

Contents

➤ Preface	xii	➤ Phases of Qualitative Research Process	26		
➤ Acknowledgments	xiii	■ Review of Literature	26		
Part A: Nursing Research					
Section I: Introduction					
1	Introduction to Nursing Research	— Sukhpal Kaur			
➤ Introduction	4	➤ Summary	28		
➤ Meaning of Research	4	➤ Assess Yourself	29		
➤ Research: Definitions	4	3 Harnessing the Potentials of Artificial Intelligence, Cloud Computing and Machine Learning in Nursing Research			
➤ Research Process and Problem Solving Process	5	— Meghna Sharma, Siddharth Angrish, Sukhpal Kaur, Amarjeet Singh			
➤ Knowledge Building in Nursing	6	➤ Introduction	32		
➤ Development of Nursing Research: Historical Aspects	9	➤ Benefits of ICT use in Health	32		
➤ Purposes of Nursing Research	12	➤ Health Information Network	33		
➤ Significance of Nursing Research	12	➤ Artificial Intelligence	33		
➤ Scope of Nursing Research	13	➤ Summary	38		
➤ Characteristics of Nursing Research	14	➤ Assess Yourself	39		
➤ Qualities of a Good Researcher	14	Section II: Specialty Wise Issues of Nursing Research and Development			
➤ Gaps and Challenges in Nursing Research	15	4 Specialty Wise Issues of Nursing Research			
➤ Suggested Research Approaches for Nursing Faculty, Serving Nurses and Nursing Students	16	— Sukhpal Kaur			
➤ Summary	16	➤ Introduction	44		
➤ Assess Yourself	17	➤ Specialization in Nursing	44		
2	Nursing Research Process: An Overview	— Sukhpal Kaur			
➤ Introduction	20	➤ Research and Development in the Field of Specialized Nursing	48		
➤ Phases of Quantitative Research Process	20	➤ Summary	48		
■ Phase I: Conceptual Phase	21	➤ Assess Yourself	49		
■ Phase II: The Design and Planning Phase	23				
■ Phase III: Empirical Phase	24				
■ Phase IV: Analytic Phase	25				
■ Phase V: Dissemination Phase	25				

Section III: Steps of Nursing Research

5 Statement of Research Problem

— Sukhpal Kaur, Amarjeet Singh

➤ Introduction	54
➤ Research Problem	54
➤ Sources of Nursing Research Problem	55
➤ Factors to be Considered While Selecting a Research Problem	56
➤ Formulating a Research Problem	58
➤ Elements of a Research Problem	59
➤ Writing Statement of a Research Problem and Identifying the Variables	60
➤ Criteria to Evaluate a Research Problem	60
➤ Identification of Variables	61
➤ Formulation of the Hypothesis	62
➤ Assumptions, Limitations and Delimitations	65
➤ Summary	66
➤ Assess Yourself	67

6 Writing Research Objectives

— Sukhpal Kaur, Amarjeet Singh

➤ Introduction	70
➤ Aims and Objectives	70
➤ Characteristics of Research Objectives	70
➤ Importance of Writing Research Objectives	71
➤ Type of Research Objectives	71
➤ Stating the Objectives	71
➤ Examples of Writing Aims and Objectives	72
➤ Summary	72
➤ Assess Yourself	73

7 Review of Literature

— Sukhpal Kaur, Amarjeet Singh, Lalita Dheer

➤ Introduction	75
➤ Meaning	75
➤ Importance	75
➤ Purposes	75

➤ Types of Literature Review	76
➤ Sources of Literature	77
■ Online Sources of Literature	78
■ Shodhganga	83
➤ Process/Steps of Literature Review	83
➤ Critical Evaluation of Published Literature	87
➤ Summary	87
➤ Assess Yourself	88

Section IV: Understanding Theories, Models and Conceptual Frameworks in Nursing Research

8 Understanding Theories, Models and Conceptual Frameworks

— Sushma Kumari Saini, Geetanjali Kalyan

➤ Introduction	94
➤ Terminologies	94
➤ Central Concepts of All Nursing Models	98
➤ Classification of Nursing Theories—Grand Nursing	98
➤ Conceptual Framework	100
➤ Features of Conceptual Framework	101
➤ Importance of Using Theories/Models in Nursing	102
➤ Differences between Conceptual Framework and Theoretical Framework	103
➤ Examples of the Theoretical and the Conceptual Framework	103
➤ Examples of Conceptual Framework based on Basic Nursing Theories	103
➤ Examples of Conceptual Framework based on Combination of Basic Nursing Theories	103
➤ Examples of Conceptual Framework based on Non-nursing Theories	110
➤ Conceptual Framework based on Vanderbilt Model of Nursing Quality and Performance Improvement and Plan-Do-Study-Act (PDSA)	114
➤ Example of Conceptual Framework Developed based on Findings of Qualitative Analysis	118
➤ Summary	120
➤ Assess Yourself	121

Section V: Quantitative Research Approaches and Designs

9 Introduction to Quantitative Research Approaches and Designs

— Sukhpal Kaur, Amarjeet Singh

➤ Introduction	128
➤ Research	128
■ Basic Research	128
■ Applied Research	128
➤ Research Approach Vs Research Design	129
➤ Criteria for Selecting a Research Design	129
➤ Research Approaches and Designs	130
■ Quantitative Research Approaches	130
■ Qualitative Research Approaches	131
■ Comparison of Qualitative and Quantitative Research Methods	131
■ Mixed Method Research Design	132
➤ Other Types of Research Design	132
➤ Summary	135
➤ Assess Yourself	136

10 Types of Non-experimental Research (Observational Studies)

— Jaya Prasad Tripathy, Har Ashish Jindal

➤ Introduction	139
➤ Steps in Conducting Quantitative Research	139
➤ Non-experimental Research Design	140
■ Classification based on objectives	140
◆ Descriptive	
◆ Predictive	
◆ Explanatory	
■ Classification based in time dimensions	
◆ Retrospective	
◆ Cross sectional	
◆ Prospective	
■ Correlational research	
■ Survey design	143
■ Cohort study	144
■ Panel study	145
➤ Ethical Issues	146
➤ Data Analysis in Quantitative Study	146
➤ Summary	146
➤ Assess Yourself	147

11 Experimental Research Designs

— Nitasha Sharma, Devender Kumar Rana, Sukhpal Kaur, Sandhya Ghai

➤ Introduction	150
➤ Characteristics of Experimental Research Designs	150
➤ Internal and External Validity in Research Design	151
➤ Classification of Experimental Research Designs	153
■ Pre experimental design	153
■ Quasi experimental	154
■ True experimental	156
➤ Summary	161
➤ Assess Yourself	162

12 Randomized Controlled Trials

— Neha Chana

➤ Introduction	165
➤ History of RCTs	166
➤ Principles of RCTs	166
➤ Types of RCTs/Clinical Trials	168
➤ Phases of Clinical Trials/RCTs	168
➤ Advantages of a Clinical Trial	171
➤ Disadvantages of Clinical Trial	171
➤ Steps in Planning, Designing and Conducting a Clinical Trial	171
➤ Summary	174
➤ Assess Yourself	175

13 Conducting Cochrane Systematic Review

— Kathirvel S

➤ Introduction	178
➤ What is Systematic Review?	178
➤ What is Cochrane Systematic Review?	178
➤ Steps in Preparing the Cochrane Systematic Review	179
➤ Summary	183
➤ Assess Yourself	183

14 Clinical Trial Registry-India

— Kathirvel S

➤ Introduction	186
----------------	-----

➤ Process in Registration of a Trial with Clinical Trial Registry-India	186
➤ Summary	192
➤ Assess Yourself	193

Section VI: Issues of Sampling in Nursing Research

15 Sampling Techniques in Nursing Research

— Kathirvel S, Sukhpal Kaur, Amarjeet Singh

➤ Introduction	198
➤ Common Terminology Related with Sampling Techniques	199
➤ Sampling Process	200
➤ Factors Affecting Sampling Process	201
➤ Types of Sampling Methods	201
➤ Other Special Sampling Methods	210
➤ Characteristics of a Good Sample	211
➤ Advantages of Sampling	212
➤ Disadvantages of Sampling	212
➤ Summary	212
➤ Assess Yourself	213

16 Sample Size Calculation

— Kathirvel S

➤ Introduction	221
➤ Need for Sample Size Calculation	221
➤ Determining Factors for Sample Size Calculation	221
➤ Sample Size Calculation and Study Type	222
➤ Formulae for Demonstrating Significant Difference	226
➤ Prospective Studies	227
➤ Design Effect for Other Types of Sampling Methods	229
➤ Nomograms	230
➤ Sample Size Calculation for Qualitative Studies	231
➤ Reference Tables	231
➤ Summary	231
➤ Assess Yourself	232

17 Statistical Basis of Calculation of Sample Size in Nursing Research

— Gayatri Vishwakarma

➤ Introduction	235
➤ Why do We Care about the Sample Size and Power?	235
➤ Information Required to Estimate Sample Size	236
➤ Stages of Calculating Sample Size	238
➤ Prerequisites of Sample Size Calculations	238
➤ Sample Size Calculation	241
➤ Sample Size Adjustments	244
➤ Summary	244
➤ Assess Yourself	245

18 Devising Sampling Scheme from a Research Study

— Anubhuti Sharma, Amarjeet Singh

➤ Introduction	248
➤ Devising a Sampling Plan	248
➤ Traffic Worthiness Assessment Tool	253
➤ Summary	256
➤ Assess Yourself	257

Section VII: Tools in Quantitative Research

19 Tools used for Data Collection in Quantitative Research

— Dashrath R Basanar, Puja Dudeja, Sukhpal Kaur

➤ Introduction	262
➤ Scales of Measurement	262
➤ Variables	263
➤ Data Collection	264
➤ Selecting a Data Collection Tool	266
➤ Primary Data Collection Methods and Tools	267
■ Questionnaire	272
■ Scales	277
■ Visual Analogue Scale	278
■ Biophysiological Measures	279
■ Projective Techniques	279
■ Vignettes	280
■ Q Sort	280
■ Record Analysis	280
➤ Pretest/Pilot Study	280
➤ Process of Data Collection	281
➤ Summary	282
➤ Assess Yourself	283

20 Validity and Reliability of Research Tools

— Dashrath R Basanar, Puja Dudeja

➤ Introduction	286
➤ Characteristics of Data Collection Instruments/Tools	287
➤ Establishing Validity of a Tool	287
➤ Sources that can Affect the Validity of a Tool	288
➤ How to Enhance the Validity of a Tool?	289
➤ Estimating Reliability of a Tool	296
➤ Summary	301
➤ Assess Yourself	302

Section VIII: Data Collection and Analysis in Quantitative Research

21 Quality Assurance for Collected Data

— Bhavneet Bharti, Har Ashish Jindal

➤ Introduction	308
➤ Data Quality	308
➤ Data Contamination	308
➤ Data Cleaning and Editing	309
➤ Quality Assurance and Quality Control of Data Collection Before, During and After	310
➤ Summary	311
➤ Assess Yourself	312

22 Quantitative Data Analysis

— Bhavneet Bharti, Sukhpal Kaur, Amarjeet Singh, Ashok Kumar

➤ Introduction	314
➤ Types of Data	314
➤ Levels of Measurements	315
➤ Processing Data for Analysis	316
➤ Analyzing Quantitative Data	318
➤ Tests of Significance	318
➤ Various Tests of Significance	319
➤ Summary	322
➤ Assess Yourself	324

23 Presentation and Interpretation of Quantitative Findings

— Neha Chanana, Jaideep Kumar, Sukhpal Kaur

➤ Introduction	327
➤ Nature of Quantitative Research	327
➤ Presenting the Quantitative Data	327
➤ Summary	338
➤ Assess Yourself	340

24 Critical Evaluation and Reporting Format for Quantitative Studies

— Nidhi Bhatnagar

➤ Introduction	343
➤ CONSORT	343
➤ STROBE	346
➤ QUOROM and PRISMA	348
➤ MOOSE	352
➤ EQUATOR	354
➤ GRADE	354
➤ Summary	355
➤ Assess Yourself	356

Section IX: Qualitative Research Approaches

25 Qualitative Research Approaches

— Ravneet Kaur, Amarjeet Singh, Nitika Sharma

➤ Introduction	362
➤ Features of Qualitative Research	362
➤ Some Scenarios where Qualitative Research can be Useful	362
➤ Utility of Qualitative Research	363
➤ Key Approaches in Qualitative Research	363
■ Phenomenological research	363
■ Ethnographic research	364
■ Historical research	365
■ Grounded theory research	366
■ Action research	366
■ Case study	367
➤ Summary	368
➤ Assess Yourself	369

26 Methods of Data Collection and Data Analysis in Qualitative Research

— Ravneet Kaur, Amarjeet Singh, Nitika Sharma

➤ Introduction	372
----------------	-----

► In-Depth Interview (IDI)	372
► Focused Group Discussion (FGD)	373
► Other Systematic Techniques	375
► Data Analysis in Qualitative Research	376
► Software Packages for Qualitative Research	376
► Validity and Reliability of Qualitative Research	377
► Summary	377
► Assess Yourself	378

27 Delphi Technique*— Hemant D Shewade, Jeyashree Kathiresan, Vivek Gupta*

► Introduction	381
► What is Delphi Technique?	381
► Theory Behind Delphi Technique	381
► Steps of Delphi Technique	382
► Modifications in Delphi	384
► Summary	385
► Assess Yourself	385

28 Writing a Qualitative Research Report*— Ravneet Kaur, Amarjeet Singh, Nitika Sharma*

► Introduction	388
► Components of a Qualitative Report	388
► Guidelines for Reporting Qualitative Research and Synthesis	389
► Summary	391
► Assess Yourself	392

Section X: Mixed Method Research Approaches**29 Mixed Method Research Approaches***— Nidhi Bhatnagar*

► Introduction	398
► Classifying Mixed Method Study Designs	398
► Major Types of Mixed Method Study Designs	398
► Key Considerations in Designing a Mixed Method Study	402
► Challenges and Weaknesses of Mixed Method Study Design	403
► Summary	403
► Assess Yourself	405

Section XI: Quality Improvement Studies in Healthcare Settings**30 Quality Improvement Studies in Healthcare Settings***— Geetanjali Kalyan, Bandana Kumari, Parveen Kumar*

► Introduction	410
► Quality Improvement	410
► Changing Systems with the Science of Improvement	412
► Quality Assurance versus Quality Improvement and Research versus Quality Improvement	412
► Improvement and Change	413
► Model of Improvement	414
► Testing and Measuring Changes with PDSA Cycles	418
► Interpreting Data: Run Charts, Control Charts, and Other Measurement Tools	419
► Control Charts	421
► Histograms	423
► Pareto Charts	424
► Summary	425
► Assess Yourself	426

Section XII: Ethical and Legal Issues in Nursing Research**31 Ethical Issues in Nursing Research***— Ishwarpreet Kaur, Sukhpal Kaur, Amarjeet Singh*

► Introduction	432
► History of Development of Ethical Code for Research	432
► Purposes of Ethics in Nursing Research	433
► Ethical Principles in Nursing Research	433
► Ethical Issues in Research and the Committees Involved for Ethical Research	434
► Institutional Ethics Committee (IEC)	435
► Informed Consent	437
► Adverse Event Monitoring	440
► Data and Safety Monitoring Board (DSMB)	440
► RTI in Research	441
► Summary	441
► Assess Yourself	442

32 Legal Issues in Nursing Research

— Ishwarpreet Kaur, Neelima Chadha,
Pranita Pradhan, Amarjeet Singh

➤ Introduction	445
➤ Plagiarism	445
➤ Plagiarism in Research	446
➤ Strategies for Avoiding/Preventing Plagiarism	447
➤ Penalties for Plagiarism In India	449
➤ PGIMER Chandigarh Antiplagiarism Policy	449
➤ Summary	452
➤ Assess Yourself	452

Section XIII: Newer Techniques of Data Collection

33 Newer Techniques of Data Collection

— Nidhi Bhatnagar

➤ Introduction	458
➤ Paperless Data Collection	458
➤ Online Questionnaires	459
➤ Basic Survey Tools	461
➤ More Advanced Survey Packages	462
➤ Electronic Reading	462
➤ Summary	463
➤ Assess Yourself	464

Section XIV: Proposal Writing (Funded and Nonfunded)

34 Writing Research Proposal

— Ishwarpreet Kaur, Sukhpal Kaur, Amarjeet Singh

➤ Introduction	470
➤ Proposal	470
➤ Research Proposal	471
➤ Process of Writing the Research Proposal	475
➤ Example of Accepted and Rejected Research Proposal	476
➤ Summary	479
➤ Assess Yourself	481

Section XV: Communicating Research Findings

35 Communication and Utilization of Research Findings

— Sukhpal Kaur, Amarjeet Singh

➤ Introduction	486
➤ Communication of Research Findings	486
➤ Writing the Main Report (Thesis)	486
➤ Process of Publishing the Article	491
➤ Handling fear of presentation at scientific meetings	494
➤ Research Utilization	495
➤ Summary	496
➤ Assess Yourself	497

Section XVI: Writing the References

36 Writing the References

— Nitasha Sharma, Sukhpal Kaur

➤ Introduction	502
➤ Benefits of Referencing	502
➤ Commonly used Referencing System/Style of Writing References	502
➤ References versus Bibliography	507
➤ Annotated Bibliography	507
➤ Reference Management Software	508
➤ Important Points Regarding the List of References	508
➤ Summary	509
➤ Assess Yourself	510

Section XVII: Evidence-based Nursing Practice

37 Evidence-based Nursing Practice

— Sukhpal Kaur, Neelima Chadha, Meenu Singh

➤ Introduction	516
----------------	-----

➤ Concept of Evidence, Evidence-based Practice and Evidence-based Nursing Practice	516	➤ Kurtosis	556
➤ Need of Evidence-based Practice	517	➤ Concept of Normal Distribution	556
➤ Elements of Evidence-based Practice	517	➤ Standard Normal Curve	557
➤ Steps of Evidence-based Practice	518	➤ Correlation	557
➤ Orders of Evidence	520	➤ Methods of Studying Correlation	558
➤ Sources of Literature for Evidence-based Practice	520	➤ Regression	560
➤ Searching the Databases	521	➤ Various Tests of Significance	562
➤ Importance of Evidence-based Practice	521	➤ Parametric Tests	562
➤ Barriers of Evidence-based Practice	522	➤ Non-parametric Tests	567
➤ Research Utilization versus Evidence-based Practice	524	➤ Use of Statistical Packages	574
➤ Summary	524	➤ MINITAB	578
➤ Assess Yourself	525	➤ EPI INFO	578
		➤ Summary	578
		➤ Assess Yourself	579

Section XVIII: Critical Evaluation

38 Analysis of Quality of the Theses/ Dissertations

— Harish Narayanan, PK Gupta, Amarjeet Singh

➤ Introduction	532
➤ Research Methodology	533
➤ Methodology	534
➤ Recommendations	540
➤ Assess Yourself	540

Part B: Statistics in Nursing Research

Section XIX: Statistics

39 General Statistics: Methods and Concepts

— Ashok Kumar, Gunjan Grover, Sukhpal Kaur, Amarjeet Singh, Ruchi Saini

➤ Introduction	544
➤ Uses of Statistics in Research	544
➤ Terminology used in Statistics	545
➤ Measures of Central Tendency	545
➤ Uses of Mean, Median, Mode	550
➤ Measures of Dispersion or Variability	550
➤ Skewness	556

40 Demography and Population Statistics

— Gunjan Grover, Amarjeet Singh, Sukhpal Kaur

➤ Introduction	582
➤ Demographic Cycle	582
➤ Demographic Trends in India	582
➤ Indicators of population statistics	583
➤ Sources of Demographic Data	587
➤ Estimation of Population Trends	590
➤ Life Tables	591
➤ Summary	593
➤ Assess Yourself	594

41 Vital and Health Statistics

— Gunjan Grover, Amarjeet Singh, Sukhpal Kaur

➤ Introduction	597
➤ Uses of Vital Statistics	597
➤ Measures of Vital Statistics	598
■ Measures of Fertility	598
■ Measures of Mortality	600
➤ Standardization	601
➤ Other Measures of Mortality	602
➤ Few Ratios of Vital Importance	603
➤ Health and Health Statistics	603
➤ Measures of Morbidity	603
➤ Measures of Disability	605
➤ Summary	605
➤ Assess Yourself	606
<i>Statistical Tables</i>	609
<i>Glossary</i>	623
<i>Index</i>	633
