<i>Special Features of the Book</i>	xvii
<i>Syllabus</i>	xix

Unit I Introduction to Computer Applications for Patient Care Delivery System and Nursing Practice

Chapter 1	Use of Computers in Nursing	3–8
	Introduction.....	4
	Use of Computer in Teaching-learning/Nursing Education	4
	Use of Computer in Nursing Practice.....	5
	Use of Computer in Nursing Administration	6
	Use of Computer in Nursing Research	7
Chapter 2	Windows Operating System	9–42
	Disk Operating System (DOS) and Windows (All Versions)	9
Chapter 3	Microsoft Office Word	43–71
	Introduction.....	44
	Office Packages.....	44
	MS Word	46
	Basic Features of MS Word.....	46
	Creating a New Document in MS Word 2007	64
	Saving a Document.....	65
	Closing a Document	66
	Opening a Document.....	68
	Formatting/Editing a Document.....	68
	Printing a Document	68
Chapter 4	Microsoft Office Excel	73–89
	Introduction.....	74
	Let us Begin.....	74
	Basic Features of MS Excel	74
	Creating a Workbook.....	75

	Saving a Workbook.....	77
	Closing a Workbook	78
	Opening a Workbook	78
	Formatting/Editing a Workbook.....	78
	Pictorial Presentation	84
	Printing a Workbook	85
	Let's Learn about the Latest Version of MS Excel.....	86
Chapter 5	Microsoft Office PowerPoint	91–108
	Introduction.....	92
	Let us Begin.....	92
	Basic Features of MS PowerPoint	92
	Creating a PowerPoint Presentation	93
	Saving a PowerPoint Presentation.....	93
	Closing a PowerPoint Presentation	96
	Opening a PowerPoint Presentation.....	97
	Formatting/Editing a PowerPoint Presentation.....	97
	Printing a PowerPoint Presentation	107
Chapter 6	Use of Internet and E-mail	109–137
	Accessing the Website.....	110
	Set up an Internet Connection.....	110
	Learn about URL.....	112
	Learn about Web	114
	Learn about Working of Internet.....	115
	Searching the Internet for Content	115
	Browsing History	116
	Default Page	119
	Social Media.....	120
	Accessing the E-mail and Communicating Through it.....	121
	Use of Internet Communication Programs—SKYPE	135
	Use of SKYPE/ZOOM/Google Meet in Nursing	136
Chapter 7	Literature Search	139–151
	Introduction.....	140
	Need of Literature Search	140
	Sources of Literature	140
	Boolean Operators.....	146
	Wildcard Characters.....	149
	MeSH (Medical Subject Heading)	149
Chapter 8	Statistical Packages	153–164
	Introduction.....	154

	Types of Statistical Packages.....	154
	Features of Statistical Packages	163
Chapter 9	Hospital Management Information System	165–173
	Introduction.....	166
	Definition of Hospital Management System.....	166
	Objectives of Hospital Management System.....	166
	Core Concept of Hospital Management System	167

Unit II Principles of Health Informatics

Chapter 10	Health Informatics	177–185
	Introduction.....	177
	Health Informatics	178
	Need of Health Informatics	179
	Objectives of Health Informatics.....	179
	Advantages of Health Informatics	180
	Limitations of Health Informatics.....	183
Chapter 11	Use of Data, Information and Knowledge in Healthcare	187–193
	Introduction.....	187
	Data, Information, Knowledge and Wisdom.....	188
	Informatics Pyramid	191

Unit III Information Systems in Healthcare

Chapter 12	Role and Architecture of Information Systems	197–210
	Introduction.....	198
	Role and Architecture of Information Systems in Modern Healthcare Environments.....	198
	Structure/Architecture of Health Information System	198
Chapter 13	Clinical Information System/Hospital Information System	211–236
	Introduction.....	212
	Definition	212
	Objectives of Hospital Information System.....	212
	Integrated Hospital Information System	212
	Recent Trends in Health Information System	218

Unit IV Shared Care and Electronic Health Records

Chapter 14	Challenges of Capturing Rich Patient Histories in a Computable Form	239–244
	Introduction.....	240
	Challenges of Capturing Rich Patient Histories in a Computable Form	240

Chapter 15 Latest Global Developments and Standards	245–248
Introduction.....	246
Latest Global Developments and Standards to Enable Lifelong Electronic Health Records to be Integrated from Disparate Systems.....	246

Unit V Patient Safety and Clinical Risk

Chapter 16 Patient Safety and Informatics	251–260
Introduction.....	252
Relationship between Patient Safety and Informatics	252
Organizations Working for Patient's Safety	259
Informatics and Patient's Safety	259
Chapter 17 Risk Management Process	261–265
Introduction.....	262
Definitions	262
Purposes of Risk Management Process.....	262
Functions of Risk Management Process	262
Risk Management Process and its Application	264

Unit VI Clinical Knowledge and Decision Making

Chapter 18 Knowledge Management	269–275
Introduction.....	270
Definitions	270
Concept of Knowledge Management	270
Objectives of Knowledge Management.....	274
Purposes of Knowledge Management.....	274
Advantages of Knowledge Management	274
Challenges Related to Knowledge Management	275
Chapter 19 Systematized Nomenclature of Medicine and Standardized Nursing Terminologies	277–293
Introduction.....	278
SNOMED CT	278
SNOMED versus ICD.....	280
SNOMED CT to ICD-10-CM MAP	282
Let's Do Mapping	283
Standardized Nursing Terminologies	287
NANDA International (NANDA-I)	287

Unit VII eHealth: Patients and the Internet

Chapter 20	Use of ICT in Public Healthcare	297–307
	Introduction.....	298
	Use of Information and Communication Technology to Improve or Enable Personal and Public Healthcare.....	299
	ICT in Public Healthcare.....	301
Chapter 21	Public Health Informatics and Role of Nurses	309–318
	Introduction.....	310
	DISC: Data, Information System and Context.....	310
	Public Health Informatics.....	311
	Advantages of Public Health Informatics.....	317
	Disadvantages of Public Health Informatics.....	317
	Role of Nurse in Public Health Informatics.....	317

Unit VIII Using Information in Healthcare Management

Chapter 22	Nursing Information System	321–326
	Introduction.....	322
	Definitions.....	322
	Purpose of Nursing Informatics.....	322
	Components of Nursing Informatics.....	323
	Advantages of Nursing Information System.....	325
	Disadvantages of Nursing Informatics.....	325
Chapter 23	Evaluation, Analysis and Presentation of Healthcare Data	327–337
	Introduction.....	328
	Healthcare Data Analytics.....	328
	Data Management.....	328
	Data Models.....	329
	Data Analytics.....	331

Unit IX Information Law and Governance in Clinical Practice

Chapter 24	Ethical-legal Issues in Healthcare	341–345
	Introduction.....	342
	Health Informatics-related Laws.....	343
Chapter 25	Ethical-legal Issues Related to Digital Health Applied to Nursing	347–351
	Introduction.....	348
	Ethical-legal Issues Related to Digital Health Applied to Nursing.....	348

Unit X Healthcare Quality and Evidence-based Practice

Chapter 26 Use of Scientific Evidence Professional Standards	355–363
Introduction.....	356
Use of Scientific Evidence in Improving the Quality of Health Care.....	356
Definitions	357
Concept of Evidence-based Health Informatics	357
ACE Star Model of Evidence-based Practice	359
PICO Framework in EBHI.....	360
Advantages of EBHI	361
Disadvantages of EBHI.....	362
Barriers in EBHI	362
<i>Index</i>	365
