<i>Preface</i>	<i>v</i>
<i>Triage of Medical/Surgical Emergency Patient</i>	<i>xi</i>
<i>Abbreviations</i>	<i>xiii</i>
<i>Introduction</i>	<i>1</i>
Section I	
Basic Medical Sciences	
1. Biochemistry	6
Section II	
Management of Medical/Surgical Trauma	
2. Assessment of Injured Patients	32
3. Emergency Medicine	60
4. Emergency Medical Technician	63
5. Paramedic	70
Section III	
Case Taking and Physical Examination	
6. Interrogation of Patient	80
7. General Symptoms (Conditions)	97
Section IV	
Medical Emergencies	
8. Cardiovascular System Emergencies	106
9. Respiratory Emergencies	159
10. Fluid and Electrolyte Emergencies and Common Disorders	174
11. Environmental (Physical Agents) Emergencies	184
12. Poisoning/Toxicology Emergencies	194
13. Blood (Hematology) Emergencies	206
14. Gastrointestinal Tract (GIT) and Liver Emergencies	213
15. Endocrine and Metabolic Emergencies	225

16. Nervous System Emergencies	232
17. Psychiatric Emergencies	248
18. Pediatric Emergencies	255
19. Geriatric Emergencies	269
20. Skin Emergencies	276
21. Arthritis and Allied Rheumatic Emergencies	281
22. Oncology Emergencies	287
23. Emerging and Re-emerging Acute Infections	292

Section V**Surgical Emergencies**

24. Orthopedic Emergencies	302
25. Obstetrics and Gynecology Emergencies	306
26. Ear, Nose and Throat (ENT) Emergencies	315
27. Ophthalmology (Eye) Trauma	322
28. Accident and Emergency Surgery	329

Section VI**Administrative and Legal Considerations**

29. Clinical Audit	336
30. Medical Records Keeping	338
31. Legal Considerations	340

Appendices:

<i>Appendix I: Laboratory Procedures</i>	345
