Contents

Foreword by JS Hegde *iii*
Preface *iv*
Index of Competencies *viii*

PART I: TRAUMA TO BONES AND JOINTS

1. Management of Trauma **3**
2. Soft Tissue Injuries **9**
3. Introduction to Injuries to Bones and Joints **12**
- Introduction to fractures
- Introduction to dislocations of joints
- Physeal injuries

4. Open Fractures **22**
5. Fracture Healing **28**
6. Basic Principles of Fracture Management **33**
- Plaster of Paris, splints and tractions
- Common implants used in orthopaedics

7. Complications of Fractures **52**
- Hypovolemic shock
- Injury to major blood vessels
- Injury to the nerves
- Acute compartment syndrome
- Fat embolism syndrome
- Crush syndrome
- Malunion of fractures
- Delayed union of fractures
- Nonunion of fractures
- Post-traumatic avascular necrosis
- Myositis ossificans traumatica
- Volkmann ischemic contracture
- Complex regional pain syndrome (Sudeck's osteodystrophy)
- Post-traumatic joint stiffness
- Post-traumatic osteoarthrosis

8. Injuries around the Shoulder Joint **75**
- Acromioclavicular joint injuries
- Fractures of clavicle
- Sternoclavicular joint injury
- Fractures of scapula
- Dislocations of the shoulder joint

9. Fractures of Humerus **94**
- Proximal humerus fractures
- Fracture shaft of humerus
- Supracondylar fracture of humerus
- Fractures of lateral condyle of humerus
- Fractures of medial epicondyle of humerus

10. Injuries around the Elbow Joint **113**
- Elbow dislocation
- Pulled elbow

11. Forearm Injuries **117**
- Radial head fractures
- Fracture of both bones of forearm
- Monteggia fracture dislocation
- Galeazzi fracture

12. Injuries around the Wrist Joint **127**
- Distal radius fractures
- Scaphoid fractures

13. Hand Injuries **145**
14. Injuries of the Spine **151**
- Anatomy of the vertebral column
- Cervical spine injuries
- Injuries of thoraco-lumbar spine
- Neurological deficit in spinal injury

15. Pelvic and Acetabular Fractures 172

16. Injuries around the Hip Joint 182
- Dislocations of the hip joint
- Fracture neck of the femur in adults
- Intertrochanteric fractures
- Subtrochanteric fractures

17. Fractures of Femur 200
- Fractures of femur shaft
- Fractures of distal femur

18. Injuries around the Knee Joint 206
- Patella fractures
- Cruciate ligament injuries
- Injuries to the collateral ligaments of the knee
- Meniscal injuries

19. Fractures of Tibia and Fibula 224
- Tibial condyle fractures

20. Injuries around the Ankle and Foot 229
- Ankle injuries
- Talus fractures
- Calcaneum fractures
- Tarso-metatarsal injuries

21. General Principles of Management of Peripheral Nerve Injury 247
- Brachial plexus palsy
- Birth brachial plexus palsy
- Radial nerve injury
- Ulnar nerve injury
- Median nerve injury
- Sciatic nerve injury
- Common peroneal nerve injury
- Posterior tibial nerve injury

PART II: DISEASES OF BONES AND JOINTS

22. Anatomy and Physiology of Bones 283

23. Congenital Orthopaedic Conditions 291
- Congenital talipes equinovarus (CTEV)
- Congenital vertical talus
- Flat foot (pes planus)
- Developmental dysplasia of the hip (DDH)
- Congenital pseudoarthrosis of tibia (CPT)
- Congenital torticollis
- Klippel-Feil syndrome
- Cleidocranial dysplasia
- Osteogenesis imperfecta
- Achondroplasia
- Fibrous dysplasia
- Infantile cortical hyperostosis (Caffey's disease)

24. Pyogenic Infections of Bones and Joints 316
- Acute pyogenic osteomyelitis
- Chronic osteomyelitis
- Brodie's abscess
- Acute septic arthritis
- Hand infections
- HIV infection and orthopaedics
- Spirochetal infection of bones and joints

25. Tuberculosis of Bones and Joints 339
- Introduction to skeletal tuberculosis
- Tuberculosis of the spine
- Tuberculosis of the hip joint
- Tuberculosis of the knee joint
- Tuberculosis of the shoulder joint
- Tubercular osteomyelitis

26. Bone Tumors 364
- Classification and principles of management of bone tumors
- Benign bone forming tumors
- Cartilaginous tumors
- Cystic lesions of the bone
- Giant cell tumor (Osteoclastoma)
- Osteosarcoma
- Ewing Sarcoma
- Chondrosarcoma
- Multiple myeloma
- Metastatic bone disease

27. Metabolic Diseases of Bones 397
- Rickets
- Scurvy
- Osteoporosis
- Osteomalacia

- Hyperparathyroidism
- Gout and pseudogout
- Paget's disease of bone
- Osteopetrosis
- Skeletal fluorosis

28. Inflammatory Arthritis 422
- Rheumatoid arthritis
- Juvenile rheumatoid arthritis
- Psoriatic arthritis
- Reactive arthritis
- Ankylosing spondylitis
- Charcot joint (neuropathic joint)

29. Neurological Conditions 438
- Poliomyelitis
- Cerebral palsy

PART III: REGIONAL ORTHOPAEDIC CONDITIONS

30. Spine 447
- Intervertebral disc prolapse
- Spondylolisthesis
- Cervical spondylosis
- Lumbar spondylosis
- Lumbar canal stenosis
- Scoliosis and Kyphosis

31. Shoulder 476
- Adhesive capsulitis (Frozen shoulder)
- Shoulder impingement

32. Elbow 482
- Lateral epicondylitis (Tennis elbow)
- Medial epicondylitis (Golfer's elbow)

33. Wrist and Hand 486
- De Quervain's tenosynovitis
- Dupuytren disease
- Trigger finger
- Kienböck disease

34. Hip 493
- Idiopathic avascular necrosis of the femoral head
- Perthes disease
- Slipped capital femoral epiphysis
- Femeroacetabular impingement

35. Knee 512
- Angular deformities of the knee in children
- Osteoarthrosis of the knee joint
- Baker's cyst
- Meniscal cyst
- Discoid meniscus
- Osgood-Schlatter disease
- Pellegrini-Stieda disease
- Chondromalacia patella
- Loose bodies in the knee

36. Foot and Ankle 530
- Haglund's deformity and syndrome
- Plantar fasciitis
- Hallux valgus
- Morton's metatarsalgia

PART IV: MISCELLANEOUS

37. Special Imaging in Orthopaedics 539
- MRI in orthopaedics
- Bone scan
- PET scan
- Single photon emission computed tomography (SPECT)

38. Basic Practical Competencies in Orthopaedics 561
- Plaster slab or cast application
- Tractions in orthopaedics: Skin traction, skeletal traction
- Thomas splint application
- Splinting of the injured long bones
- Application of figure of '8'bandage for clavicle fracture
- Strapping the injured shoulder
- Aspiration of the knee joint

Index 479
