lymphatic capillary.....	384	Stomach (II). Wall. Gastric wall (histological section). Gastric wall layers.....	425
• Lymph node.....	384	Stomach (III). Vascularization and relations (anterior view). Relations (anterior view, posterior view).....	426
Lymphoid system (III). Lymphatic circulation.....	385	Small intestine (I) (anterior view). Caecum.....	427
• Lymphoid system.....	385	• Small intestine.....	427
Lymphoid system (IV). Lymphatic drainage (I) (right lateral general view).....	386	Small intestine (II). Duodenum (anterior view and relations with pancreas).....	428
Lymphoid system (V). Lymphatic drainage (II) (frontal general view).....	387	Small intestine (III). Jejunum. Ileum. Small intestine wall (histological section). Jejunum. Ileum.....	429
Lymphoid system (VI). Right upper limb (anterior view). Neck lymphatic network regions.....	388	Small intestine (IV). Elements. Anatomic elements of jejunal ansa. Jejunal mucosa relief. Small intestine wall sections, ascending wall of duodenum. Duodenal mucosa relief. Jejunal layers detail. Ileal mucosa relief.....	430
Lymphoid system (VII). Neck, axilla and arm (anterior view).....	89	Large intestine (I). (anterior view). Large intestinal wall (histological section).....	431
Lymphoid system (VIII). Mediastinum and thoracic cavity (anterior view).....	390	• Large intestine.....	431
Lymphoid system (IX). Trachea and bronchial tree (anterior view).....	391	Large intestine (II). Large intestine in four month of foetal development. Vermiform appendix and adjacent structures. Terminal ileum.....	432
• Lymphatic drainage of the lungs.....	391	Large intestine (III). (transverse section). Vermiform appendix. Sigmoid colon, rectum and anus (frontal section and anterior view).....	433
Lymphoid system (X). Small intestine (anterior view).....	392	Large intestine (IV). Rectum and anus. Rectum and anus in frontal section (ventral view) (right lateral view; sagittal section).....	434
Lymphoid system (XI). Posterior wall of abdomen (anterior view).....	393	Large intestine (V). Perineum. Male sex (right lateral view). Rectum and anal duct; arteries, nerves and lymph nodes.....	435
Lymphoid system (XII). Abdominogenital region (I). Male sex (anterior view).....	394	Liver (I). Diaphragmatic (or anterior superior surface) (anterior view). Visceral (or posterior inferior surface) (posterior view).....	436
Lymphoid system (XIII). Abdominogenital region (II). Female sex (anterior view).....	395	Liver (II). Visceral surface (posterior inferior view, superior view).....	437
Lymphoid system (XIV). Spleen, pancreas and duodenum (anterior view).....	396	• Liver.....	437
Lymphoid system (XV). Inguinal region (anterior view).....	397	Liver (III). Hepatic segments (anterior view, posterior view).....	438
Lymphoid system (XVI). General paths.....	398	Liver (IV). Arterial and venous vascularization and intrahepatic bile ducts. Schema of venous portal distribution and intrahepatic bile ducts (frontal section, anterior view).....	439
DIGESTIVE SYSTEM.....	399	Gallbladder (anterior view). Bile ducts.....	440
Digestive system (anterior general view).....	400	• Gallbladder.....	440
• Digestive system.....	400	Pancreas (I). Location and adjacent organs (I) (anterior view).....	441
Phases of the digestive process.....	401	• Pancreas.....	441
• Digestion.....	401	Pancreas (II). Location and adjacent organs (II) (anterior view).....	442
Oral cavity and pharynx (I) (left sagittal and medial view).....	402	Pancreas (III) (anterior view, posterior view).....	443
Oral cavity and pharynx (II) (right sagittal and middle view).....	403	Spleen (I). Location and projection. Diaphragmatic surface. Visceral surface.....	444
Oral cavity (I) (anterior view).....	404	Spleen (II). Left subphrenic region (anterior view). Transverse section (caudal view). Histological structure.....	445
Oral cavity (II) (anterior view).....	405	Abdomen (I). Transverse section at level to intervertebral disk between TXII and LI vertebrae (caudal view).....	446
Oral floor (superior views).....	406		
Tongue (sections). Level of second molar tooth (anterior view). Level of medium segment of tongue (anterior view). Apex of tongue (anterior view).....	407		
Tongue and oral floor. Extrinsic muscles of tongue and oral floor (right lateral view). Vessels and nerves of tongue and oral floor (right lateral view).....	408		
Tongue, oral floor and neck. Intrinsic and extrinsic muscles of tongue (right lateral view). Sublingual and submandibular gland with oral floor relations (right lateral view).....	409		
• Soft palate and isthmus of the jaw muscles.....	409		
Oral region and topography of glands (I) (left anterior anterior lateral view).....	410		
Oral region and topography of glands (II). Major salivary glands from oral floor (caudocranial view). Major salivary glands.....	411		
Teeth (I). Child. Approximate time of eruption. Correlative order of			

Abdomen (II). Transverse section at level to L1 vertebra (caudal view).....	447	Ureter (transverse section).....	485
Abdomen (III). Male sex. Coronal section at level to pubic symphysis (anterior view).....	448	• Kidneys.....	485
■ RESPIRATORY SYSTEM	449	Kidney (II). Internal structure. Blood vessels. Conical tissue section.....	486
Respiratory system (general view).....	450	Kidney (III). Renal segments (anterior view, posterior view). Adjacent organs (anterior view).....	487
• Respiratory system.....	450	Renal corpuscle. Histologic characteristics.....	488
Upper respiratory tract (I) (lateral view).....	451	• Renal corpuscle.....	488
Upper respiratory tract (II). Nose. Lateral wall (anterolateral view, inferior view).....	452	• Glomerular elements.....	488
• Respiration and upper respiratory tract.....	452	Urinary bladder and urethra (I). Male sex. Female sex.....	489
• Nose.....	452	• Urinary bladder.....	489
Upper respiratory tract (III). Nasal cavity (I). Lateral wall.....	453	• Urethra.....	489
Upper respiratory tract (IV). Nasal cavity (II). Medial wall.....	454	Urinary bladder and urethra (II). Male sex (frontal section).....	490
• Nasal cavities.....	454	Urinary bladder and urethra (III). Female sex (frontal section).....	491
Upper respiratory tract (V). Nasal cavity (III). Medial wall.....	455	Urinary bladder and urethra (IV). Frontal sections. Male sex. Female sex.....	492
• Nasal conchae (or nasal cornets).....	455	Urinary structures. Female sex (anterior view). Male sex.....	493
Upper respiratory tract (VI). Paranasal sinuses (I) (coronal section, frontal view).....	456	Prostate and attached organs.....	493
Upper respiratory tract (VII). Paranasal sinuses (II) (coronal section, horizontal section).....	457	Pelvis. Viscerae. Male sex. Abdominal wall (section and cranial view).....	494
Upper respiratory tract (VIII). Paranasal sinuses (III) (left lateral view). Frontal and maxillary sinuses growing.....	458	■ GENITAL SYSTEM	495
• Sphenoidal sinuses.....	458	Male genital system (I) (right lateral general view).....	496
Upper respiratory tract (IX) Paranasal sinuses (IV) (left lateral view). Bones of nasal cavity and paranasal sinuses in birth.....	459	• Male genital system.....	496
• Maxillary sinus.....	459	Male genital system (II) (right lateral general view).....	497
Upper respiratory tract (X). Pharynx (I) (posterior view).....	460	Male genital system (III) (anterior general view).....	498
• Pharynx.....	460	Male genital system (IV). Penis and scrotum (anterior view).....	499
Upper respiratory tract (XI). Pharynx (II) (sagittal section).....	461	Male genital system (V). Spermatogenic ducts (posterior view).....	500
Upper respiratory tract (XII). Larynx (anterior view, posterior view, anterolateral view, lateral view).....	462	Male genital system (VI). Pelvis and perineum (I) (sagittal section).....	501
Upper respiratory tract (XIII). Varied structures. Larynx (sagittal section, posterior lateral view). Vocal folds in inspiration. Vocal folds in phonation. Trachea (posterior view). Tracheal bifurcation (superior view).....	463	Male genital system (VII). Pelvis and perineum (II). Location of basic elements (lateral view). Perineum, insertion of genital roots (lateral view).....	502
Mediastinum (I) (left lateral view).....	464	Male genital system (VIII). Pelvis and perineum (III). Urogenital region (left lateral view). Perineum, insertion of genital roots (anterior view).....	503
• Mediastinum.....	464	Male genital system (IX). Urogenital region. Wall layers.....	504
Mediastinum (II) frontal view.....	465	Male genital system (X). Inguinal duct and spermatic cord (anterior views).....	505
Vascular system (I). Superior mediastinum.....	466	Male genital system (XI). Pelvis. Transverse section. Superior view at the level of the LIII vertebra.....	506
Vascular system (II). Trachea and bronchi (anterior view).....	467	Male genital system (XII). Penis (I). Penis and perineal region, internal morphology. Penis and scrotum (anterior lateral view). Urethral layer.....	507
• Bronchial arteries and veins.....	467	• Penis.....	507
Vascular system (III). Lungs (I) (posterior view).....	468	Male genital system (XIII). Penis (II). Sections (longitudinal section, transverse sections). Spermatic tracts (longitudinal section).....	508
Vascular system (IV). Lungs (II) (anterior view).....	469	Male genital system (XIV). Testes. Testis, epididymis and spermatic cord, blood vessels (lateral view). Tubulus seminiferous (transverse section). Testis and epididymis (section).....	509
• Pulmonary arteries and veins.....	469	• Testes.....	509
Lungs (I) (internal view). Right lung. Left lung.....	470	Male genital system (XV). Spermatogenesis and spermiogenesis. Seminiferous tubule (section part). Schema of spermatogenesis.....	510
• Lungs.....	470	• Spermatogenesis.....	510
Lungs (II). Mediastinal surfaces and hila. Mediastinal surfaces. Left lung. Right lung. Hila of lung. Trachea and bronchial tree.....	471	• Spermiogenesis.....	510
Lungs (III). Lobes and segments (I) (lateral view, medial view).....	472	Male genital system (XVI). Spermatogenesis.....	511
Lungs (IV). Lobes and segments (II) (anterior view, posterior view).....	473	Male genital system (XVII). Urinary bladder, prostate and urethra (I) (posterior view).....	512
Lungs (V). Pulmonary segments. Pulmonary segmentation in thoracic CT.....	474	Male genital system (XVIII). Urinary bladder, prostate and urethra (II) (anterior view).....	513
Bronchial tree (I) (anterior view). Bronchopulmonary segments.....	475	Male genital system (XIX). Prostate (I) (longitudinal section, transverse section).....	514
Bronchial tree (II). Internal structure. Blood vessels and ducts. Vascular system. Pulmonary alveoli and alveolar sacs.....	476	Male genital system (XX). Prostate (II) (posterior view, anterior sectionate view, Posterior view, superior view).....	515
• Internal structure of the lung.....	476	• Prostate.....	515
Respiratory function.....	477	• Seminal vesicle.....	515
Intrapulmonary tract (I). Pulmonary alveolus (I).....	478	Female genital system (I) (right general view).....	516
• Gas exchange.....	478	Female genital system (II) (right general view).....	517
Intrapulmonary tract (II). Pulmonary alveolus (II).....	479	Female genital system (III) (anterior view).....	518
Intrapulmonary tract (III). Pulmonary alveolus (III).....	480	Female genital system (IV). Vulva and perineum.....	519
• Lungs.....	480	• Vulva.....	519
• Pulmonary alveolus (or bronchial alveolus).....	481	Female genital system (V). Uterus, uterine tube, ovaries and vagina (I) (frontal general view). Vagina (left lateral view).....	520
Lungs and pleura (anterior view, posterior view).....	482	Female genital system (VI). Uterus, uterine tube, ovaries and vagina (II) (frontal general view). Broad ligament of uterus.....	521
Respiratory muscles (anterior view).....	483	• Uterus.....	521
■ NEPHRO-URINARY SYSTEM	483	• Uterine tube.....	521
Nephro-urinary system (general anterior view). Male sex. Female sex.....	484	• Broad ligament of uterus.....	521
• Nephro-urinary system.....	484		
Kidney (I) (anterior view). Middle longitudinal section (posterior view).....	485		

Female genital system (VII). Pelvis and perineum (I)	522
Female genital system (VIII). Pelvis and perineum (II). Urogenital region (left lateral view). Perineum, insertion of genital roots (anterior lateral view, inferior view)	523
Female genital system (IX). Pelvis and perineum (III). Perineum. Vagina and clitoris	524
Female genital system (X). Vagina, uterus and adjacent structures (anterior view)	525
Female genital system (XIII). Transverse section. Superior view at the level of the LIII vertebra	526
Female genital system (XIV). Pelvic floor. Transverse section. Superior view at the level of the SI vertebra	527
Female genital system (XV). Vagina and uterus. Vaginal duct (posterior view, longitudinal section, transverse sections)	528
• Vagina	528
• Uterus	528
Female genital system (XVI). Ovarian cycle	529
• Ovary	529
Postpartum (I). Breast (or mammary gland) (I). Right breast (lateral view; frontal view, lightly oblique)	530
Postpartum (II). Breast (or mammary gland) (II) (partial section, anterior view)	531
Postpartum (III). Breast (or mammary gland) (III) (sagittal section). Lobes of breast	532
IMMUNE SYSTEM	533
Immune system (anterior general view)	534
• Immune system	534
Immune organs (I). Spleen (superior view, inferior view)	535
• Spleen	535
Immune organs (II). Lymph node. Structure. Marginal sinus. Lymphocyte. Longitudinal histologic section	536
Immune organs (III). Lymph node. Bone marrow. Aggregated lymph node	537
Immune organs (IV). Thymus. Pharyngeal lymphoid ring. Vermiform appendix	538
■ ENDOCRINE SYSTEM	539
Endocrine system. Hormonal control of hypothalamus. Adenohypophysis. Neurohypophysis	540
• Endocrine system	540
Hypophysis. Thymus. Pineal gland. Suprarenal gland	541
Thyroid gland. Parathyroid glands. Pancreas. C cell structure	542
• The thyroid tissue	542
Pancreas. Testes. Ovaries	543
Main endocrine glands (I). Hypothalamus. Adenohypophysis. Neurohypophysis. Thyroid gland. Suprarenal cortex. Parathyroid glands	544
Main endocrine glands (II). Suprarenal medulla. Ovaries. Endocrine pancreas. Testes. Pineal gland. Placenta	545
Main endocrine glands (III). Gastro-intestinal tract. Kidneys. Adipose tissue. Cerebrum. Kidney and blood vessels. Uterus	546
■ NERVOUS SYSTEM	547
Nervous system (posterior general view)	548
• The nervous system	548
Autonomic nervous system (general view)	549
Basic general organization (lateral view, anterior view)	550
Neuron (I)	550
• The neuron	551
Neuron (II). Efferent neuron	551
• Motor neuron	552
Neuron (III). Schema of neuron. Neuron components	552
Neuron (IV). Neuron types	553
Neuron (V). Structure (afferent neuron, efferent neuron)	554
Nerve (I). Nerve structure. Synapse	555
• Nerve	556
• Synapse	556
Nerve (II). Peripheral nerve	556
• Peripheral nerve	557

Nerve (III). Nervous tissue structure. Structure of spinal nerve	558
Central nervous system. Constituent parts of brain	559
• Brain	559
Cerebrum (I) (superior view)	560
• Cerebrum	560
Cerebrum (II) (inferior view)	561
Cerebrum (III) (superior view, right lateral view)	562
Cerebrum (IV) (lateral view). Insula	563
Cerebrum (V). Ventricles (left lateral view, anterior view). Ventricular system	564
• Cerebral ventricles	564
Cerebrum (VI). Limbic system. Dural septa	565
• Limbic system	565
Cerebrum (VII). Frontal section at the height of mammillary bodies. Frontal section at the height of pineal gland and fourth ventricle	566
Cerebrum (VIII). Trunk of brain and cerebellum (inferior view)	567
Cerebrum (IX). Brain. Trunk (dorsal view, transverse section)	568
Cerebrum (X). Brain and hypothalamus. Brain (medial view). Hypothalamic nuclei	569
Cranium (I). Projection of more important structures (I)	570
Cranium (II). Projection of more important structures (II)	571
Relations of hypothalamus and adenohypophysis. Adenohypophysis. Neurohypophysis. Hypophysis (posterior view; mediosagittal section) ...	572
Central nervous system. Hypothalamus and hypophysis. Hypothalamis-pituitary axis. Vascular network	573
• Hypothalamus	573
• Hypophysis	573
Basal nuclei	574
Fornix and basal nuclei	575
Thalamus	576
Hypophysis. Hypophysial hormones and target organs	577
Spinal cord. Internal morphology. Cervical part (transverse section at the height of the CV vertebra). Thoracic part (transverse section at the height of the TIII vertebra). Lumbar part (transverse section at the height of the LIV vertebra). Sacral part (transverse section at the height of the SII vertebra)	578
• Spinal cord	578
Cerebrospinal fluid circulation	579
• Cerebrospinal fluid circulation	579
Cerebral cortex. Motor and sensory functional areas. Functional areas (left cerebral cortex). Motor and sensitive areas of the cerebral cortex	580
• Cerebral cortex	580
Cerebellum (external caudal view, external anterior view, transverse view)	581
Nuclei of cranial nerves. Nuclei of encephalic trunks (I) (posterior view). Efferent nuclei. Afferent nuclei	582
Nuclei of cranial nerves. Nuclei of encephalic trunks (II) (medial view). Efferent nuclei. Afferent nuclei	583
Autonomic plexus	584
Cranial pairs (I). Distribution	585
Cranial pairs (II). Olfactory nerve (I pair)	586
• Olfactory nerve	586
Cranial pairs (III). Optic nerve (II pair)	587
• Optic nerve	587
Cranial pairs (IV). Oculomotor nerve (III pair)	588
• Oculomotor nerve (or motor ocular common nerve)	588
Cranial pairs (V). Trochlear nerve (IV pair)	589
• Trochlear nerve	589
Cranial pairs (VI). Trigeminal nerve (V pair) (I)	590
• Trigeminal nerve	590
Cranial pairs (VII). Trigeminal nerve (V pair) (II). Oculomotor and trochlear nerves. Nasociliary and maxillary nerves. Ophthalmic nerve	591
Cranial pairs (VIII). Abducent nerve (VI pair)	592
• Abducent nerve	592
Cranial pairs (IX). Facial nerve (VII pair)	593
• Facial nerve	593
Cranial pairs (X). Vestibulocochlear nerve (VIII pair)	594
• Vestibulocochlear nerve	594
Cranial pairs (XI). Glossopharyngeal nerve (IX pair)	595
• Glossopharyngeal nerve	595
Cranial pairs (XII). Vagus nerve (X pair)	596
• Vagus nerve	596

Cranial pairs (XIII). Accessory nerve (XI pair)	597	Lower limb (VI). Obturator nerve. Right lower limb (anterior view)	647
• Accessory nerve	597	Lower limb (VII). Common fibular nerve. Right lower limb (anterior view)	648
Cranial pairs (XIV). Hypoglossal nerve (XII pair)	598	Lower limb (VIII). Tibial nerve. Right lower limb (posterior view)	649
• Hypoglossal nerve	598	Lower limb (IX). Foot (I). Right lower limb (plantar view)	650
Medulla and spinal nerve	598	Lower limb (X). Foot (II). Left lower limb (dorsal view)	651
Spinal nerves. Formation of the pair of spinal nerves. Thoracic cavity, intercostal nerves	599	Autonomic nervous system (I). Sympathetic part	652
• Spinal nerve	600	• Sympathetic part of the autonomic nervous system	652
Plexus (I). Cervical plexus	600	Sympathetic trunk. Sympathetic pathways	653
• Cervical plexus	601	Autonomic nervous system (II). Parasympathetic part	654
Plexus (II). Brachial plexus. Right upper limb (anterior view)	601	• Parasympathetic part of the autonomic nervous system	654
• Brachial plexus	602		
Plexus (III). Brachial plexus (II). Axillary region (anterior view)	602		
Plexus (IV). Lumbar plexus	603		
• Lumbar plexus	604		
Plexus (V). Sacral plexus	604		
• Sacral plexus	605		
Head and neck (I). Pterygopalatine ganglion and anterior ethmoidal nerve. Nape of neck	606		
Head and neck (II)	607		
• Pharynx	607		
Head and neck (III). Posterior cervical region (I) (superficial view, deep view)	608		
Head and neck (IV). Posterior cervical region (II) (lateral view)	609		
Head and neck (V). Muscles and nerves (left superficial lateral view)	610		
Head and neck (VI). Facial and cervical regions (left deep lateral view)	611		
Head and neck (VII). Pharynx (posterior view)	612		
Head and neck (VIII). Larynx (superior view)	613		
Cardiac nerves (anterior view)	614		
Abdominal cavity (I). Male sex (anterior view)	615		
Abdominal cavity (II). Abdominal wall (I) (anterior view)	616		
Abdominal cavity (III). Abdominal wall (II) (anterior view)	617		
Abdominal cavity (IV). Abdominal wall (III) (anterior view)	618		
Stomach (anterior view)	619		
Kidney and urinary tracts. Male sex (anterior view)	620		
Coeliac and superior mesenteric plexures, small intestine and ascending colon (anterior view)	621		
Large intestine (I) (anterior view)	622		
Large intestine (II) (anterior view)	623		
Trunk (I). Female sex (anterior superficial view)	624		
Trunk (II) (posterior superficial view)	625		
Thorax, oesophagus and bronchi (anterior view)	626		
Pelvic cavity (I). Female sex. Left hemipelvis (sagittal section)	627		
Pelvic cavity (II) (lateral views)	628		
Pelvic cavity (III) (anterior view)	629		
Lumbosacral plexus (I). Male sex (anterior view)	630		
Lumbosacral plexus (II) (anterior view)	631		
Gluteal region (I). Right lower limb. Male sex (deep view)	632		
Gluteal region (II). Left side (deep view). Right side (superficial view)	633		
Upper limb (I). Right upper limb (palmar view)	634		
Upper limb (II). Axillary fossa and shoulder. Left upper limb (anterior view)	635		
Upper limb (III). Facial and axillary nerves. Right upper limb (posterior view)	636		
Upper limb (IV). Median nerve. Right upper limb (anterior view)	637		
Upper limb (V). Brachial region (I). Left upper limb (anterior superficial view)	638		
Upper limb (VI). Brachial region (II). Left upper limb (posterior deep view)	639		
Upper limb (VII). Antebrachial region (I). Left upper limb (anterior superficial view)	640		
Upper limb (VIII). Antebrachial region (II). Left upper limb (deep anterior view)	641		
Lower limb (I). Right lower limb. General superficial schema (anterior view, posterior view)	642		
Lower limb (II). Right lower limb. General schema (anterior deep view, posterior deep view)	643		
Lower limb (III). Femoral and lateral femoral cutaneous nerves. Right lower limb (anterior view)	644		
Lower limb (IV). Sciatic nerve. Right lower limb (posterior view)	645		
Lower limb (V). Femoral and obturator nerves. Right lower limb (anterior deep view)	646		
		■ ORGANS OF THE SENSES	655
		Vision (I). Eyeball (I) (horizontal section)	656
		• Sight	656
		Vision (II). Eyeball (II) (anterior area). Horizontal section at the level of the middle area of pupil. Iris. Basic structure	657
		Vision (III). Eyeball (III). Fundus oculi (ophthalmoscopic view). Optic nerve (horizontal section, transverse section)	658
		Vision (IV). Eyeball (IV). Muscles and lacrimal system. Extrinsic muscles of eye (lateral view). Right lacrimal system (anterior view). Extra-ocular muscles	659
		Vision (V). Retina (I). Rod. Cone. Retina (section)	660
		• Cones	660
		Vision (VI). Retina (II). Structure. Optic relations	661
		Vision (VII). Iris. Visual field. Pupil (anterior view). Iris (anterior view). Topographic projection of visual field (superior view)	662
		• Iris and visual field	662
		Hearing (I) (frontal general view)	663
		• Ear	663
		Hearing (II). Cochlea. Bony labyrinth. Acoustic meatus	664
		Hearing (III). Bony labyrinth (posterior superior view, anterior lateral view, anterior lateral section)	665
		Hearing (IV). Auditory ossicles. Malleus (lateral view, posterior view). Articulate bones (posterior view). Incus (lateral view, medial view). Stapes (superior view, superior lateral view)	666
		• Ossicles of the medial ear	666
		Hearing (V). Ear. Tympanic membrane. Tympanic cavity, lateral wall	667
		Hearing (VI). Auditory structures (I). External ear. Middle ear. Internal ear (frontal view). Section of cochlea. Bony labyrinth and cochlea. Spiral organ	668
		Hearing (VII). Auditory structures (II). Bony labyrinth. Sensory cells of balance sense. Macula	669
		Hearing (VIII). Auditory structures (III). Bony labyrinth and cochlea. Vascular and nervous networks	670
		• Internal ear	670
		• Cochlea	670
		Hearing (IX). Auditory structures (IV). Cochlea. Course of sonorous wave. Cochlea and spiral organ	671
		Hearing (X). Central mechanisms and auditory tract. Likely neurobiochemistry mechanism of production, transmission and modulation of auditory signal. Ionotropic and receptor of glutamate and ionic duct. Auditory tract schema	671
		• Auditory pathway	672
		Hearing (XI). Balance organ. Structure of acoustic macula. Brustle cells. Ampullary crest	673
		Olfaction (I). Nasal region. Lateral wall. Structure of olfactory epithelium	674
		• Smell	675
		Olfaction (II). Olfactory tract	675
		• Olfactory tract	675
		Taste. Gustative structures. Taste regions. Tongue. Lingual papillae. Taste bud	676
		Touch. Tactile receptors and mechanism of transmission. Tactile skin receptors. Mechanism of perception and sensory transmission	677
		• Tactile sensations	677
		Dermatomes	678
		• Dermatome	678
		■ BIBLIOGRAPHY	679
