Preface	v
---------------	---

THEORY

1. General Radiology	3–18
1. X-rays.....	3
2. Radiation Units	5
3. Deterministic and Stochastic Effects of Radiation.....	6
4. Radiation Exposure, Protection and Guidelines.....	7
5. Computed Tomography.....	8
6. Ultrasound Imaging.....	9
7. MRI Basics.....	11
8. Contrast Media	14
2. Respiratory System Imaging	19–40
1. Chest Radiograph Projections/Views.....	19
2. CXR Basic Interpretation.....	20
3. CXR–Additional Findings	21
4. CXR–Normal Variants.....	22
5. Differential Radiographic Density Theory and Silhouette Sign.....	23
6. Tuberculosis.....	28
7. Imaging in COVID-19.....	29
8. Pleural Effusion Imaging	30
9. Pneumothorax–Air in Pleural Cavity.....	32
10. Airway Disorders and Miscellaneous Conditions.....	34
3. Cardiovascular System Imaging	41–47
1. Congenital Heart Diseases.....	41
2. Acquired Cardiovascular Disorders	43
4. Gastrointestinal Tract Imaging	48–61
1. Pneumoperitoneum Clinchers.....	48
2. Focused Assessment with Sonography in Trauma (FAST).....	49
3. Esophageal Spotters.....	50
4. Bowel Obstruction	51
5. Focal Liver Abnormalities.....	56
6. Biliary Abnormalities	59

7. Biliary Tree Spotters	59
8. Pancreas Spotters	60
5. Gastrointestinal Tract Imaging	62–69
1. Urolithiasis Imaging	62
2. Congenital Anomalies of the Urinary Tract	63
3. Miscellaneous	68
6. Musculoskeletal System Imaging	70–88
1. Joint Diseases	70
2. Miscellaneous Arthritis	73
3. Systemic Bone Disorders	73
4. Skeletal Dysplasias—Treasure of Named Signs and Appearances	78
5. Bone Tumors	79
6. Benign Bone Tumors	80
7. Malignant Bone Tumors	81
8. Head and Neck Trauma	83
9. Spinal Injuries/Fractures	83
10. Shoulder and Upper Limb Injuries	83
11. Pelvic and Lower Limb Fractures	86
12. Miscellaneous	87
7. Central Nervous System Imaging	89–106
1. Acute Stroke Imaging	89
2. Head Trauma Imaging	93
3. Basic Approach to Brain Tumors	96
4. CNS Infections	102
8. Women's Imaging	107–112
1. Breast Imaging	107
2. Benign versus Malignant Lesions	108
3. Breast Imaging Specifics	109
4. Obstetric Imaging	110
5. Obstetric Imaging Specifics	111
6. Gynecology Imaging	112
9. Radionuclide Imaging and Radiotherapy	113–122
1. Radionuclide Scans	113
2. Systemic Radionuclide Imaging	115
3. Diagnostic Radionuclide Studies	115
4. Radiotherapy	118
Investigation of Choice—Clinical Concepts	124–125
